During the storm of last week one of the large panes of glass in the upper part of the courthouse gave way and went to pieces, and one of the city's large gasoline lamps near Bird Nessler's was blown from its post and was demolished. These were about the extent of the damaged done about town. I have bought Macy & Moore's stock of wall paper and will continue the business at their old stand one door north of The Pharmacy building. All parties that are intending to paper their houses will save money by examining my stock and getting prices. T. G. ECKLES. A. P. Macy and family took Friday's train for the bay where they will take a steamer for Portland, en route to Oregon City, where they will make their future home. We are sorry to lose these good people, but they decided it was more pleasant to live where roads are better and travel at all seasons of the year possible, even if not pleasant. This is another evidence that we must get a move on in the direction of better roads.

L. is making a specialty of the Maher & Gross outfit every piece of which is warranted to be what it is represented. There are several cases of chicken pox in town. The three weeks vacation of the school among the holidays will give a good chance to stop the spreading of the disease. Mrs. W. A. Bean, of Riverton, made the lucky guess at the number of seeds in the big pumpkin at Kanematz's, and gets the big doll. Her guess was 361, being exactly correct. Ernest Stauff returned from a tour of the bay where he had been taking views of some of the most beautiful scenery to be found in that section of the country, which is equivalent to saying that they cannot be beaten. He has quite a selection on exhibition at Lorenz's. Prices run 30, 35, 40, 45 and 50 cents. J. C. Fisher and T. L. Bradley, of Dale, Indiana, are in this section looking at the county with a view of locating. They like the look of the country very much so far as they have been around, and admire the mildness of the climate especially. We hope to see them locate and become permanent citizens among us. All who can possibly do so should attend the Marshfield Carnival. The people of the whole county taking part in fairs, carnivals, excursions and the like will soon engender a more brotherly feeling between the people of the different sections, something which is certainly commendable and always helps in forwarding enterprises of a public nature and makes our associations more pleasant.

Our friend Lawson Lawhorn came down from the North Fork Thursday, and reported many trees across the road, but says the rains did not amount to much during the late storm, and that they had been unable to move their logs to any advantage as the streams had not been sufficiently swollen for running logs. Oliver Langley, who made a start for New Whatcom, Washington a week or so ago and got no farther than the bay, returning on account of the failure of the steamers to move on time, started again Friday. He will doubtless get through all right this time. He is to be congratulated that he was not out during the recent storm. Frank Snow, of West Minister, California, who arrived in this county a few weeks since, has returned to his home, but expects to be back in the spring with his family for permanent residence. Mr. Snow is an acquaintance and friend of Capt. H. E. Wilcox, of the North Fork, and has had a pleasant visit with his family during his stay in the county. The Woodman ball to be given New Years eve promises to be the most largely attended ball ever given in Coquille City. A free train has been arranged for to accommodate those wishing to attend the ball from the bay side and steamers chartered for the benefits of those along the river and also lullaby nothing left undone that would add to the convenience and pleasure of those who attend. Hofer and Levar, of Salem, and the new management took charge the first of the week. These gentlemen are practical newspaper men and, no doubt, will give the public a good paper. We wish them much success. A serious accident happened at the Government Works yesterday in which Quince Davis, of this place, was severely injured. While a loaded train was taking its load of rock out on the jetty one of the main stringers of that structure burst and precipitated four cars off of the track. Quince Davis, a brakeman on the train, was on one of the cars that left the track and fell on his head on the rocks. He was picked up and taken to Empire by the steamer Comet and a telephone message was sent to Dr. Tower at Marshfield. On arriving at Empire, Dr. Tower dressed the wounds of the injured man and found that his skull was not fractured, but that he had sustained concussion of the brain. As we go to press we learn that Mr. Davis is still in an unconscious condition, but is getting along as well as could be expected under the circumstances and hopes are entertained for his speedy recovery. The steamer Comet brought him up from Empire City last night and he is now at the home of his parents in South Marshfield. FOR SALE—147 Acres of Land, 1/2 mile from Norway, Coos county. A very entertaining Christmas program was rendered at the Presbyterian church Sunday night by members of the Sunday school of that congregation.
