Mrs. Alfred Johnson with her younger children, accompanied by Mrs. R. S. Knowlton and her little folks, are having an outing on the Bandon beach, as are many others of our town.

Cannerymen are bidding 25 and 30 cents for salmon on the Siaslaw already. This very good for the beginning of the season, and insures the fishermen a fair remuneration for their work this summer.

We received a card from W. H. Nosler dated from Eugene, where he orders the HERALD to be sent. He writes us that everything seems lively there, being more building going on than usual as well as other signs of business life.

The gasoline fishing smack, Delmonta arrived in this river the middle of last week, bringing in a lot of fine deep-sea fish. She went up to the shipyard at J. L. Roy's place to have a mast put in. Charles Johnson, of Myrtle Point, who went to Washington several weeks ago with his sister-in-law, Mrs. Ed Johnson, and his brother Harve, has returned very little benefited in health by his trip. Harve remained and was not well when heard from last, but his ailments were only caused by the excessive heat, and he will be all right in a short time.

J. L. Bean, gang edgerman at the Parkersburg mill, had the misfortune to get quite badly hurt last Tuesday. It seems he was cleaning some sawdust out of his machine, when his hand was caught in the rollers which pulled in his whole hand and arm bruising them quite severely. The limb was so badly swollen when a physician was reached that it was difficult to ascertain the full extent of his injuries, but we sincerely hope it will not prove serious.

E. N. Corey, of the firm of Corey, Colbert & Blackledge, of Pennville, Indiana, arrived in this place the middle of last week with his family—wife and son. Mr. C. comes to look after business interests as well as for pleasure and recreation, and such a thing might happen as that they locate here, and we certainly trust they may, for we have every reason to believe they are people of whom our community would feel proud. The Stockman place belong to this company and with proper encouragement they might put into operation and develop the extensive coal mines on this place.
