During the still hours of Tuesday night the oven, weighing 3300 pounds, in the Belvedere bakery, was "swiped"—carried off—and where it is no one knows and parties with a chattel mortgage on the same are unable to locate it. The theory reported is that possession is nine points in law.

Friend H. P. Duffy, our match manufacturer, gives us much assurance that his project of establishing one of the largest plants in the manufacture of all kinds of matches at this place is improving every day and will come soon. It will be independent of the trust, and if established here will not be affected by that corporation's dictations, for it will have advantages which will admit of no interference. Besides, Mr. D. is the senior match-maker on this coast, and possibly of any other point in the United States, is an expert in his calling in all its lines of manufacture, and has had experience with commercial manipulations by trusts and combines before, against which he is "dead set" and holds the defenses on the inside of the circle. He cannot begin to supply the orders which are coming in with his present facilities of manufacture, and he holds the confidence and esteem of a large circle of dealers who will stand by him in his enterprise, including the inventors of match machinery who are being hounded by the trusts. We hope he will succeed.

Model Road Petition.

The citizens of Fishtrap community held a road improvement meeting recently and evolved a practical idea which they later embodied in petition form and sent by a committee consisting of Tenn Robison, J. C. James and John Rowan to present to the county court and in person press their claim. They are in earnest about getting out of the mud, and to quit wasting their money and labor in an effort which has proven an utter failure all these years.

We here give the wording of the petition, the names of subscribers and amounts subscribed, to show their own sincerity and the advantage it would be in saving public money:

FISHTRAP, March 22, 1900.

To the county court of Coos county, state of Oregon:

We, the undersigned taxpayers and citizens, agree to give in labor and material the amounts set opposite our respective names in building a plank road on Fishtrap county roads, beginning at some convenient point, provided the county will furnish a portable steam sawmill, also a capable man to take charge of and run the same.

C. T. Robison, 30 days' work with man and team and 20 acres of timber.
J. C. James, 30 days in labor and as much saw timber as you want.
John Rowan, 10 days labor.
W. A. Hammack, 30 days with team.
Nile Miller, 10 days of labor.
J. B. Lamb, " "
G. F. Robison " "
G. T. Robison, 10 days with team.
Geo. O. Pope, 10 days of labor.
Frank Miller, 10 days labor and 5 days team.
Sam T. Rowan, 26 days labor.
M. T. Clinton, 5 days.
W. T. and Geo. Miller, 30 days with team.
S. M. Rowan, 26 days.
Marshall Steel, 5 days of labor and as many saw logs as you want.
J. W. Strong, 10 days labor.
Frank Miller, " "
G. R. Hancock, 5 days "

The petition was filed April 6th, and court continued it for consideration.

A total of 275 days of labor has been subscribed, while there are some in the neighborhood that express a willingness hardly to limit the time—young men and well-grown boys who will work while the work lasts. Some four or five citizens who have not subscribed to the above will give earnest help.

Now, if other districts would move in the matter and give their moral support to this practical effort and to the court, there is a posibility of getting good roads at the lowest possible cost to the taxpayers.
