He has just received a full line of Christmas candy, nuts, etc., and quite a novelty in the way of a nickel-in-the-top peanut dispenser. Capt. A. Reed, of the steamer Mandalay, took an involuntary bath in the river while his steamer was loading with coal at Riverton on Thursday. It seems the cap stepped into a skiff at the wharf which was pretty well covered with ice which caused him to slip and lose his balance, and just at that moment the swells from the steamer Antelope which was passing struck the skiff upsetting it and participating the captain in the river. The bath was a little cool, but no further inconvenience suffered. It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and telling of the benefit they have received from it. Of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by R. S. Knowlton. A. Roberts arrived from Curry county the latter part of last week where he had been employed in the construction of a wharf and an arrangement for loading vessel at sea at the mouth of Mussel creek, where a San Francisco lumber company is building a large sawmill and will arrange to ship lumber direct. A wharf and tower are being constructed on shore and also another tower on a large rock which stands a short distance at sea, from the tops of which a cable will be suspended by means of which a car loaded with lumber can be transferred to vessels which will be anchored between the rock and the shore.

A union revival service was begun last night at the M. E. Church, South, in which Rev. Brink, of the M. E. church will join with Rev. Hyatt, of the first named congregation in holding a series of revival meetings. All are cordially invited to attend and take part in these meetings in an effort to do all possible for the cause of Christianity and the morals of our community. T. J. McNamee, representing Fleischner, Mayer & Co., wholesale dealers in drygoods, furnishing goods fancy goods, hats, caps and notions, was in town the last of last week and first of this taking orders from our merchants for goods in these lines. Ladies, here is a chance for you to see and hear something beautiful, tasteful and refined. Don't fail to step in at the first opportunity. Wm. Russell, of the Dishier place opposite town, who spent some time in the valley this summer, brought from Portland with him a grave marker designed to mark the last resting places of the old soldiers of the late war. They only cost 30 cents in Portland, and one should adorn every veteran's grave in Coos county. The markers is made of iron and stands two feet high with a large Star on top with the letters "G. A. R." in gold in the center. Any one can procure these by sending to H. Sutcliffe, assistant quartermaster of G. A. R. depot of Oregon, 307 Alder street, Portland, Oregon. S. M. Nosler, of this place, attended a meeting Saturday on the North Fork of the Coquille, called by a number of interested citizens for the purpose of taking the first steps toward securing a creamery for their section. As a result of the meeting, George Norris, of Fairview, was elected chairman of the meeting and James Mast, of Lee, secretary of the meeting, and it was decided to begin the erection of the creamery within about one year, the site for the same to be on the North Fork, and will not interfere with its patronage. These steps have been taken early in order to give the intending patrons time to send pastures and secure the necessary dairy stock to insure success right from the start. Thus we see the creamery business of this county forging its way to the front. It is but a matter of but a few years when this industry will eclipse all others in this coast section.
