

Coquille City Herald.

TUESDAY, JUNE 4, 1901.

Church Directory.

Episcopal Church.—Episcopal services will be held at St. James church, Coquille City the third Sunday in each month.

LOCAL ITEMS.

G. W. Canning and family came over from Newport Wednesday to arrange for Decoration Day.

NOTICE—Persons wanting carpets woven, please call on Mrs. F. A. White just across the street east of court house.

Joe Bledsoe's new house at the end of the long bridge is taking on the finishing touches by the wielders of the brush.

W. V. Aeburn and family departed for Washington Thursday, where the older sons of Mr. and Mrs. A. live. We are sorry to lose these good people.

Anyone wishing a choice band of sheep, still retaining a heavy clip, will do well by calling upon R. G. McQuigg, one mile from town on Marshfield road.

The bilious, tired, nervous man cannot successfully compete with his healthy rival. DeWitt's Little Early Risers, the famous pills for constipation, will remove the cause of your troubles. R. S. Knowlton.

A nice garden lot of about one acre in a beautifully located and well sheltered place near the Bandon beach will be sold very cheaply if a buyer be found soon. For full information and terms call at the HERALD office.

J. C. Wilson, Coquille's boss mechanic, has just completed a new crank shaft for the steamer Reta, a piece of work which would do credit to a first-class machine shop. Our community is to be congratulated on being able to hold so efficient a mechanic.

There are several of our town's lads in a habit of jumping on the steps of the cars and riding through Front street, and the chances are that some one will get badly hurt one of these days and then there will be a big howl made by their parents, and possibly a damage suit follow. It seems to us if this were stopped the danger of such troubles would be averted.

Dyspeptics cannot be long lived because to live requires nourishment. Food is not nourishing until it is digested. A disordered stomach cannot digest food, it must have assistance. Kodol Dyspepsia Cure digests all kinds of food without aid from the stomach, allowing it to rest and regain its natural functions. Its elements are exactly the same as the natural digestive fluids and it simply can't help but do you good. R. S. Knowlton.

The Normal Bulletin, a bright and beautifully printed little sheet of four pages, edited by the faculty of the State Normal school at Drain, this state, has found its way to our desk. While it is small and unassuming, it is the right thing coming from the right source. Its mission is education, which will be its theme first, last and all the time. This school is gaining favor among the public right along, and this paper will be a lever and a power in doing good as well as advertising and furthering the interests of this school.

The State Normal at Drain has not been able to supply one-half the teachers called for since January. Trained teachers are demanded. The Normal is meeting with success in its various departments of work and its students are securing high grades in country and state examinations. Review classes will be organized at the opening of school in September for those desiring to prepare for the next examination. Candidates for certificates are asking for reviews and the school will meet the demand. Catalogue will be ready June 25th. Address the president for it.

The new mine of J. H. Timon on Lampey creek is proving to be far better than he at first anticipated. He now has what he thinks will prove to be a 14-foot vein of coal exposed, and from trials already made proves to be of good quality. The mine being only 200 yards from the river will put the expense of shipping at a minimum. This mine is within three rods of the line of our friend Waddington's place, and dipping in that direction which makes him feel good also. We expect great quantities of coal shipped from this mine in the very near future. This mine has been named the new Century.

(Marshfield Sun.) Chas. W. Olive and wife left for California on the Alliance, Friday, where they will take up their residence.

Tuesday the Coos Bay creamery turned out 1450 pounds of butter, the largest single day's run since its establishment.

Married.—In San Francisco, May 23, 1901, at the church of the Advent, by the Rev. H. Parrish, Jesse A. Luse and Lillian A. Anderson, both of Marshfield, Oregon.

Among a list of graduates from the Hastings Lay college in San Francisco, that were admitted to the California bar on the 22d inst., and published in the San Francisco papers, we notice the name of Geo. E. Weaver, son of our townsman, P. S. Weaver.

R. D. Hume has a string of horses in training on the Marshfield race track—two trotters and a runner. G. W. Hughes has charge of the trotters. The Marshfield track is getting quite a reputation with horsemen and is said to be one of the best tracks on the coast on which to condition race horses. Some interesting racing is looked forward to, the coming season.

The Chicago Record presents some interesting figures on the growth of divorces in the United States as follows: In 1870 3 1/2 per cent of all marriages in the United States ended in divorce courts. In 1881 the percentage had risen to 4.8. In 1890 it was 6.2 and in 1900 it was 8 per cent. In other words, the percentage of divorces to marriages in this country has more than doubled since 1870. The total number of divorces in the United States for a given year was 23,425. During the same year 20,111 divorces were granted in all the world outside of the United States. This was an excess of 3,351 divorces in this country as compared with the remainder of the world. Of foreign countries the smallest number of divorces in the given year was in Canada, where only twelve were granted. Next to the United States the largest number was in France, with 6,245 in the year. Germany was a close second with only 100 less. From a religious standpoint there are about 73 divorces to every 100,000 Catholics, while divorces for the same total among Protestants are 283.

Three large merchantmen have entered port this year under jury rig, with their steel masts and yards gone, carried away in storms encountered in making the passage across the Pacific. Last year one or more reached port in the same plight. A sturdy stick of Oregon pine is superior and more reliable than any steel mast ever stepped in yacht or merchant sailing vessel. But the craze of modern yachting, particularly in the competition for the America cup, has carried the construction of hull and spars and rigging across the line of safety long ago. A machine has been produced which is about as frail as an egg-shell, and this is rigged as lightly and delicately as the mountings of a violin. A built-up steel mast has been substituted for the clean, tough Oregon stick to save weight, and the rigging, which must support it and the immense area of canvas spread, is made of the lightest kind of steel wire, which will snap as readily as whipcord when subjected to any unusual strain.—San Francisco Chronicle.

Never set out a shrub, vine or tree whose roots have been dried so that the bark upon them is shriveled without first puddling them, writes a New York fruit grower. In such cases the cells in the roots must be restored to their natural size. As they dry out, the cells are contracted, and in that condition they cannot give free circulation to the sap. Immersion in water or in wet dirt will swell the wood to its natural size. That means that the shrunken cells will retake their full size and furnish passage for the sap, providing, of course, that the vitality of the wood has not been destroyed in the drying. Repeated experiments in the transplanting of young trees prove that nothing is gained, either in time or the vigor of the trees, by chopping off the roots too much.—Ex.

Sandy Hancock, an old Grant county miner, tells of a spring he found in the wildest part of the Blue Mountains. It does not form a rivulet, but is a hole in the ground one foot across. The water comes up on one side of the hole and goes out on the other side, underground. The water is always icy cold, and clear as a crystal, and it is always in a rush. The depth cannot be measured, and the stream is so swift that poles are forced out of the hands and carried underground, never to be seen again.—Oregonian.

"Work is for the worker." We are all working out our own salvation and thus we see how it is very plain that John Ruskin was right when he said that "the man who makes the thing is of far more importance than the man who buys it." This is a principle—one that needs no demonstration. What the world does and says about you is really no matter, but what you think and what you do are questions as vital as fate. "Work is for the worker."—Normal Bulletin.

Gravel Ford Dots.

Everybody's crops are looking fine.

Mrs. Moser, of this place, has just returned home after a visit of about two months in Myrtle Point. Mr. and Mrs. Moser are happy; they have a new girl clerk.

There was a play party at Shiloh schoolhouse Saturday night, May 25. The people present were Ray Waterman, Hattie Miller, Estella Weekly, Mike Minard, Winnie Weekly, Fred Minard, Fannie Sturdivant, Earnst Folsome, Laura Sturdivant, Jimmie Miller, Cleo Rose, Bert Folsome, Edna Bennett, Alex. Sturdivant, Mattie Weekly, Steve Minard, Vance Weekly, Jake Stenler, Fred Young, William Swan, Thos. Sturdivant, Charlie and Walter Bennett.

There are lots of flower gardeners between here and Dore. If you happen along about the time their owners are not at home you can get a fine bouquet.

Some Gravel Ford girls took a wagon and team and went up to Dora to church Sunday. Some people may think the Gravel Ford girls are not very good teamsters, but they do fine for their practice. I have noticed that the Pleasant Hill boys are a little backward about taking girls places, but when they go the boys are always ready for a ride home.

The Pleasant Hill school house is finished and school started last Monday, May 27th. Mollie Caldwell teacher.

There was church at the Gravel Ford churchhouse Sunday May the 31th Rev. Epperly conducted services.

School is progressing nicely, thirty pupils in attendance.

Mrs. Sam Stout is still improving slowly.

Miss Maud Weekly has been sick. Holly Owen, of this place, made a trip to Coquille City Tuesday returning Wednesday.

JACK AND JILL.

"Third Notice." Every editor has received them. The postmaster is not to blame. For instance, there is a man named Tim Short who sent us three notices to stop his paper; he did not want it any longer. We wondered what was the matter. Upon investigation of our subscription list we found Tim was short \$2.50. He had never paid a cent, yet had stopped his paper as a matter of economy—to us. A few evenings ago we stepped into the church and Tim's melodious tenor rang out clear in soul-stirring song, "Jesus Paid It All." We might have been mistaken, but his earnestness impressed us. The next day we sent him a receipt in full, begging his pardon for not knowing that he had made an assignment of his liabilities.—Exchange.

THE SAN FRANCISCO CALL LEADS Published Every Day of the Year. In those essential elements of enterprise and progress which go to make up A GREAT NEWSPAPER. Designed Especially FOR THE HOME IT PRINTS ALL THE NEWS. Is Ably and Carefully Edited. THE WEEKLY CALL, A Sixteen Page Paper. Containing a report of the week's leading news features and many special features for the farmer and stock-raiser. SEND FOR SAMPLES. Subscription Price, including postage: INVARIABLY IN ADVANCE. Daily (including Sunday), 12 mos., \$1.00. Sunday Call, 12 mos., 1.50. Weekly Call, 12 mos., 1.00. Delivered by carrier, every day, 50c. month. JOHN D. SPRECKELS, Proprietor. Address All Communications to W. S. LEAK, Manager.

HAIR WEALTH Wealth of hair is wealth indeed, especially to a woman. Every other physical attraction is secondary to it. We have a book we will gladly send you that tells just how to care for the hair. If your hair is too thin or losing its luster, get AYER'S Hair Vigor. Growth becomes vigorous and all dandruff is removed. It always restores color to gray or faded hair. Retain your youth; don't look old before your time. \$1.00 a bottle. All druggists. "I have used your Hair Vigor now for about 25 years and I have found it splendid and satisfactory in every way. I believe I have recommended this Hair Vigor to hundreds of my friends, and they all tell the same story. If anybody wants the best kind of a Hair Vigor I shall certainly recommend to them just as strongly as I can that they get a bottle of Ayer's Hair Vigor." Mrs. N. E. HAMILTON, Norwich, N. Y., Nov. 28, 1898. Write the Doctor. If you don't obtain all the benefits you desire from the use of the Vigor, write the Doctor about it. Address: DR. J. C. AYER, Lowell, Mass.

AN INCOME FOR LIFE

—FROM— Greatest of Gold Properties

3680 Acres—9 Miles in Length

250 Million Tons

Richest Gold-Bearing Quartz, ground by nature's hand into gold laden gravel, from 50 to 600 feet in depth over the entire property. In addition, Company owns 14 MILES in length of river bed, each mile of which contains many millions of gold, situated on the Rio Grande, in Taos Co., New Mexico.

OVER 100 Million Dollars For Dividends

READ THE PROOFS: United States Official Report

MADE TO Commissioner of the United States, GENERAL LAND OFFICE, WASHINGTON, D. C.

by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin Silliman, who spent several months there, then being connected with the United States surveying corps, and in his official report says:

"HERE ARE COSTLESS MILLIONS OF TONS OF PURE GOLD QUARTZ, reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over 40 miles is a mine on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved methods of river mining. THE THICKNESS OF THE RIO GRANDE GOLD GRAVEL EXCEEDS IN MANY PLACES 60 FEET, OR NEARLY THREE TIMES THAT OF THE LIKE BEDS IN CALIFORNIA. WHILE THE AVERAGE VALUE PER CUBIC YARD IS BELIEVED TO BE GREATER IN THE NEW MEXICO BEDS THAN IN ANY OTHER SUCH ACCUMULATIONS YET DISCOVERED."

"I have made a reconnaissance of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. NOTHING I AM PERSUADED, SINCE THE DISCOVERY OF CALIFORNIA AND AUSTRALIA, IS COMPARABLE FOR ITS MEASURABLE RESOURCES OF GOLD AVAILABLE by the hydraulic process to the deposits of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this Company the richest and most extensive known.

Capital Stock \$2,000,000.

FULLY PAID AND NON-ASSESSABLE, PAR VALUE \$1 EACH SHARE.

One-half the entire Capital Stock has been placed in the hands of company as a working Capital. To complete necessary duties and place on the river bed several gold steam dredges, the Company now offers

A LIMITED NUMBER OF ITS SHARES

at 50c. Per Share.

AFTER SALE OF WHICH PRICE

WILL BE ADVANCED TO \$1.00 PER SHARE.

Applications should be sent promptly. Write for prospectus. Make checks, money orders payable to

Rio Graude

Placer Gold Mining Co.

7 EXCHANGE PLACE, BOSTON, MASS.

Notice.

Any one wishing to sell or trade land in Oregon for land in California, please address, J. W. SKAGGS & Co., Hanford, Kings County, Cal.

Notice.

By direction of L. Harlocker, County Judge of Coos County, Oregon, notice is hereby given that in pursuance of an act of the legislature assembly of the state of Oregon, approved Feb. 23, 1901, all persons whose property has heretofore been sold for taxes and bid in by Coos County, will be allowed to redeem the same at any time before July 1st, 1901, by paying the amount of said taxes and the costs of advertising, without any penalty for redemption being added.

Dated at Coquille City, Oregon, this 11th day of April, 1901.

L. H. HAZARD, County Clerk.

In almost every walk of life there have been great women. But has there ever been a woman who has reached the very highest pinnacle in any field? In the June Cosmopolitan Ella Wheeler Wilcox answers this question in the negative and declares that even in the essentially feminine vocations of cooking, dressmaking and millinery men excel women. "Women," says Mrs. Wilcox, "have not the concentration which gives a clear perspective. They lack system and patience and are distracted by details or turned aside by vanity."

Great Clubbing Offers.

The Herald has made arrangements with the managements of the following-named publications for clubbing purposes on the terms given below:

Table listing clubbing offers for various newspapers including The Commoner, The Weekly Examiner, The Weekly Oregonian, The Oregon Agriculturist, Western Poultry News, Pacific Homestead, and New York World.
