Coquille City Herald.

TUESDAY, MAY 7, 1901.

Church Directory.

Episcopal Church.—Episcopal services will be held at St. James church, Coquille City the third Sunday in each month.
Wm. Horsefall, Pastor.

M. E. Church, South: Preaching on 2nd, 3d and 4th Sundays at 11 a. m. and 7:30 p. m. Sunday-school every Sunday at 10 o'clock. Senior Epworth League at 6:30, p. m. Junior League at 3:30, p. m. Prayermeeting Thursday evening at 7:30.
C. A. Hyatt, pastor.

Christian Church—Services every Lord's Day as follows: Preaching at 11 A. m. and 7:30 p. m; Lord's Supper, 12 to 12:15; Bible School, 10 a. m; C. E. Prayer meeting, 6:30 p. m. Wednesday—Mid-week prayer meeting, 7:30 p. m. The public is cordially invited to attend all services. Jesse M. Hunter, Minister.

M. E. Church.—Preaching service every 1st, 3rd and 5th. Sunday at 11, a. m. and and 7,30 p. m. Sunday school every Sunday at 10, a. m. Epworth League, 6 30 p. m. Prayer meeting every Thursday evening at 7.30. A special invitation is extended to the public to attend all services.
M. O. Brisk, Pastor.

LOCAL ITEMS.

W. E. Stewart, of Riverton, was in town Wednesday.

The Herald will order the San Francisco Call for you giving you a liberal clubbing rate.

Attorney Geo. P. Topping, of Bandon, was up to the county seat on legal business the middle of the week.

Lost—A K. of P. watch charm, triangular in shape, with usual K. of P. inscriptions. Finder will be liberally rewarded by leaving the same at this office.

James Murray who has been carrying mail from this place to Marshfield for some time is now holding a position in the livery-stable of John Bear, at Marshfield.

For Sale—A fine little river bottom place, one and half miles from town, on river bank. Fair buildings, good orchard, small fruits, etc. Call at the Herald office.

A nice garden lot of about one acre in a beautifully located and well sheltered place near the Bandon beach will be sold very cheaply if a buyer be found soon. For full information and terms call at the Herald office.

Skin affections will readily disappear by using DeWitt's Witch Hazel Salvé. Look out for counterfits. If you get DeWitt's you will get good results. It is the quick and positive cure for piles. R. S. Knowlton.

W. J. Floyd, of Riverton, was up to this place Wednesday having a lot of tools put in order for operation on the bunker which the Coquille Coal Co., is having overhauled and put in shape to receive the large output the company expects to reach in a short time.

D. W. Thomas, the artist, of Myrtle Point, paid our town a visit recently. Mr. Thomas is doing an immense business in the way of enlarging photographs in different styles. He is furnishing oil paintings very reasonably. You should see his samples before ordering.

The Coquille Valley Bank building, of this city, is receiving a coat of paint which gives it an entirely different appearance. This is one of the most important additions our town has had since we became the county seat, and one of our most imposing structures which replaced one of the old landmarks. Messrs. T. G. Eckles and J. O. Goodloe are the artists.

"I have been suffering from Dyspepsia for the past twenty years and have been unable after trying all preparations and physicians to get any relief. After taking one bottle of Kodol Dyspepsia Cure I found relief and am now in better health than I have been for twenty years. I can not praise Kodol Dyspepsia Cure too highly," thus writes Mrs. C. W. Roberts, North Creek, Ark. R. S. Knowlton.

Many women have been reproached for the sole object of entertaining. No one doubts that such an aim is petty and narrowing, but it is equally certain that it is a woman's duty to understand. The Art of Entertaining, and this forms the subject of an attractive and useful article by Lady Jeune in The Cosmopolitan for May.

If people only knew what we know about Kodol Dyspepsia Cure, it would be used in nearly every household, as there are few people who do not suffer from a feeling of fullness after eating, belching, flatulence, sour stomach or waterbrash, caused by indigestion or dyspepsia. A preparation such as Kodol Dyspepsia Cure, which with no aid from the stomach, will digest your food, certainly can't help but do you good. R. S. Knowlton.

B. L. Hurst, lately from Iowa, and a nephew of our Uncle Bird Vowell, arrived in town a week ago and has done some looking around over the county and made a purchase from C. W. Olive of the Fuller place, not far from Bandon. Mr. Hurst is very much pleased with this section. While he admired the beautiful and bright side of California, he realizes the permanence of the natural advantages we enjoy. He fully realizes that while our rains may seem in excess, but that they account for the sure and heavy crops we may rely on.

Ed. Herald—permit me again to call public attention thraugh your columns to that road relocation, "Common Sense" says virtually in his article of last week, he must have 720 braces for 90 bents. Two per bent is as much as any of you ever saw used. Examine bridges already built of larger dimentions and see, then again he must have 810 3x12 stringers for 90 bents, or 9 per bent, when bridges of like dimensions have from 4 to 5 per bent. This shows how hard crowded he is to influence public opinion. No wonder his posts must be 8x8 with caps 6x12 to hold up this ponderous load of superfluous stringers, but the expense must be got in somewher, to make the cost up to a semblance of the $18,000 the amount he has claimed while soliciting subscribers to a remonstrance solely for the purpose of keeping up the value of lands on the old hilly and otherwise expensive route, at the public expense and inconvenience. Again, hauling lumber is fixed by him at 75 cents per M. which is unreasonable for so short a haul and $948.67 is figured for building bridge, when there is more than enough due from petitioners to build the bridge and 25 days more, according to estimate of road supervisor Mr. Flanders, who agrees that "Practicals" bill of timber for bridge was ample, and timbers large enough, besides there are an even dazen families living on line of new route asked for now practically shut out from school, church and business interests, in Coquille during high waters, except by boat, who nearly all have children to school and will put in weeks of work gratis, rather than longer be subjected to this long continued error of trying to maintain a road on an impractical and expensive route compelling them to wade clay mud, use boats when water is up, this being the only place blocked from travel betwean Roseburg and Empire City when mails would go in ordinary floods. "Common Sense" says his figures won't lie, and then accepts my length of bridge as 86⅓ rods and figures $1 per rod for nails and carries it out at $66. Well, that is nearer than he has come to the facts in other parts of his estimate. He makes an effort to influence public opinion by trying to confine this road change to private ends, and only voices his own selfishness in this matter in this week's Herald by blowing about keeping up value of those substantial improvements of his, consisting of two box sheds, with clapboard roof for cattle to dodge under during storms, and a 10x12 board shanty with lumber roof, and a few old line fences, some of which I have to patch up occasionally to keep his cattle from trespassing on my land. I really feel sorry my self for the enterprising fellow. I state again and will prove it, that the new route is reasonably level and allmost in condition for immediate travel if bridges were made, and so far as the bridges on the Cheney place are concerned, we haven't the slightest idea that a stick or plank in them is sound enough to put in the new route. Our contention is this, inasmuch as all bridges on the route asked to be vocated must now be rebuilt, let the new material be put on a proper route, that will accommodate the public, and be less expense to keep up, and the natural and just route as "Common Sense" acknowledged privately to me before self interest got the best of him, and now allows publicly in his writings is nearly one mile shorter in two, however I don't claim so much. I agree with "Common Sense" that of such bad laid out roads as he is trying to perpetuate we have more already than we can ever hope to keep in repair, but not so with the new route, as any sensible man can see by walking over the two the vast difference in natural location. The new route asked is less than 1¼ miles from west end, to business center of Coquille, by survey lines. Not a single settler will be deprived of a road in this proposed change, and none on the old route, left in tact mainly for their use, can complain justly, on any ground only loosing the through travel over their lands, and a complaint on that score comes with ill grace, in view of the large amounts already expended, and now being expended practically for their benefit on the old route which Practical as a large tax payer has helped to pay in part, besides going down into his private funds to donate money to build them bridges, so they might have just what we now ask, some city conveniences, along with the balance of the community, which we claim at least to be an sntegral part I can not in justice to "my friend, the enemy" clase this without hartily thanking him for the high complement paid my animal magnetism, which I sincerely hope may yet set even my apponent in his right mind, and am truly sorry after all his boasts that he could get 3 remonstrators to our one petitioner, that he has so few that he has to beg the question in this way, and lay it on to a carless public who, according to his statement, have hardly interest enough in public matters of this kind to know or care what they sign. When he talks of "over wrought representations, think of his 12 to 20 thousand dollar cost bill argued for remonstrators," and then look at his own published cost bill of less than $3000 which of its self is most unreasonable. His arguments must fall by their own weight."

Practical.

Coos Bay News.

Charley Aiken left last week for Fresno, California.

M. J. Bowron, of Henryville, received a dispatch, early last week, announcing the death of his daughter, Lizzie, in the city. He left on the Alliance, intending to bring the remains home with him.

The Columbine arrived in the bay Saturday, with supplies for the government stations. She came up to Marshfield, Monday, and discharged some freight at the railroad depot for the Bandon lighthouse.

E. O. Hall has a shingle machine at the stavemill, and would like to manufacture red cedar shingles; but the price asked for red cedar logs on the bay is too high to permit the making of shingles at a profit.

Two of the largest spruce trees ever logged in Southern Oregon were dumped in Mill slough yesterday, from W. H. Noble & Son's camp, near West Marshfield. The butt log of one tree is nearly nine feet in diameter, and the scale of the two trees shows 50,000 feet.

Married, at San Francisco, April 24th, Dennis O'Donoghue, of Jerome, Arizona, and Miss Margaret O'Conner, of Marshfield Oregon. The bride is the daughter of Andrew O'Conner, and has a host of friends in this section, with whom the News joins in extending congratulations and best wishes.

Manager Chandler has of late been devoting his entire time to the placing of new machinery in No. 2 mine, at Beaver Hill. He has forwarded the work to such an extent that the time anticipated to make the change, has been much abbreviated, and development work in the mine will be resumed next week. The opening of the mine will be rushed as rapidly as possible, and it is safe to predict that regular shipments of coal will be made by next Fall.

A number of immigrants from Finland arrived at Empire on the Arcata, Sunday. They were on their way to the Umpqua, to work for the Gardiner Mill Co. While getting on board the Blanco, at Empire, to be taken across the bay to the stage station, one of the men fell off the wharf and struck his head against the rail of the steamer, falling helplessly into the water. He was picked up in an unconscious condition and carried to the Arago hotel. It was at first reported that he had been fatally injured, but later news is that he is rapidly improving.

California is again facing a dry season, which promises to cut her grain yield down at least 50 per cent, if it does not do even greater damage. The Golden State has had but one good crop since the last total failure, and now there is a strong probability of another alarming deficit. Continued reverses of this nature will eventually dull the point of that California joke about the Oregon rain falling thirteen months each year. It is also having the effect of sending a number of wheatgrowers to Oregon and Washington, where crops neve fail. —Oregonian.

Notice.

By direction of L. Harlocker, County Judge of Coos County, Oregon, notice is hereby given that in pursuance of an act of the legislature assembly of the state of Oregon, approved Feb. 23, 1901, all persons whose property has heretofore been sold for taxes and bid in by Coos County, will be allowed to redeem the same at any time before July 1st, 1901, by paying the amount of said taxes and the costs of advertising, without any penalty for redemption being added.

Dated at Coquille City, Oregon, this 11th. day of April, 1901.

L. H. Hazard.
County Clerk.

INDIGESTION

If you have it, you know it. You know all about the heavy feeling in the stomach, the formation of gas, the nausea, sick headache, and general weakness of the whole body.

You can't have it a week without your blood being impure and your nerves all exhausted. There's just one remedy for you—

Ayer's Sarsaparilla

There's nothing new about it. Your grandparents took it. 'Twas an old Sarsaparilla before other sarsaparillas were known. It made the word "Sarsaparilla" famous over the whole world.

There's no other sarsaparilla like it. In age and power to cure it's "The leader of them all."

$1.00 a bottle. All druggists.

Ayer's Pills cure constipation.

"After suffering terribly I was induced to try your Sarsaparilla. I took three bottles and now feel like a new man. I would advise all my fellow creatures to try this medicine, for it has stood the test of time and its curative power cannot be excelled." I. D. Goon, Jan. 30, 1899. Browntown, Va.

Write the Doctor.

If you have any complaint whatever and desire the best medical advice you can possibly receive, write the doctor freely. You will receive a prompt reply, without cost. Address, Dr. J. C. Ayer, Lowell, Mass.

A Card of Thanks.

We, the undersigned, take this means of acknowledging our grateful appreciation of what has been done for us in the time of our trail and loss sustained by the recent fire. Mere words cannot at all express the feelings of the heart in this instance. The heart will cry out its gratitude beyond the power of words to express, for all the kind and sympathetic words that have been spoken and for all the liberal and generous-hearted contribution that have been made. All this expression of genuine kindness not only greatly endear them to our hearts, and places us under lasting obligations but will engrave their names among our greatful memories. Our prayer is that the blessing of our heavenly father may rest upon and abide with all.

Mr. and Mrs. Martin Miller.

New Lumber-Staining Process.

A man in this city has secured a patent on an invention for staining lumber in the log which promises to create a sensation in wood working circles. The staining materials are forced through logs by hydraulic pressure and the result is that the log comes out of the process evently stained all the way through. The value of this is enhanced by the gradual decimation of fine timber and the previling fashion of making "imitation" furniture.

Under this process pieces of maple can be converted into mahogany all the way through and at very little expense. In one case, with 200 pounds pressure, the invention completely stained a ten-foot log, forcing the staining material into the grains of the wood from which the sap had been forced by the same hydraulic pressure.—Boston Evening Transcript.

For all kinds of

Job Printing--

Book and Commercial Work in the neatest and latest styles--Call at the HERALD office. Our prices are right.

M. D. Landis. D. F. Dean

Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets,—beauty for ten cents. All druggists, satisfaction guaranteed, 10c, 25c, 50c.

Summons.

IN THE CIRCUIT COURT OF THE STATE OF OREGON. IN AND FOR THE COUNTY OF COOS.

Rachel Rutledge Plaintiff
vs.
John W. Rutledge Defendant.
} Suit in equity for divorce.

To John W. Rutledge, the above entitled defendant:

In the name of the state of Oregon you are hereby notified that you are required to appear and answer the complaint filed against you in the above entitled suit in which Rachel Rutledge is plaintiff and you, John W. Rutledge, are defendant, within six weeks from date of the first publication of this summons to wit: within six weeks from the 12th day of February, 1901, and if you fail to appear and answer on or before the 23rd day of April, 1901, the last day of the time prescribed in the order of publication, a judgment will be taken against you for want thereof, and the plaintiff will apply to the court for the relief demanded in her complaint, a succinct statement of which is as follows: that the marriage contract now existing between plaintiff and defendant be dissolved, and for the custody of the minor child of said marriage.

Service of this summons is made by publication in pursuance of an order made by L. Harlocker, County Judge for Coos county, Oregon, dated March 8th, 1901, and directing publication of the same in the Coquille City Herald, a weekly newspaper published at Coquille City in Coos county, Oregon, for a period of six weeks.

A. J. Sherwood,
Attorney for plaintiff.

United States Official Report

MADE TO

Commissioner of the United States, GENERAL LAND OFFICE, WASHINGTON, D. C.,

by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin Silliman, who spent several months there, then being connected with the United States surveying corps, and in his official report says:

"Here are countless millions of tons of rich gold quartz reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over 40 miles is a sluice, on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved methods of river mining. THE THICKNESS OF THE RIO GRANDE GOLD GRAVEL EXCEEDS IN MANY PLACES 600 FEET, OR NEARLY THREE TIMES THAT OF THE LIKE BEDS IN CALIFORNIA. WHILE THE AVERAGE VALUE PER CUBIC YARD IS BELIEVED TO BE GREATER IN THE NEW MEXICO BEDS THAN IN ANY OTHER SUCH ACCUMULATIONS YET DISCOVERED.

"I have made a reconnaisance of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold, NOTHING, I AM PERSUADED, SINCE THE DISCOVERY OF CALIFORNIA AND AUSTRALIA, IS COMPARABLE FOR ITS MEASURABLE RESOURCES OF GOLD AVAILABLE by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this Company the richest and most extensive known.

Capital Stock $2,000,000.

Fully paid and non-assessable, par value $1 each share.

One-half the entire Capital Stock has been placed in the treasury of Company as a working Capital. To complete necessary ditches and place on the river bed several gold steam dredges, the Company now offers

A Limited Number of its Shares

at 50c. Per Share.

AFTER SALE OF WHICH PRICE WILL BE ADVANCED TO

$1.00 PER SHARE,

Applications should be sent promptly. Write for prospectus. Make checks, money orders payable to
