Announcement.

MARSHFIELD, Or., April 13, 1900.

To the Populist County Central Committee—Gentlemen: Having been notified that I was elected at the Populist county convention as a candidate for county clerk, I will respectfully resign, and assure you that if I would accept the nomination at all, it would be from the Populist party; but I do not want a public office. I trust the committee will see fit to place another candidate in the field. Kindly thanking the party for the confidence they have shown in me, I am,

Very respectfully, GEO. ROSS.

National Shame and Dishonor.

The Puerto Rico tariff bill has now passed both houses of congress. It is such a tariff bill as no other congress ever passed before—the object being to "protect" one part of the United States against another part. It is useless to enter into a subtle disquisition on the constitutional phases of this question. The point is that the measure is unjust. Any people under the flag of the United States should have and must have the right to market their products in the United States. It is true that 15 per cent of the present tariff isn't much. But the principle asserted in it is unjust. It cannot stand. It is negation of expansion. Unjust taxes are none the less unjust because they are light. So thought our forefathers when they rebelled against unjust taxation and declared their independence. In vain did Charles Townsend, George Grenville, Samuel Johnson and others set forth that the tax was small, and therefore that it was not worth while to resist it. The answer was, why then insist upon it? It was the injustice that kindled the colonial wrath. If we pursue this course we shall surely have a state of chronic rebellion in our new possessions.—Oregonian (Rep.)

The Constitution Ignored.

Washington, April 11.—The war department today complied with the recent resolution of the house of representatives, calling for the opinion of Mr. Magoon, the law officer of the insular division, relative to the extension of the constitution over Puerto Rico. The opinion was given in May, 1899. After referring to Spain's cession of the island, the opinion says: "Thereupon the territory conveyed became a part of the United States, and as such, subject to the constitution. No further action by congress was necessary or possible. The constitution does not depend upon congress for authority in any part of the United States. The reverse of the proposition is the fact. From this time on congress must look to the constitution for authority to legislate for Puerto Rico."

It seems the Republicans favor imperialism, but not expansion, if the latter makes them integral parts of the country with equal rights, and deprives them of the power to govern, fleece and tax them as colonies, a la Great Britain. A correspondent of the Washington Star says that "in the debate on the Puerto Rican bill several Republicans announced that they would be opposed to the retention of the Philippines if to retain them meant that they were to enjoy all the privileges of territory of the United States."

of fruit, fresh goat meat three times a week, and plenty of potatoes, rice and beans. Then there is a kind of sweet potato or yam here that reaches an enormous size and is good food when properly prepared. The worst feature of the service in the Philippines is being so far removed from civilization and the entire absence of any place of amusement. There being no place for men to spend their spare time they naturally drift into saloons, and the outcome is not very good for themselves or the service either. We have six men in the guardhouse out of a company, and they all brought it on themselves by getting drunk. One of them got drunk and tried to kill one of his comrades. He was given five years in prison and will be sent to Manila tomorrow.

The cry among all the soldiers is "I wish I had something to read." Any kind of literature printed in English is eagerly sought for and read and reread.

An enterprising Spaniard sent somewhere and got about 200 English novels and brought them to Cebu and they were snapped up like hot cakes and are passed around from company to company. The Red Cross is supposed to send reading matter over here for the soldiers, but someone else must get it, for all that we of the rank and file get is a few magazines half torn up. And even that much is better than nothing at all, so they are thankfully received.

I think the insurrection as an organized effort is about finished, but no doubt but there will be a great deal of bushwhacking, pillaging, murdering, burning raids and depredations for years to come, or until the enlightened and educated get to know that we are not here for the sole purpose of making war on them, but are here for their betterment and civilization; then, and not until then, can absolute peace and quietness be even hoped for. They (like the Chinese) have been traveling in the same old rut for so long that it is going to take a long time and very careful handling to persuade them to abandon their old ideas and customs and adopt the new. I do not think that they are capable of self-government, as yet; but on the contrary I think they will require a firm guiding hand for years to come after peace is accomplished and some kind of a government established before they can be trusted to administer the government. They have been used to the corrupt methods of Spanish officials for so long that their ideas of an officeholder would hardly correspond with ours. On Negros island they have always been friendly toward the U. S. and asked for troops to protect them from gangs of ladrones or robbers that infest the inhabitants of that island; troops were sent them and were kindly received by the populace who cheered when Old Glory was raised. In recognition of the manifested good will, it was decided to give them an experimental government, which was virtually a self-government, but they soon proved themselves incapable to govern themselves and the consequence was that a military government had to be established and Negros would soon have been in a state of insurrection and anarchy. Nearly the same thing was tried on this island, and it failed here. When the American troops came here they were well received, and were apparently welcome, and so the form of government they had established for themselves was allowed to stand for an experiment. But as soon as they fancied themselves secure they began underhand work for Aguinaldo and soon broke out in open rebellion, and the consequence is they have a military governor the same as Negros. It seems they cannot be trusted for anything only to breed discontent among the ignorant, who constitute a very, very large proportion of the population.

Quite a difference will be noticed between the churches and the schoolhouses. The churches are all fine large buildings of stone, while the schoolhouses are either built of mud or tripa palm. The churches are always floored either with marble or coral, while the schoolhouses have mother earth for floors. They are fitted with benches made of bamboo, with no backrests. School opens at 7 o'clock, and the morning session lasts until 10:30; the afternoon session continues from 2 o'clock until 5. They are a strictly religious institution and are taught by men who are studying for the priesthood. Nothing but religion and the first four rules of arithmetic are taught in the lower schools.

The scholars all study at the top of their voices like the Chinese, and you can imagine now it sounds and looks to an American. Boys and girls do not go to the same school, as with us, but are sent to different buildings. (I am speaking of the lower, or primary schools.) The larger places, such as Manila, Iloilo and Cebu, have very good schools and very well conducted, where the scholars can receive a very good education—that is, if they have the money to pay for it—for such a thing as a free school is an unknown quantity here and consequently the masses are densely ignorant. The other day I was trying to tell a prominent business man of this town something about the United

How a Little Boy Was Saved.

Washington, D. C.—"When our boy was about 16 months old he broke out with a rash which was thought to be measles. In a few days he had a swelling on the left side of his neck and it was decided to be mumps. He was given medical attendance for about three weeks when the doctor said it was scarlet fever and ordered a saline. He wanted to lance the sore, but I would not let him and continued giving him medicine for about four months when the bunch broke in two places and became a running sore. Three doctors said it was scarlet fever and each ordered a blood medicine. A neighbor told me of a case somewhat like our baby's which was cured by Hood's Sarsaparilla. I decided to give it to my boy and in a short while his health improved and his neck healed so nicely that I stopped giving him the medicine. The sore broke out again, however, whereupon I again gave him Hood's Sarsaparilla and its persistent use has accomplished a complete cure. I do not think there will be even a scar left. I cannot speak too highly of Hood's Sarsaparilla and I recommend it everywhere I get a chance." Mrs. NETTIE CHASE, 47 K St., N. E.

Like Magic. "A compilation of troubles, dyspepsia, chronic catarrh and inflammation of the stomach, rheumatism, etc., made me miserable. Had no appetite until I took Hood's Sarsaparilla, which acted like magic. I am thoroughly cured." N. B. SEELY, 1874 West 14th Ave., Denver, Col.

If you have failed to get relief from other remedies try Hood's Sarsaparilla. It cures when all others fail, because it is Peculiar to itself.

Mr. T. P. Hauly is building a new milk house on his dairy farm on the lower river.

Word reached here last Friday that James Moore, of steamer Bismarck northward, had died at Baker City a short time ago.

Last Saturday E. Prewett, of Bear creek, drove a band of hogs to Myrtle Point, where they will be fattened for the Packing company at that place.

The brake on the locomotive gave way a few days ago, and Hark and the locomotive came near going over to help swell the dump. One wheel was over the end of the track.

Marvin Hawkins, of Coquille City, was down this week, having been called here by the illness of his sister, Miss Ellen. Mr. H. is the Democratic nominee for county school superintendent.

Surveyors have been at work the past week running lines through the large tract of timber belonging to the Lyons estate on Lampey creek. It was not learned for what purpose the work was being done.

R. Pomeroy is making many improvements on the Perkins ranch which he has rented. He has just completed a milk and butter house, put in a separator and churn and will manufacture butter for the San Francisco market.

A cattlebuyer has been on the lower river the past week buying and contracting for calves and young stock for parties in Fresno county, Cal. He made contracts for some 600 head of calves at \$8 per head, to be delivered the first of September.

C. J. Stone, Lon Dixon and R. R. Robertson were in town this week. They were on their way to Cape Nome, and will go north when the steamer Del Norte leaves Coos Bay again for Portland. These gentlemen have been working the Madden mine near Sixes river during the winter and took out about \$600 in dust, when they made the last cleanup.

CHRONIC MALARIA

Differs materially from ordinary chills and fever. It is the result of repeated attacks of malarial poisoning, and is principally affected. They act as a storehouse for the malarial poison, and it is from them that the blood takes the poison.

HERE ARE YOUR SYMPTOMS: CONSTANT HEADACHE AND THROBLED BRAIN. The malarial poison is circulating in the brain. HUDYAN will drive it out. HUDYAN will purify the blood and the brain will receive it in a pure state. Your headaches will disappear and your mind will become clear.

PALE OR YELLOWISH COMPLEXION. HUDYAN will stimulate the free circulation of pure blood and cause the cheeks to assume their natural color.

LOSS OF APPETITE AND DRAINING IN THE STOMACH. HUDYAN will clear the stomach and restore the appetite and the digestion of food will become perfect.

FEELING OF WEIGHT OVER THE LIVER. This is due to the enlargement of the liver. HUDYAN will drive out the poison and cause the organ to assume its natural size.

HEAVINESS IN THE REGION OF THE SPLEEN. The spleen is greatly enlarged. HUDYAN, by its direct action on the malarial poison, will lessen the congestion and cause the heaviness to disappear.

You are suffering from Chronic Malaria and you can be cured. The relief is held out to you. HUDYAN will drive out the malarial poison and you will be cured. HUDYAN tell your friends what it has done for you. HUDYAN can be obtained of all druggists, or by purchase, or six packages for \$2.50. If your druggist does not keep HUDYAN, write to HUDYAN REMEDY COMPANY, San Francisco, or Los Angeles, Cal., and we will send you FREE. Call and see the doctors. You may call and see them or write, as you desire. Address:

Riverton Pick-Ups.

Riverton, April 22.—A. M. Buntin and family have moved into the Stacy Lee house.

W. Tollar and Martin Randleman made our town a visit last Saturday. They attended the dance.

The young people had a social dance at the residence of F. Costa.

Mrs. Kelly has moved temporarily on the Hancock place. She will cook for her son Walter, who, with Wm. Jephcott, have opened a logging camp on that ranch.

Rev. Sanderlin held services here Sunday.

Prof. Airey and family have moved into the Lowe house.

T. A. North has his creamery nearly complete. The machinery will arrive on first incoming boat. He will also put in several skimming stations, both on upper and lower river. He has settled here for business, and proposes to show the dairymen on this river that he can and will give them better returns from their milk than they have heretofore realized. A practical demonstration is all we require. DONA ASA.

Administratrix's Sale of Real Property.

IN THE COUNTY COURT OF THE State of Oregon for Coos County, in the matter of the Estate of Wm. Hutchinson, deceased.

By virtue of an order of the county court of the state of Oregon for Coos County, made and entered on the 8th day of July, 1898, directing me, as administratrix of said estate, to sell the real property belonging to said estate at private sale, or so much thereof as may be necessary to pay the debts against the said estate, the allowance for the family of said deceased and the costs and charges of the administration, I will sell at private sale all the following described real property of said estate, to-wit: The undivided one-third interest in the SW 1/4 of SW 1/4 section 10, the E 1/2 of SW 1/4 and NW 1/4 of SW 1/4 of section 15, all in township 28, south of range 13, west of the Willamette meridian, and also the NW 1/4 of the NE 1/4 and NW 1/4 of section 16, township 28, south of range 13, west of the Willamette meridian, and also the undivided one-sixth interest in the land and estate of James McCreary, deceased.

ETTA HUTCHINSON, Administratrix of the estate of Wm. Hutchinson, deceased.

Sunday afternoon, Harvey Gilman, son of Mrs. Albert Gilman, living near Johnson's mill above town, aged about 16 years, accidentally shot himself through his right hand with a pistol. He was sent out to the barn or shed where the calves were restless and bleating unusually, and on the way out he picked up a pistol and carried with him. A little while later a pistol shot was heard and another brother ran in and told the mother of Harvey's accident. A physician dressed the wound, which, we learn, is not bad, having shattered no bones or severed any sinews, but just a flesh wound.

The bridge leading to and past the Odd Fellows' cemetery and connecting with the north end of the big bridge on the west side of town, is now being constructed. This extension will be something over 600 feet long, span a slough and strike the Marshfield road near the Buzan home place. It is being put up on subscription of money and work, most of the former being supplied by property owners at the northwest end of town. Judge Nosler, we believe, is much interested in it and is directing matters largely, while many carpenters and neighbors are working at it.

Word reached us at noon yesterday that the Arago creamery had burned down Sunday evening, but no details as to the origin of the fire were given. It is said building and machinery were all totally destroyed. A policy for about \$2000 is said to be held by Judge Schroeder in the Oregon Fire Relief Association, at McMinnville, Oregon, while the property destroyed was worth hardly less than \$4500.

Look out for J. W. Leneve's new stock and prices.
