A. R. De Fluend, editor of the Journal, Doylestown, Ohio, suffered for a number of years from rheumatism in his right shoulder and side. He says: "My right arm at times was entirely useless. Knowlton's.

We have received from our former townsman and friend, A. W. Ericson, the photographer, a neat little pamphlet concerning Humboldt county, California, of fifty-odd pages with fourteen beautifully illustrated several of which Mr. Ericson furnished the photos. It is a beautifully executed piece of work, issued under the direction of the board of supervisors of Humboldt county, by the Humboldt chamber of commerce. We also received a copy of the Areats Union, the tone of which is in keeping with the typical Humboldt, which contains a great number of timber land notices which indicates that the lumbering interests of that section are still good.

J. M. Conrad had a novel experience last Monday in which he sustained severe injury to the third and fourth fingers on his right hand. He was helping unload ballast from a schooner and got one of his hands caught in a block. He was hoisted into the air a few feet before the horse could be stopped. He then caught hold of the rope with the other hand and was lowered down to the platform on which he had been standing. Mr. Conrad got off very fortunate, for had the driver tripped the rope he would have fallen into the vessel's hold and the result would have been much more serious.

J. H. Timon, the Riverton coal man, was up to our town Thursday. He informs us that everything is running in first-class style with his business. In the past thirty days, he tells us, the returns from the cargoes of the steamer Argo are \$5221.50, which we consider a good business for the length of time that has been consumed in working it up. Mr. Timon is doing some development work on another prospect, and he expects by fall to be in shape to require one, and possibly two more steamers to carry his coal. He is negotiating at this time for one, and the chances are that she may come into this run in the very near future. Mr. Timon is an independent, progressive and enterprising business man, who deserves much credit as well as financial support of the business men of this river for the effort and good judgment put forth in the development of our coal resources.

Roba, beloved son of Mr. and Mrs. Samuel Stout, died February 20th at his home near Gravel Ford, aged one month. He has gone to live with the dear ones "over yonder" and with angels. Weep not dear father and mother, for your darling is at rest.

Little Roba has gone to rest. His form we'll see no more, His little tongue is still in death His awful sufferings o'er.

"Our Roba will be here no more They'll to each other tell; But God has given him a home Where happy angels dwell."

Not dead, but living with the Savior, Safest where kindred spirits dwell, Dearest Roba comes to greet thee, Roba, darling, fare thee well.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail, free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

100 Million Dollars For Dividends

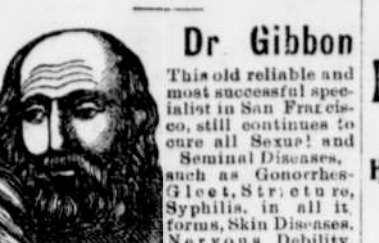

READ THE PROOFS: United States Official Report MADE TO Commissioner of the United States, GENERAL LAND OFFICE, WASHINGTON, D. C.

by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin Silliman, who spent several months there, then being connected with the United States surveying corps, and in his official report says: "Here are countless millions of tons of rich gold quartz reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over 40 miles is a sluice on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved methods of river mining. THE THICKNESS OF THE RIO GRANDE GOLD GRAVEL EXCEEDS IN MANY PLACES 50 FEET, OR NEARLY THREE TIMES THAT OF THE LIKE BEDS IN CALIFORNIA, WHILE THE AVERAGE VALUE PER CUBIC YARD IS BELIEVED TO BE GREATER IN THE NEW MEXICO BEDS THAN IN ANY OTHER SUCH ACCUMULATIONS YET DISCOVERED."

"I have made a reconnaissance of the whole of this gravel along the Rio Grande, and have witnessed with all the care possible in the time at my command the character of the gravel and its contents of gold. NOTHING I AM PERSUADED, SINCE THE DISCOVERY OF CALIFORNIA AND AUSTRALIA, IS COMPARABLE FOR ITS MEASURABLE RESOURCES OF GOLD AVAILABLE by the hydraulic process to the deposits of the Rio Grande." Other reports from eminent mining experts of national reputation pronounce the property of this Company the richest and most extensive known.

I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plowing, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peach time, I had a most serious attack of chills and then commenced to take Ripans Tablets, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tablets will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said, "Sav, John, what are you doing to look so healthy?" WANTED—A case of bad health that Ripans Tablets will not benefit. They banish pain and promote life. Use a free trial. Note the words R-I-P-A-N-S on the package and accept no substitutes. R-I-P-A-N-S Tablets will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., 26 W. Myrtle St., New York.
