Senator Simon's Position.

The Republican senators were in caucus for one and one-half hours, on the Puerto Rican bill, on the afternoon of the 13th. It was apparent that a number thought the legislation was ill-advised, but while opposed to the bill, nevertheless would vote for it as a party measure. Deep feeling was displayed over the question by a number of senators, and especially those of the middle west, some of whom did not hesitate to affirm that any effort to place a tariff upon the exchange of business between the United States and Puerto Rico, probably would have an injurious effect upon the Republican party in these states. Senator Simon, of Oregon, went further than any other senator in declaring his unalterable position in favor of free trade with Puerto Rico. He said that if we did not intend to treat the new acquisitions as we treated other acquired territory, we should not retain them.

A Democrat Unseated in Congress.

Washington, March 12.—Today, for the second time within a week, a Democrat was unseated by the house, and a Republican seated in his place. R. A. Wise was given the seat hitherto occupied by W. A. Young, from the second Virginia district.

The vote was exceedingly close. While none of the Republicans voted with the Democrats, enough were absent and unpaired to reduce the Republican majority upon the final vote from sixteen, the normal majority, to seven.

Salem Statesman: Col. W. J. Bryan, of Nebraska, Democratic leader and noted free silver orator, is making a tour of the western and Pacific coast states, and will pay this city a visit on March 28th. Colonel Bryan is billed for several speeches in this state and a number in Washington and will probably come up through California. On March 28th he will deliver an address—on free silver, etc.—at Albany in the forenoon, and another in this city in the afternoon, and going to Portland to speak the same evening. The local admirers of the "Boy Orator of the Platte" are much pleased with the fact that Salem is included in the itinerary of the leader of "the faithful," and promise to give him a rousing reception.

Capt. S. B. Ormsby, superintendent of forests of Oregon, has decided to reserve that portion of the Cascade reserve known as the Woodruff place, at Union creek, and also the Brown meadows, five miles above on Rogue river, for the exclusive use of the forest rangers. The object is to preserve the grass for the use of horses of the rangers. Hereafter, the campers will be allowed to stop but one night at these points

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

WORSE THAN HORRORS OF SIBERIA.

Awful Conditions of Martial Law in the Mines of the Coeur d'Alenes in Idaho.

Washington, March 13.—More of the details of the terrible conditions existing in the Coeur d'Alenes during the military regime last year were related today before the house committee on military affairs.

L. J. Simpkins, an electrical engineer at Wardner, Idaho, was the first witness. He said he did not participate in the riot, but shortly after was arrested by a squad of United States troops, who went about the streets arresting persons pointed out by Bunker Hill mine "spotters." Two persons who stopped to see the soldiers and their prisoners were promptly arrested and put with the other prisoners. The witness said one of the prisoners, a Swede, was taken with a fit, whereupon a negro struck him senseless with the butt of a gun. The corporal of the guard came up, and turning over the fallen man, said: "I guess you've fixed that fellow all right." Simpkins said one of the prisoners was robbed of $90.

One of Simpkins' recitals caused something of a sensation. He said he was taken from the "bull pen" by a squad of four soldiers and marched to an open enclosure, where he was placed with his back against a building. The soldiers stepped back and cocked their guns, apparently making ready to shoot him. At this point a high official of the Bunker Hill mine appeared and said they had evidence enough to hang the witness or send him up for many years, but if he would tell who blew up the mill he would be turned loose.

The witness stated that another time while in the "bull pen," a party, who said he was authorized by an official, offered him $10,000 to implicate two persons in the blowing up of the mill. The party said it did not matter much who were implicated, but the names of certain miners and the county assessor were given, whom it was most desired to implicate, for the purpose, the witness said, of hanging them or getting them out of the country.

The witness detailed an interview with an army officer in which the latter declined to permit a priest to be summoned to one of the prisoners who was dying, and also refused to allow him to communicate with his partner as to the disposition of his property. He detailed many other instances of alleged cruelty. One of his recitals was as to a brief visit by General Merriam to the "bull pen" and the refusal to allow prisoners to communicate with him. In telling of the shooting of Johnson, the prisoner who went insane, the witness contributed additional testimony that while Johnson was running away a certain mine official shouted, "Shoot! Shoot!" and the soldiers accordingly shot. The witness said he helped dig the tunnel intended as a means of escape, as he was "dying by inches." He also gave his experiences on the standing line and while in solitary confinement.

What is England Doing on Our Borders?

Washington, March 14.—In the meeting of the house committee on military affairs today, Sulzer called up his resolution directing the secretary of war to inform the house what fortifications Great Britain is erecting along the northern frontier of the United States, especially at Puget Sound and in the northwest border country. An amendment was made striking out the reference to Great Britain and making it refer "to any foreign power." A motion to postpone consideration of the matter for a week prevailed on a party vote of six to five, and the resolution went over without action.

BOER REPORT OF A FIGHT.

Pretoria, March 13.—Commander Delarey's report of the fight at Abraham's Kraal Saturday, says:

"The British were estimated to number 40,000 men. Their first assault was repulsed. Only two Boers were wounded. The second assault was made on the hills to the left of our position. These hills were of great strategic importance. Appreciating this, I and 300 men defended the position from 9 in the morning until sundown. The burghers fought like heroes and three times repulsed masses of the British who kept relieving their tired men. Every attempt to storm was defeated. At sundown there were not 50 yards between us. The British lost heavily. No accurate returns of our losses are available.

Puerto Rico Appeals to Us for Justice.

San Juan De Puerto Rico, March 12.—The planters, merchants and manufacturers of Puerto Rico mailed to Congress yesterday, by the steamer Philadelphia, a statement, in which they say:

We beg to submit to your earnest consideration the following views as to the financial policy of Puerto Rico. We note with regret the principle enunciated by certain speakers in the lower house of congress that a tariff between Puerto Rico and the United States is the proper method of raising revenues for this island. To this we are unchangeably opposed, for the following reasons:

First—Because the taxation of our exports means an embargo on our foreign commerce.

Second—Because curtailment of our commerce with the United States would dock up our products here and prevent us gaining our legitimate proportion of profit on our productions.

We can never become independent financially if forced to trade solely among ourselves. We must have a market other than Puerto Rico, or else we cannot gain wealth.

Do not mistake the proposed 15 per cent of the Dingley rates for a reasonable rate. It is a fact that no class of goods produced here from leaf tobacco will be taxed less than 25 per cent ad valorem, while one of the most important of this class will be taxed 160 per cent ad valorem under the bill adopted by the house of representatives.

If this is not an embargo on our trade, what can it be called?

We earnestly ask free trade, believing that with a mutual interchange of products between the two countries the United States will be more than gainer.

The fact cannot be disputed that our people are in sore distress. We now ask as a right in equity that free trade with the United States be given us. We ask bread as a right from our mother. Do not, we pray, give us a stone. We ask for an immediate decision.

Governor Taylor Remains Until the Courts Decide the Controversy.

Frankfort Ky., March 13.—The legislature of Kentucky adjourned sine die today. The conference between Adjutant Generals Collier and Castleman resulted in a perfect understanding being reached. Governor Taylor will continue to act as governor. Governor Beckham will make no more move toward securing possession of the state buildings until the court of appeals has decided the matter.

The legislature has appropriated $100,000 for the use of Governor Beckham in reorganizing the state militia.

The Republicans in Governor Taylor's confidence say that he will remain at Frankfort in the discharge of his duties until the court of last resort passes upon the question at issue. Then, if the decision be against him, he will step out at once and turn over the state buildings to Governor Beckman.

Rev. Sheldon's Newspaper.

Topeka, Kans., March 13.—The first issue of Rev. Sheldon's Topeka Capital went to press at 2:37 this morning, and the press was kept running until noon printing over 100,000 copies. The rest of the edition will be printed in Chicago and New York, for which matrices will be sent daily.

The management of the paper says that about 360,000 copies are required daily, and that fresh orders are coming by every mail. The paper is not satisfactory to regular subscribers, and outside papers have been bought today.

ANAEMIA

Is a disease met with among young women principally. It is very common and is a forerunner of consumption. It is a disease of the blood. There is only a small quantity of blood in the system, and it is of a poor quality. The symptoms of the disease are quite numerous. They are readily discerned. If the progress of the disease is not checked death from consumption or some other disease is inevitable. HUDYAN will check its progress. HUDYAN will enrich the blood and make the patient strong. HUDYAN is for women as well as men. HUDYAN is a vegetable remedy, and it is harmless in its effect. It contains no iron to cause the teeth to decay. If you are suffering you should take HUDYAN now and then note the change in your condition. Study your symptoms carefully. These are your symptoms. Take HUDYAN now and they will disappear.

YOUR WEAK POINTS ARE:

1. CONSTANT HEADACHE—THE feeling is as though the head were going to burst from too much pressure. HUDYAN, by its action on the blood, will equalize the circulation of blood and the headache will disappear.

2-2. SUNKEN EYEBALLS AND DARK RINGS BENEATH THE EYES. HUDYAN will cause the rings to disappear and make the eyes bright.

3-3. PALE CHEEKS, from the poor quality of the blood, it being almost devoid of red coloring matter. HUDYAN will enrich the blood and cause the cheeks to become bright and rosy.

4. WEAKNESS IN THE HEART. This is the most pronounced symptom. The heart becomes weak and there is a constant sinking feeling around it. HUDYAN will make the heart strong and cause it to beat regularly, and the sinking feeling will disappear.

5. FEELING OF WEIGHT IN THE STOMACH AND INDIGESTION. This is due to the fact that the food in the stomach is not acted upon by healthy blood; therefore it is not properly digested. This leads to habitual constipation. HUDYAN will cause the food to be properly digested, improve the appetite and relieve the constipation. HUDYAN will relieve all the above symptoms and make you well. HUDYAN is for you. It is for men and women. After you are cured tell other women what HUDYAN has done for you. There are many other sufferers and they also wish to be cured. HUDYAN can be procured of druggists for 50c per package, or six packages for $2.50. If your druggist does not keep it send direct to the Hudyan Remedy Co., San Francisco or Los Angeles, Cal. Call upon the HUDYAN doctors. Consultation is free. ORDINANCE NO. 43.

An Ordinance Authorizing the President of the Board of Trustees of the Town of Coquille City, Coos county, Oregon, to Execute for and on Behalf of the Town of Coquille City, an Agreement Between Said Town and One J. L Davis for Furnishing the Town With Electric Lights for Its Streets, Roads, Alleys, and Other Purposes for a Term of One Year.

The Town of Coquille City does ordain as follows:

Section 1. That the president of the board of trustees of said town of Coquille City be and is hereby authorized to enter into and execute for and on behalf of said town an agreement with one J. L. Davis for furnishing electric lights for said town, which said agreement shall be executed in words and figures as follows:

This Agreement, made and entered into this 7th day of March, 1900, between J. L. Davis, of Calaveras county, in the state of California, the party of the first part, and the town of Coquille City, Coos county, Oregon, a municipal corporation duly organized and existing under and by virtue of the laws of the state of Oregon, the party of the second part, Witnesseth:

That the party of the first part agrees to erect in the town of Coquille City, on or before the 12th day of August, 1900, a well-equipped and modern electric light plant of sufficient power to furnish all private parties with all the electric lights for which they shall desire to subscribe, at a maximum rate not to exceed $1.00 per month for the first two burners, and at a maximum rate not to exceed the sum of $0.25 for all additional burners for which they shall desire to subscribe, and to furnish all street lights as hereinafter provided for.

The party of the first part further agrees to furnish said town for a period of one year from the time the said electric light system shall be in first-class running order, twelve sixteen candle power electric street lamps, and thirteen thirty-two candle power electric street lamps, said lamps to be distributed throughout the original town of Coquille City, Elliott's Addition thereto, Nosler's Addition thereto as far as southeast corner of Block Three of said Nosler Addition, on the unplatted strips bordering Elliott's Addition to said town, and two additional sixteen candle power lights in the recorder's office, all for the gross sum of twenty-five dollars per month, payable monthly at the end of each calendar month during the term of this agreement.

The party of the first part further agrees to furnis such additional electric street lights within the limits before named, as the board of trustees may from time to time require and at one dollar per sixteen candle power light and one dollar and fifty cents per each thirty-two candle power light per month, to be paid monthly at the time hereinbefore mentioned, provided the party of the second part shall pay the actual cost of putting the lights on the poles.

The party of the first part further agrees to extend said electric light system to any other points within the corporate limits of said town that the board of trustees may require, provided the party of the second part shall advance the cost of putting up the said extensions; but should said extensions be used also for private purposes, such rebate shall be made to the party of the second part as shall be agreed upon between the parties.

The party of the first part further agrees to maintain said electric light plant in first-class running order, and agrees that a ratable reduction shall be made for all time or times that the said system, or any part thereof, shall fail to operate in first-class manner and to furnish all lights herein contracted for.

The party of the second part agrees, in consideration of the foregoing, to pay the party of the first part the sum of twenty-five dollars per month, payable on or before the last day of each calendar month for the lights hereinbefore mentioned, and agrees to take and subscribe for said number of lights of said description for a period of one year from the time said electric light plant shall be in first-class running order, and upon the execution of this agreement by the party of the first part, agrees to grant to him a right and privilege to place poles in the streets of said town, also in the roads and alleys, and to run electric light wires therein for the purposes of said electric light system. Said right and privilege shall be for a period of fifteen years from the date hereof, the first seven years of which shall be exclusive to the said party of the first part.

It is further agreed between said parties that the party of the first part will change the location of any or all of said electric street lights at any time the board of trustees may require it, provided the party of the second part will stand the actual expense of said directed change.

It is further agreed between said parties that the said party of the second part shall have the option to renew this agreement, under the same terms and conditions, for one or more additional years, during the term of said fifteen-years franchise.

And whereas, it is understood between said parties that the party of the second part is desirous of having said town lighted by electricity not later than August 12, 1900; and whereas, other propositions have been made to said town for said purpose, and whereas the party of the second part is aware of this, now, therefore, all items of time herein mentioned, and particularly the time in which the said electric light system shall be in first-class running order, and the exact performance of all the terms and conditions herein shall be of the essence of this agreement, and if failure is made by the party of the first part to have said electric light plant and system in first-class running order by the 12th of August, 1900, or a failure to perform any or all the terms and conditions hereof by the said party of the first part shall, at the option of the party of the second part, render this agreement null and void, and the party of the second part shall have the right to repeal the ordinance granting said franchise.

IN WITNESS WHEREOF the parties hereto have executed this agreement in duplicate, the party of the first part by setting his hand and seal thereto, and the party of the second part by its board of trustees causing the president of said board to set the name of said party of the second part hereto, and to affix the corporate seal thereof, and to set his own name as president of said board of trustees.
