SLANG.

BY STAR KEY.

"Give us a breeze," the captain cried,
"Then we'll 'get up and get;'"
"Give us a rest," the seaman sighed;
"There's wind enough, 'you bet.'"

"Go hire a hall," said dainty Sue,
And what was more uncouth,
She said, "I'll put a head on you,
If you 'shoot off your mouth.'"

A "racket" now, was once a "muss;"
To run is "on the fly;"
Commenting on some wicked "cuss,"
'Tis "how is that for high."

The printer, too, in language free,
(A truly vulgar whim)
When speaking of an enemy,
Says: "We'll set cown on him."

A mischief-making boy you see,
And enter your protest;
Some light reproof; when quickly he
Replies; "Pull down your vest."

Slang phrases now are "all the go;"
E'en while the pen I touch,
I hear some fellew cry "go slow;"
Another yells "not much."

Private Ownership of Public Officials.

Political and civic conditions in the United States are now undergoing rapid and important changes. They are nearly all tending in the direction of better citizenship and government.

In the spread of sound knowledge the development of public spirit and the growth of civic pride and political honesty lies the safety of our institutions. The masses of the people are looking more and more to the men of education to lead them to a better understanding of the rights and duties of citizenship. In the slums and the quarters of the poor and ignorant in every large city of the country today we find university settlements—mere beginnings many of them, but everyone a green oasis in a desert where social and political conditions are of the lowest order.

There has been a growing tendency among men who were other wise good citizens to shirk public duties. They wanted to keep out of politics and public life but in keeping out they made room in both places for men who ought to be in jail

It has been demonstrated again and again that really bad government is never permanently reformed by changing its politics. The government of states and cities in this country that has been most expensive, corrupt and debasing has been government that openly violated no statute law.

The old system of stealing from the public treasury has passed away and the safer and more profitable plan of bartering political influence for cash or stock in corporations has succeeded. The people are beginning to understand that the government under which they live, in city or state, is going to be all the time pretty much what they make it. If good citizen's neglect their civic duties the politicians will take the offices and everything else that is not chained down.

In the cities of the country there is spreading with gratifying rapidity abetter understandingof publicequestions. The great principle of municipal ownership of franchises and control of public utilities has been firmly established in our system of city government. We are not rushing blindly into rash experiments of buying and operating everything from gas plants to automobiles, but the growth of intelligent citizenship has reached that stage where it will not premit the great charter rights of the people of American cities to be sold for individual gain or bartered for political power.

A marjority of the voters in every state and city in this country are honest and well-meaning men. They want honest, intelligent and progressive government, and when they learn how, they are going to obtian it.—Bird S. Coler in New York Journal.

No Foreign Entanglements.

I am for free commerce with all nations; political connections with none, and little or no diplomatic establishment.

The European nations consitute a separate divisien of the globe; they have a set of interests of their own in which it is our buisness never to engage ourselves.

The excise law is an inferal one. The first error was to admit it by the Consititution, the second an act on that admission.

Private charities as well as contributions to public purposes, in proportion to every one's circumstances., are certrinly among the debts we owe to society.—Thomas Jefferson.

Cholera in India.

London, July 21.—The governor of Bombay telegraph to the secretary of state from India that there were 9928 cases of cholera in the famine districts during the week ending July 7, of which 6474 were fatal, and that in the native states there were 9526 cases, of which 5592 were fatal. The total number of deaths on the relief works was 5870, which was 3.9 per 1000. There has been a good rainfall iu many sections.

Some Facts About Roads.

MR. EDITOR:—The followiug from Farmer's Voice, Chicago, should be carefully studied by every one who has any hauling or driving to do, and as there is so much rock and gravel in Coos county, all our people should heed the suggestive thought. Near Norway school house is enough gravel to make good roads for 20 miles or more in every direction; why not use it?

A SAVING OF $600,000,000.

The readers of this paper that are interested in any species of legislation towards improvement of the public highways will find food for reflection in the following:

It is estimated that the public roads of the United States, aggregate 1,500,000 miles in length. The somewhat conservative estimates of Gen. Roy Stone of the U. S. department of agriculture places the total wagon transportation at approximately 500,000,000 tons. The average distance of haul is placed at eight miles, and the average cost of transporting one ton that distance is assumed to be $2. This makes the total yearly coast of wagon freighting a billion of dollars. All this is assuming that the roads of the country are in their present unimproved condition. Should the roads be put in first-class condition, and brought to something like the state of prefection in which we find them in foreign countries it is claimed by those who are in a position to know that this same ton of frieght grain, hay, or other farm product as the case might be—could be transported the same distance at a cost of only 80 cents. On this basis the enormous saving of $600,000,000 a year in wagon transportation would result from perfect highways in every section of the country. A better idea of the magnitude of this great saving may be drawn from the fact that the total annual value of all our farm products is something like $3,000,000,000, and that the saving above referred to would equal one-fifth or twenty per cent of that amount. The tax returns of the entire country show we are spending $120,000,000 a year for the maintenence of public highways. This means just the keeping of roads open and passable and does not include any permanent improvement. The maintenence and improvement of public highways, therefore becomes a serious problem and one which should engage the attention of every thinking individual who is obliged to employ them in the conduct of his business. A long step in the right direction because it means permanent improvementwouldbe the general introduction of the modern broad tired wheels. This matter is appreciated to that extent that in some section of the country the farmer who uses such wheels on his wagon has his highway tax greatly reduced in consideration of the fact. Broad tires do not cut up the road and rut the highway, but rather firm it, and frequent passing over the same ground has the same effect as passing a heavy roller over the surface.

IS IT RIGHT

For an Editor to Recommend Patent Medicines.

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarahoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by R. S. Knowlton.

Accounts of W W Gage, as sheriff and tax collector, approved and warrants ordered issued for the collection of delinquent taxes.

Ordered that the Oregon Telephone and Telegraph Co be paid for telephone messages at the end of each month and the county clerk is authorized to audit their bills against Coos county, and draw a warrant on the county treasurer in payment therefor.

Sheriff's petition for credit on the rolls for double and erroneous assesments, allowed.

Ordered that all tax sales of June 27th, 1900, and June 30, 1900, with the exception of the sale of the sw¼ of sec 14, t 27, s of r 13 west assessed under the name of D R. Dale, be confirmed.

Whereupon court adjourned for the term.

State of Oregon, } ss.
County of Coos, }

I, L H. Hazard, county clerk of Coos county, state of Oregon, for the county of Coos, hereby certify that the foregoing schedule of expenses of Coos county, Oregon, as audited by the County Court of Coos county, Oregon, is a true and correct extract from the proceedings of said court at the July, 1900, term thereoff.

Witness my hand and the seal of County Court this 25th day of July, 1900.

L. H. HAZARD, County Clerk.

{SEAL.}

Roberts' Line of Communication Cut Off.

London, July 23.—General Dewet has again succeeded in cutting Lord Roberts' commuication both by railway and telegraph, and captured 100 of the Highlanders. The story of the Federal commander's bold raid comes in the form of a telegram from GeneralForester-Walker, dated at Cape Town, Sunday, July 22, forwarding a dispatch from General Knox as follows:

"Kroonstad, July 22.—Following from Broadwood sent by dispatch rider to Honing's Point, wired thence to Kroonstad:

" 'Have followed command since July 16. There was hard, sharp fighting at Palmietfontein, July 19. We were prevented from pursuing the laager by darkness. Eight hundred Boers were found. Our casualties were five killed and 76 wounded. Will reach Vaal Krantz today. Enemy doubled on its way back through Paarde Kral, in the darkness. Shall march tomorrow to Roodevaal Station. Send supplies for 3000 men and horses, also any news of the enemy's movements. I believe the commando consists of 2000 men and four guns, and is accompanied by President Steyn and both the Dewets." General Knox continues: "The wire and main line of the railway north of Honing's Point have been cut, and also the telegraph to Pretoria via Potchefstroom. According to my information Dewet has crossed the railway and is going north."

General Kelly-Kenny telegraphs from Bloemfontein under date of Sunday, July 22: The railwy has been cut north of Honing's Point and a supply train and 100 Highlanders were captured by the enemy. A report was received this morning that a large force of the enemy is marching on Hoenspruit.

All communication with Pretoria is cut off. The second third cavalry brigades are following the enemy.

Jacksonvill, Or., July 18.—Early in the spring, H. B. Nye, a Montana man, came to southern Oregon to look over the mines and determine for himself what, if anything, was here in quartz worthy of development. He spent several months looking over the field, and studying formations, and in the meantime tried to bond certain properties in successful operation, but failed. Finally he discovered a ledge on Galls creek, which had been located by another man, and on which a shaft was sunk a few feet deep to hold it. He bonded the ledge for $600, and commenced to work on it. After two months' work in running a tunnel along the course of the ledge, he was rewarded last week by striking a pocket or pay chute of remarkable richness. The ore is literaliy knitted together with gold, and Mr. Nye, anxious to pay off the bond and secure a deed to the property, occupied himself with a small hand mortar for a day and pounded out $1600. He secured a title to the property, and since then has taken out $5000, and has fully $10,000 more in sight, with, no knowledge, of course of what further developments may show.

If this strike had been made in the dreary Arctic, the pess of the country would have taken it up and hearlded it abroad in flaming headlines, and thousand of men would have rushed to the frigid zone at the peril of their lives, assuming, apparently, that the greater the distance and peril, the greater the possible reward. Here rich discoveries are so common they do not create much excitement.

Second Time on Earth

No Boils Nor Carbuncles Now—A Good Blood Medicine.

"I became convinced of the merit of Hood's Sarsaparilla when I took it myself as a blood purifier. So, when my husband had boils and carbuncles I urged him to take Hood's and the result was that when he had used but one bottle the boils had nearly all disappeared. He continued the use of the medicine and after taking two bottles he was completely cured, and, as he expressed it, felt as if he was on earth for the second time. He has never had any boils since. We take Hood's as a spring medicine and gladly recommend it." MRS. A. E. STAYSA, Yonkers, N. Y.

Scrofula from Birth.

"I have found Hood's to be the greatest blood purifier I ever took, and I have tried many medicines. I was a sufferer with scrofula from birth. My eyes were so badly affected I would be almost blind for a week at a time. My neck began to swell so that I could not breathe freely. Medicines failed to do me any good until I began taking Hood's Sarsaparilla. Today I have excellent health and my eyes give me very little trouble. I owe it all to Hood's, which I recommend to all suffering from any disease of the blood." MISS KETTIE MCGUIRE, Silver Creek, Ky.

That Tired Feeling.

"I cannot say too much for Hood's Sarsaparilla as a remedy for that tired and worn out feeling one has in the spring. As a strength builder and appetite creator it has no equal." MRS. L. B. WOODARD, 285 Ballou Street, Woonsocket, R. I.

Hood's is Peculiar to Itself.

The Improved New High-Arm Self-Threading "Arlington" Sewing Machine
NEW HOME STYLE
LATEST BEST CHEAPEST

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.

10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

$19.50 AND Coupon, if sent C. O. D. or on trial

STYLE No. 86. "ARLINGTON."

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. Highest Arm—Space under the arm is 5¼ inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. Feed is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—Positive; filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. The Needle is a straight, self-setting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ½ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.

DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS

OUR GREAT OFFER. $18.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guarantee safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' test trial. We will ship C. O. D. for $19.50 with privilege of twenty days' trial on receipt of $5.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to anyone at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.
