NO POPULIST FOR STATE SENATOR.

Hon. Thos. Buckman Declines, and Defers to the Action of Curry County.

MARSHFIELD, Or., April 26, 1900.

To the Editor of the Coquille City Herald: I still see my name as a candidate for state senator, subject to concurrence of Curry county, and as far as I can learn, Curry county has concurred in the action of the state convention, which endorsed the Democratic nominee.

I feel that I am out of the race. Were I to be made aware of the fact that the Populists of Curry county generally acknowledge my nomination, and will proceed to have my name upon the ticket, of course I will consent to run; but as I do not know that there is any move of that kind being made, I think it best for me to gracefully bow myself out of the contest.

Respectfully yours, THOMAS BUCKMAN.

Supreme Court on Our Railroad Subsidy Case.

Monday of last week our state supreme court, at Salem, ruled as follows in the appeal of Judge J. H. Nessler against the judgment of our circuit court in his subsidy subscription to the C. B. & E. R. & N. Co., upon which other subscriptions.

The Statesman gives the following statement of it: The Coos Bay, Roseburg & Eastern Railway & Navigation Company, respondents, vs. J. H. Nessler, appellant; appeal from Coos county, Hon. J. C. Fullerton judge; reversed and remanded. Opinion by Associate Justice R. S. Bean.

This was an action upon a subsidy agreement made by the defendant in June, 1890, by which he agreed to pay to plaintiff \$1000 in consideration of its building a railroad from Marshfield to Myrtle Point before January 1, 1891, and to Roseburg by December 31, 1891, payments to be made in installments as the work progressed.

Subsequently the contract was modified, extending the time of building the road to Myrtle Point to May 1, 1891, and to Roseburg one year later. Only a part of the money was paid, and the company sued for \$826.10, the balance due. At the trial a judgment was rendered for the plaintiff for \$600, and the defendant appealed.

The defense alleged non-performance of the contract within the time specified; the plaintiff attempted to prove that delays were caused by inclement weather, and the defense brought testimony to show negligence on the part of the plaintiff.

The case was tried on this issue. The appellate court holds that the trial court was in error in ruling that delays in the construction of the road, caused by inclement weather, were a sufficient excuse for non-performance of the contract within the time specified; that whenever a party by his contract creates a duty or charge upon himself, he is bound to make it good if he may, notwithstanding delays from any cause, for he might have provided against them in his contract, and therefore the plaintiff was bound to complete the road, as stipulated. The judgment is, therefore, reversed, and the case remanded for a new trial.

Insurgents List 333 Killed in Two Days in Northwestern Luzon.

Washington, April 24.—General Otis has cabled the following account of recent engagements in the Philippines: "Manila, April 24.—Early on the morning of the 7th, several hundred Tagalos and Visayans attacked a battalion of the Fortieth Infantry at Cagayan, on the north coast of Mindanao. Our casualties were two killed, 11 wounded; enemy's loss, 53 killed, 18 wounded and captured in the city, besides other losses suffered on retreat.

"Young reports from northwestern Luzon that several hundred natives, influenced by Aguinaldo's bishop, Aglipak, attacked his troops at several points, and in turn had been attacked. Their loss in the attack on Pateo, the 15th inst., was 168 killed, and during the entire fighting from the 15th to the 17th, 333 killed. Our loss during the period was two killed and four wounded. Young has plenty of troops, and will have little further opposition.

"Affairs at Luzon points are improving. Local presidents and inhabitants of towns are giving information and rendering assistance and the troops are now taking possession of inner small islands."

Agent to Investigate—Japanese May Be Contract Laborers. Washington, April 24.—The treasury department has ordered a special agent to proceed to the Pacific coast to examine into the large influx of Japanese coolies to this country within the last few months.

The immigration of Japanese to the United States has become so heavy as to excite suspicions that they are coming here as contract laborers.

DEPORTED LANDING TO TWENTY-ONE. San Francisco, April 24.—Immigration Commissioner North today denied landing to 21 of the Japanese who arrived here on the steamer Nippon Maru two weeks ago, on the ground that they are contract laborers.

SIX HUNDRED MORE JAPANESE. Victoria, April 24.—The Empress of China has arrived in port with 600 Japanese on board. She is held in quarantine. One thousand and fifty have been landed from the Braemar, 144 of them bound for Portland, and the remainder for Tacoma, Vancouver and Seattle.

Civil War Veterans' Offer to Kruger. New York, April 24.—The Sixty-ninth Regiment Volunteers' Club celebrated the 39th anniversary of their departure for the war with a dinner at the Sturtevant House last night. Just before the close of the festivities, Sergeant John Gleason, who has been in the regiment for 40 years, offered a resolution offering the services of the regiment to Paul Kruger. Before introducing the resolution, Sergeant Gleason said: "I am willing and prepared to go to the front with Paul Kruger now, although I have not shouldered a gun for 40 years."

The resolution was adopted with tremendous cheering.

Quay is Rejected. Washington, April 24.—The vote on the Quay case was taken promptly at 4 o'clock. The resolution which declared Mr. Quay "not" entitled to his seat, was first laid before the senate. Mr. Chandler moved to strike out the word "not," and on that the vote was taken. Quay lost. The vote was 32 to 33.

CLARK WILL RESIGN. Washington, April 24.—It is known that Senator Clark has come to the conclusion that the most dignified course for him to pursue is to withdraw gracefully and go before the people of his state with a request that they give him a vote of confidence and again send him to Washington. He will, therefore, resign as a senator from Montana.

"If I live to be 75 years old I intend to continue learning useful and helpful things." So said a person in our hearing lately. We wondered, will any of these things pertain to moral and spiritual matters? Do you want to learn to do Christian work in the most successful way? Then don't fail to get the "Life of Moody." Do you want something to inspire ambition in the mind and heart of the young, ambition to succeed even when surrounded and hindered by the most adverse circumstances? Do you wish heart-refreshing food and inspiration from the battle of life? Do you desire something to teach and help you succeed in your Christian work? Then be sure to get the "Life of Moody," and get that published by his son. It is the only one endorsed or approved by the family, Mr. Sankey and the trustees of Mr. Moody's institutions of learning, the only ones having access to his personal library, letters and family portraits.

The Fire at Arago—The Pioneer Creamery in Coos County Burned.

We mentioned briefly last week the destruction of the Arago creamery by fire on Sunday evening, April 22d, but had very limited particulars regarding it, some of which were faulty. The fact of the total destruction of building and machinery was correct, but we had nothing reliable concerning the origin of the disaster, and only an approximation of the amount of the loss and the supposition that the insurance was held in the Fire Relief Association at McMinnville. But we have since made inquiry into the cause of the destruction by fire of the Arago creamery, and have elicited the following from reliable sources:

On the afternoon of the fire there was a number of the neighborhood young men visiting at Arago, and they were given privilege to use the upper hall (Grange Hall) in the creamery, with the understanding that there was to be no smoking in the building. Some of the boys had skates and used them. They left the hall about 4:30 o'clock. After they left a number of persons passed the building. Judge Schroeder was at or near the building at 6:30 o'clock. Messrs. Hartley and Massey occupy a house about 100 feet from the creamery, and none of them noticed smoke or other indications that the building was on fire until the latter-named persons discovered the roof of the creamery to be on fire next to the house they occupy, at about 6:50 or 7 o'clock. The general impression of those who were at the fire is that the fire was caused by a spark from the flue of the building occupied by Hartley, which was in direct line of the strong wind blowing at the time and the spot where the fire was first discovered. The building was unoccupied and had not been used as a skating rink, as some of the local papers have stated.

The Arago creamery was the pioneer plant in Coos county and was built by Judge J. Henry Schroeder in 1892, at a cost of about \$8300. It commenced to receive milk daily 9th of that year. The greatest daily receipt for 1892 was 7000 lbs. of milk; in '93, 11,000 lbs.; in '94, 16,000 lbs. In '94 the creamery distributed about \$17,000 among its patrons. In 1895 the creamery plant was sold to the Arago Creamery Co., incorporated, who ran it four years.

Last year it was sold to W. M. Burgess and Wm. H. Schroeder, who ran it last year again.

Judge Schroeder holds a mortgage against the property amounting to about \$2390. It was insured in the Lower Columbia Fire Relief Association (Grange Association)—and not in the Oregon, or McMinnville, as stated by us last week for \$2000.

Judge Schroeder tells us a true and correct extract from the proceedings of said court at said term.

Ohio Republicans. Columbus, Ohio, April 24.—The state Republican convention made a great administration demonstration here today. Usually there is only one keynote speech, that of the temporary chairman, but there were two today, and the one that caused more comment than any other convention speech in the history of Ohio Republicans, was by Senator Hanna. It was very much of a Hanna day without dissension or a discordant note.

The Thirteenth Annual Convention of Oregon Christian Endeavorers will be held in Albany, May 25, 26 and 27, 1900. All arrangements are nearing completion for a large and enthusiastic convention. The principal speaker will be the renowned temperance orator, John G. Wooley. Another attractive feature of the convention will be the popular evening meetings. One of these will be given up to a stereoscopic entertainment in which the famous pictures by James Tissot, illustrating the Life of Christ, will be reproduced. Reduced rates will be secured on the railroads for those desiring to attend.

Exchange: Gossip has made many a hell on earth. Gossip has parted many husbands and wives. Gossip has blackened and sullied the characters of many girls. Gossip has parted lovers who would have been happy had it not been for it. One little misstep or one indiscretion will cause gossip to arise with new strength and start on her mission. Her, did we say? We ought not to, for we have male gossipers, and as a rule they are ten times as venomous as a female. A good healthy gossip is about as mean and low and dangerous as the meanest thing on earth.

Plea for Memorial Day. The following circular letter has been sent out: "Headquarters Department of Oregon, Grand Army of the Republic, Portland, Oregon, April 14, 1900. Circular letter No 1.

"To Comrades of the Grand Army of the Republic, Department of Oregon: At the meeting of the Council of Administration of this department, held at Grand Army Hall, Portland, Oregon, February 20, 1900, the following resolution was offered by Department Chaplain C. E. Chino and was unanimously adopted:

"Resolved, That the Council of the Administration of the Department of Oregon, G. A. R., respectfully request all civic and fraternal organizations in this state to give, uncollected, to the Grand Army of the Republic, May 30th, as Memorial Day, and that the press of the state be requested to aid in keeping sacred this day, devoted to the Nation's honored dead."

The ancients believed that rheumatism was the work of a demon within a man. Anyone who has had an attack of sciatic or inflammatory rheumatism will agree that the inflammation is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth the many times its cost. For sale by R. S. Knowlton.

Bandon Reservoir.

School will open next Monday, at the four-mile schoolhouse, with Andrew Jackson as principal, this being his first term in that capacity.

Miss Bell Lamont has been engaged to teach the New Lake school this summer, and Miss Sadie Faby has charge of the Raudolph school.

The Bandon Woolen Mills Co. have been complimented by another order for blankets for the Oregon National Guard; 300 blankets are wanted this time.

Mrs. M. Bryan closed her term of private school in this district last Friday, and on Monday morning opened up the school in the Two-mile district.

Elbert Dyer, accompanied by his mother Mrs. Fanny E. Dyer, will leave for a visit to San Francisco in a few days. Mrs. Dyer will visit New Whatcom, Washington, before returning.

The battleship Iowa passed up the coast yesterday morning, passing not about a half mile outside the bay. From some cause or other she failed to salute, but it may be that she split her whistle in saluting Port Orford and was afraid to recognize Bandon for fear of another accident.

Another effort is being made to secure steamer transportation between this place and San Francisco and business men here have agreed to patronize a venture of that kind offering reasonable rates. There are two or three parties looking Coquille-ward now and it is very probable that a steamer will be secured.

J. A. Laughhead has purchased the property here owned by James Cartwright, and Mr. Cartwright and family will leave in a few days for the east. They will go as far east as St. Louis and possibly to Columbus, Ohio.

J. A. Rupert left last Friday for Cape Nome which he will visit first and then go to Dawson, near which place his son Frank is at work on a claim. Thornton Williams, who was connected with Geo. W. Williams in the mercantile business here some five years ago, has a claim only a few yards from Frank's claim and will clear some \$30,000 out of it.

A smash-up at the rock quarry last Friday has delayed work somewhat on the jetty. While letting down two loaded cars the cable broke and a run-away ensued. The two loaded cars and the two that were being drawn up to receive loads reached the switch in their wild race down the track, at the same time colliding with a force that not only demolished the cars but the track and timbers also. There was no one hurt and the damage was repaired by Monday.

Donald Charleson met with a serious mishap yesterday morning while on his way to take his turn as patrol at the lookout. There was a severe storm raging and when near the bluff the wind blew out his lantern and left him in the dark. In trying to reach the lookout he fell over the bluff, fracturing the left leg at the ankle joint. The accident occurred about four o'clock in the morning and it was about thirty minutes later when help came in the person of Fred Mehl, who heard Donald's calls for aid and came to his relief from the lookout.

Gov. Geer has appointed the following gentlemen members of the board of commissioners of the Second Southern Oregon District Agricultural Society: J. C. Aiken and P. B. Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-worked in pumping thick, kidney
