 Our enterprising townsman and barber, Marshall McDonald, having gotten all in readiness, moved into his new apartments the latter part of the week, opening up for business Saturday morning. We now have a barber and shaving parlors of which a much larger city might well feel proud. The new equipments which were recently received from the Lewis-Stenger Barber Supply Co., of Portland, consists of two Koch's Pedestal Hydraulic chairs of black leather finish nickel mounted, the latest and best in the market, also an antique oak combination of beautiful design, containing two French beveled mirrors 44x64 inches and Italian marble topped work stand as well as an individual mug rack with a capacity of 72 mugs. The washbasin is of Italian marble with nickel plated fixtures throughout, and a thing of beauty as well as convenience. While the large shops of the cities contain more chairs and have a capacity for employing more workmen, etc., there are none with more modern or higher classed furniture in the state. The patrons of Mr. McDonald may congratulate themselves on being able to enjoy a service equal in skill and general surroundings to the best shops of the large cities.
