What is Imperialism.
In its essence imperialism is absolutism. Were congress to assume that it could exercise in the Philippines and in Puerto Rico absolute power, untrammelled by the constitutional limitations that apply to its exercise of authority in this land, it would most certainly be entering upon a policy of imperialism. So far as its rule over those islands is concerned, the character of our government would be changed. The republic for certain purposes and for dealing with certain peoples would be transformed into an absolute government. To say that the power of congress and of the executive can go into regions where they are not followed by the constitution is to proclaim a policy of imperialism. To say that there can be two classes—citizens and subjects—is a departure from republican ideas in the direction of imperialism.

The Puerto Rico tariff bill as passed by the house savers very strongly of imperialism, for it assumes that territory can be held by the United States for the benefit of the United States, and taxed by congress against the will of the inhabitants, without being accorded the privilege even of free intercourse with the United States. If this measure becomes a law it will be difficult for those responsible for its enactment to parry the charge of imperialistic tendencies.—Chicago Record.

Brother Dickey's Philosophy.
De longer I live de mo' impress I is wid de freedom er dis gov'ment outside de jail.

De office er de president is so high dat sometimes wen he gets dar he can't see de people below 'im. I don't b'lieve in dis country spreadin' out so far dat its arms can't reach its conntails.

Fun de way day talks, de Lawd is on both sides er de wars, but dar's no doubt dat de Devil's all over 'em.

In politics dey mos' ingrinly kicks de ladder down wen dey gets to de top. But sometimes dey overlooks de fact dat dey ain't no fire escape in de buildin'.

Many er de congressmen wen sen'er Washington ter serve de country ain't never heard fum tell seedime.

Politics meks strange bedfellows, en dey never is enough kiver ter tek in de crowd.—Atlanta Constitution.

Folly of Extravagance.
"Because I agree to undertake your defense," said the eminent criminal lawyer who had been called in, "you will have to be perfectly frank with me and tell me the whole truth. Did you embezzle the \$20,000 you are accused of having taken?"

"Yes, sir," replied the accused man. "I'll not attempt to conceal the fact from you. I stole every cent of it."

"How much of it have you still?" "It's all gone but \$10."

"Young man," said the eminent lawyer, buttoning his overcoat about him and putting on his gloves, "you'd better plead guilty and throw yourself on the mercy of the court."

"I'll do it if you say so, sir. What are you going to charge me for the advice?"

"Ten dollars."—Chicago Tribune.

One leading result of the struggle for supremacy among the western nations has been the gradual ascendancy of the Anglican, Teutonic and Scandinavian over the Latin races.

This would be a very happy world if people would always wear the expression they do when they are having their pictures taken.

Many women think they can do nothing without a husband, only to find when they get one they can do nothing with him.

A man may be both a success and a failure; he may be a success as a failure and a failure as a success.

It is the little things of life that are annoying; it is easier to dodge an elephant than a microbe.

The business of the entire world is done upon 5 per cent actual cash and 95 per cent faith.

American coal is sold cheaper in Paris, France, than in Philadelphia.

Utah Selects a Successor to Roberts.

Salt Lake City, April 2.—In the election today, for a member of congress to succeed Brigham H. Roberts, King, Democrat, was elected over Hammond, Republican, by about 2000 majority.

This year's casualties in the Philippine war are—American losses: 88 killed and 163 wounded. Insurgent losses: 1426 killed, 1453 captured, and thousands of rebel arms captured.

MANILA A CITY OF PLAGUES.
Census Shows a Death Rate of Over 40 per Cent—Over a Hundred Lepers.

Manila, March 6.—(Correspondence of the Associated Press.)—The census of Manila, just completed by the health department, gives the city an unpleasantly high rank among the unhealthful cities of the world. It establishes a death rate of something over 40 per cent at a conservative estimate. Former estimates and censuses have always given Manila a 300,000 population. This census was a careful count of natives and Chinese living in buildings and boats in the police districts of Manila, and it gave a total of 199,719, of whom 39,000 were Chinese. There are to be added the inhabitants of several villages within the city limits, Americans and Europeans and 1400 priests in the monasteries. From reliable information the officials estimate their number at between 50,000 and 60,000.

The deaths in Manila officially reported during six months, from July 1 to December 21 last year, were 6203. Of these 4911 were children. Some of the principal causes were beri-beri, 570; tuberculosis, 385; bronchitis, 314; dysentery, 229; fevers, 287; while stomach troubles ranged high. Manila now has three diseases epidemic which would throw the average community into a panic—bubonic plague, beri-beri and smallpox. Beri-beri results from a diet of fish and rice, so the whites do not fear it. Smallpox and leprosy, the Philippines always have, and the people look upon them as a matter of course, avoid direct contact but hardly giving second thought to their presence in the neighborhood.

Smallpox flourishes in some parts of Luzon constantly. Half of the natives in the country districts are pitted with it and mothers try to get their children infected with it, under the belief that it is less dangerous to the young. The towns along the northern coast and on the railroad between Manila and Daguupan are full of smallpox now. General Bell's famous volunteer regiment, the Thirty-sixth, is suffering from an epidemic. Lieutenant Toncray and Lieutenant Wing, both of whom were Tennesseans, the former holding a commission as captain in the Tennessee volunteers, and several soldiers have died and there are other cases in the regiment.

The easy-going natives and Spaniards paid so little attention to leprosy that the Philippines have never been noted for that disease, but there are more than 100 lepers in the Manila hospital.

Bubonic plague is a visitor to which distance lends terror. Two months ago the first case was discovered in Manila. Since that time there have been 200 cases, according to the estimates of the health officers, and at least 80 per cent of them have resulted fatally. Yet there has been no panic, no families have fled from the city, nor has the usual routine of life in the city been disturbed. The repressive measures of the health officers have been comparatively simple, but have proven remarkably effective, considering conditions they have had to fight. Their aim has been to make the city clean and keep it clean.

This is the last thing the masses of Filipinos and Chinese propose to do unless driven to it.

There are now 100 inspectors at work in Manila, 80 of them Chinese and the others Filipinos. They are sent out in squads, usually two Filipinos and a Chinaman, with a soldier to boss them, and see that they do their work and abstain from blackmailing. Major Brown and the officers of the health department boss the soldiers and the inspectors. Whenever a plague victim is discovered he is sent to the Chinese or the Filipino hospital, if it is possible to move him. The house is thoroughly disinfected, a bonfire is made of everything movable, a yellow placard announcing "Bubonic Pest" appears on the door, while a sentry stands guard to keep people away. Four days the house is kept closed and the inmates are isolated. When two or three cases develop on one street, the street is barred against business.

The officials have hoped that when the rainy season gets fairly under way, with a few six-inch showers, it will wash up the town so thoroughly that plague will be impossible. Even at its worst the surgeons who had experience dealing with yellow fever in Cuba consider the bubonic plague easier to control than their South American rival. Already the number of cases weekly reported is decreasing.

The transport Sumner started on her voyage for Manila, with troops and supplies, March 31st. Congressman E. H. Driggs, of Brooklyn, after a thorough inspection of the transport, and the charges of extravagance and lavish expenditure of money on the Sumner were true.

THE WARDNER RIOTS.
Astonishing Revelations Made by Governor Steunenberg.

Washington, March 29.—The extraordinary confessions of Governor Steunenberg concerning his views on labor unions made before the house military committee, were added to today. The governor frankly admitted in answer to questions put by Representatives Lentz and Sulzer, that, in his opinion, labor unions were criminal organizations and that labor leaders were criminals.

He said he had discussed this phase of the labor question with General Merriam, and that the latter coincided with him in his views. The unusual manner in which he acknowledged he had ignored the lieutenant-governor in favor of the Standard Oil man, Bartlett Sinclair, was gone over again, and the governor said he thought Sinclair better fitted to deal with labor troubles.

"He is determined," explained the governor, "and has no fear of man or consequences."

"Governor," asked Mr. Hay, "have you consulted with the president recently as to keeping the troops in Shoshone county?"

"Only through my dispatches to him and to the war department. The president replied to these."

The witness said the dispatches thoroughly explained his views as to what should be done, told of the throwing of the men into the bullpen, of the practical suspension of the habeas corpus, and of the uses to which the troops were to be put.

"Then you know that the president and secretary of war approved of the keeping of the troops in Shoshone county?"

"I certainly do. If the president and secretary of war did not approve of the troops being kept there, they would soon be removed."

These questions were asked by Representative Hay to show the connection of the administration with the Standard Oil interests in the Bunker Hill mine and in the Populist-Fusion governor. The Republicans fought hard to prevent answers being given that would connect the administration in any way with the outrages, but they failed. A series of questions were asked by Representative Hay to show the connection of the administration with the Standard Oil interests in the Bunker Hill mine and in the Populist-Fusion governor. BRITISH LOST SEVEN GUNS.
Three Hundred and Fifty Men and Baggage in Boer Trap.

London, April 2, 2 p. m.—The war office has received the following dispatch from Roberts, dated Bloemfontein, Sunday:

"I received news late yesterday evening from Colonel Broadwood at Thabochu, 38 miles east of here, that information had reached him that the enemy was approaching in two forces from the north and east. He stated that if the report proved true, he would retire towards the waterworks, 17 miles nearer Bloemfontein, where we have had a detachment of mounted infantry for the protection of the works.

At dawn today he was shelled by the enemy, who attacked him on three sides. He immediately dispatched two horse artillery batteries and his baggage toward Bloemfontein, covering some of them with his cavalry.

"Some two miles from the waterworks, the road crosses a deep mullah or spruit, in which during the night a force of Boers had concealed themselves. So well were they hidden that our leading scouts passed over the drift without discovering them, and it was not until the wagons and guns were entering the drift that the Boers showed themselves and opened fire. Many of the drivers of the artillery horses were immediately shot down at short range, and several guns captured. The remainder galloped away, covered by Roberts' Horse, which suffered heavily.

Broadwood's report, which has just reached me, contains no details, but states that he had lost seven guns and all his baggage. He estimates all his casualties at about 350, including 200 missing.

Broadwood's force consisted of the Royal household Cavalry, the Tenth Hussars, the Q and U Batteries of the Royal Horse Artillery, and Pitcher's battalion of cavalry. The strength of the enemy is estimated from 8000 to 10,000, with guns, the number of which is not yet reported. Of Q Battery, four officers were wounded, two of whom are missing. One gunner was killed and 40 noncommissioned officers and men are wounded or missing.

Of U Battery, all are missing except Major Taylor and the sergeant-major. The two cavalry regiments did not suffer so much. A report has just come in that the enemy has retired towards Ladybrand, leaving 12 wounded officers and some 70 men at the water works. We are now sending an ambulance for them.

The Best Food for Intellectual Thought.

No man can vote intelligently unless he thinks intelligently. In this time of "wars and rumors of wars" the greatest aid to intelligent thinking and the best food for intelligent thought is "that newspaper which is greatest and best."

The Semi-Weekly Republic is the greatest and best of all newspapers. Its telegraphic and cable news service excels that of any other paper. It prints the new news fully; not imaginative occurrences, but domestic and world-distant, fully authenticated facts.

The policies of the great political parties are now being formed and the candidates discussed. Now is the time to subscribe for the best medium of keeping in touch with the whole world, The Semi-Weekly Republic.

No less worthy of attention is The Republic's Sunday Magazine. It is replete each issue with the best of special articles written by the best of literary talent. Its beautiful half-tone illustrations have already made it famous and their quality and quantity will be preserved.

News features are illustrated and enlarged upon in a manner equal to the high-priced magazines. Events of current interest are set forth in entertaining style. There is humor in its pages, too, and for the benefit of the ladies the latest Paris fashions are each week exquisitely illustrated and described. The Republic's Sunday Magazine is standard.

The subscription price of The Semi-Weekly Republic is \$1 per year. With HERALD—both one year—only \$2.25.

The Republic Sunday Magazine is \$1.25 per year; with The Semi-Weekly Republic—both—\$1.50 per year. Both the Semi-Weekly and Sunday Magazine, clubbed with the HERALD, three papers, \$3.

Sent to Prison.

Chicago, March 31.—Robert Berger, partner of E. S. Dreyer, the banker, recently convicted of embezzling, was tonight found guilty and sentenced to an indefinite term in the penitentiary. The specific charge against Berger was receiving funds for deposit when he knew the bank to be insolvent.

Life and Strength Restored to Palsied Limbs

Mrs. H. T. Salisbury, of 11 Follett Street, Pawtucket, R. I., says:
"About eight years ago, I was taken with nervous prostration which was followed by a partial paralysis of the lower limbs. The doctor called it locomotor ataxia. I could not direct my steps, and I would often fall down. I tried many remedies but was not benefited until I began taking Dr. Williams' Pink Pills for Pale People.
Several doctors had told me that there was no cure for my trouble, but my improvement continued and I took the pills steadily for two years. At the end of that time I had regained full control of my limbs. The pain left me and has never returned."
Mrs. H. T. SALISBURY,
Subscribed and sworn to before me this 21st day of August, 1899.
CARLOS L. ROGERS,
Notary Public.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore sickly nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dan, etc., neuralgia, rheumatism, nervous headache, the after-effects of jaundice, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold in bulk or by mail. Beware of cheap imitations. All druggists, or direct from the Dr. Williams' Medicine Company, Florence, N. Y., 50 cents per box, 6 boxes \$2.50.

BIGGLE BOOKS

A Farm Library of unequalled value—Practical, Up-to-date, Concise and Comprehensive—Eminently Printed and Beautifully Illustrated.

By JACOB BIGGLE

- No. 1—BIGGLE HORSE BOOK
All about Horses—a Common-Sense Treatise, with over 70 illustrations, a standard work. Price, 50 cents.
- No. 2—BIGGLE BERRY BOOK
All about growing Small Fruits—and learns how to cultivate and market them. Price, 50 cents.
- No. 3—BIGGLE POULTRY BOOK
All about Poultry; the best Poultry Book in existence; tells everything; with 40 colored life-like reproductions of all the principal breeds, with egg illustrations. Price, 50 cents.
- No. 4—BIGGLE COW BOOK
All about Cows and the Dairy Business; having a great deal of practical information. Price, 50 cents.

A \$65.00 Machine For \$18.50

Cash with Order and Coupon

The Improved "Arlington" Sewing Machine

NEW HOME STYLE LATEST PATENT CHEAPEST

Shipped to anyone, anywhere, on 10 days' free trial in your own home, with no obligation on your part, except to return it in 10 days.

10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, finished in the most perfect manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity of construction, simplicity of operation, durability, and making it impossible to get out of order. It sews fast and makes a neat, strong, and all kinds of thread and all classes of material. Always ready for use and unvaried for speed, durability and quality of work. Notice the following points of superiority:

- The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw, substantial, neat and handsome in design, and beautifully ornamented in gold.
- High Arm—Space under the arm is 5 1/2 inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator—It is on the bed of the machine, never fails to take goods through; never slips at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—No need to wind bobbins manually and perfectly without holding the thread. Machine does filling the golden automatically and perfectly without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, never fails to take goods through; never slips at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—No need to wind bobbins manually and perfectly without holding the thread. Machine does filling the golden automatically and perfectly without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, never fails to take goods through; never slips at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—No need to wind bobbins manually and perfectly without holding the thread. Machine does filling the golden automatically and perfectly without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, never fails to take goods through; never slips at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will.
