Little Flossie Mansell had quite a narrow escape from serious injury last week by a horse kicking at her in play. She was close to the animal and one foot went on each side of her as it kicked up, and when its feet came to the ground, one foot came down on her foot inflicting a painful bruise, but not seriously injuring the member.
C. M. Skeels who came here recently with his family from Coquille, and purchased W. H. Howard's store, has in turn sold out to Elder Geo. C. Carl, who will take charge of the business, probably about the first of next month when the stock is reduced to a certain amount. Mr. Skeels and family will return to Coquille.—Newberg Graphic.

The Garfield Hotel at Marshfield is being reopened by Barzee Bros., recently from Salem. The new managers, are making considerable changes in the house and have already made a good impression on the public. The dining department, run on the European plan, is said to be equal to the average first-class restaurants of Portland or Frisco and evidently the same can soon be said of the lodging rooms, as they being thoroughly overhauled, however the two departments are run independently of each other.

Our town needs more tenement houses. Our population is growing faster than buildings are being put up, and a great many country folks wishing to move to town during the winter for school, church and social advantages are unable to be accommodated as they should be. This is a new and large barn, and contains all necessary equipments to carry on a first-class business, just which Mr. Benham will conduct. It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by R. S. Knowlton.

Capt. O. R. Willard came down from his place yesterday morning with his new steamer "Welcome" to go on her regular run between this place and Myrtle Point, leaving Coquille City in the morning. Our townsman Sammy McAdams is his chief engineer, and she starts off with a promising business. He dispensed with his chain gear and adopted an entirely different plan. The power is now transmitted from the engine to the stern wheel by means of a single shaft acted upon by the pistons at the front end, while the other end operates a level piston in the center of the wheel's shaft. He informs us that this plan works all right, giving no particular trouble, being as easily operated as though working a propeller.

Our city has received 15 new gasoline lamps of 500 candle power which will be placed at most advantageous points which will give our little city an entirely different appearance. These are quite equal to the electric Arc light, and this number will make the principal part of our town with its system of walks almost as easily to go about in at night as in daylight.
