

Church Directory.

Episcopal Church—Episcopal services will be held at St. James church, Coquille City the third Sunday in each month.

LOCAL ITEMS.

Uncle John Lamont, of Bandon, had business in town last Thursday.

The president and his cabinet have decided that a special session of congress will not be necessary.

O. C. Shaw, the popular rubber goods drummer, of San Francisco, visited our merchants last week as well as those of other points in the county.

J. G. Leneve, of Bear creek, was to see his brother, N. W. Leneve last Thursday and while here made the HERALD office a pleasant call, and has our thanks for favors.

Willie Brack who is taking orders for D. W. Thomas, the enlarging artist of Myrtle Point, was in town last week. If you order through him you will get good work.

Anyone wishing a choice band of sheep, still retaining a heavy clip, will do well by calling upon R. G. McQuigg, one mile from town on Marshfield road.

The Meadames Bessy, of Coos river, and Mrs. Paterson and Mrs. Brown, of Marshfield, drove over to Myrtle Point Thursday to attend the unveiling of the monument of Mrs. Lewellen at that place.

T. A. Walker, of this place, was called by wire to the bedside of his father who lives near Dillard, this state, on Thursday. The old gentleman is reported to be very low, but we are not informed of the nature of his illness.

A nice garden lot of about one acre in a beautifully located and well sheltered place near the Bandon beach will be sold very cheaply if a buyer be found soon. For full information and terms call at the HERALD office.

F. P. Margell, of this place, while assisting in some repairs under the mill at this place on Thursday was struck in the face by a falling timber, bruising his nose somewhat and throwing him in the river, but not seriously injuring him.

The schooner Albion, Capt. Larsen, arrived at our wharf Thursday afternoon in tow of the tug Triumph. Capt. Butler remained over night with the tug, returning Friday morning. Chief Engineer Barrows and others of the crew visited old friends while in town.

You will notice that our marble works have changed hands, and that Stewart & Westgate are now the managers. While these parties are comparatively new beginners in this business, good work will be done and satisfaction given. Give them an order and what encouragement you can.

Dyspeptics cannot be long lived because to live requires nourishment. Food is not nourishing until it is digested. A disordered stomach cannot digest food, it must have assistance. Kodol Dyspepsia Cure digests all kinds of food without aid from the stomach, allowing it to rest and regain its natural functions. Its elements are exactly the same as the natural digestive fluids and it simply can't help but do you good. R. S. Knowlton.

D. W. Thomas, the artist of Myrtle Point, spent several days here and on the lower river delivering work ordered a short time ago by our townspeople. One must examine his work to appreciate it. We have some of those beautiful medallions at the HERALD office; if you wish wish to see them just step in and examine them for yourself. This is a new departure, in this section, and few realize what beautiful work he furnishes at so reasonable a cost.

Chas. Dye is hauling some lumber from the Lyons mill onto the county road up Cunningham creek, the county furnishing the lumber. This work Mr. Dye is doing gratis, and others of his neighborhood are donating considerable work on this road. Many of our citizens think it a serious mistake upon the part of our town board to retain all road work of our town people within our city limits. It is a matter of no little importance and our city to have roads upon which our country people may come in and go out. We are afraid this is a bad business move.

Charley Aiken is employed in a drug store in San Francisco. Gilbert Hall, formerly county judge of this county, died lately at Oakland, Cal., aged 83 years.

There are now in training at the race track ten trotters, five runners and two pacers, and more are expected.

The first casting was made at the Coos Bay Iron Works, Marshfield, on Wednesday last. The work done was mostly for fittings for the plant, but the firm will soon be ready to attend to all orders.

The Alumna was towed from North Bend to the lower bay, Saturday evening, where she will complete her load of 1,000,000 feet of lumber, and early next week will sail for Cape Town, South Africa, direct.

Anyone in Coquille City who has property to exchange for property in Bandon will do well to call at the HERALD office.

Willard Crawford, our new attorney, occupies the Lorenz house by the Odd Fellows' building, where he will open up an office.

The State Normal at Drain has not been able to supply one-half the teachers called for since January. Trained teachers are demanded. The Normal is meeting with success in its various departments of work and its students are securing high grades in country and state examinations. Review classes will be organized at the opening of school in September for those desiring to prepare for the next examination. Candidates for certificates are asking for reviews and the school will meet the demand. Catalogue will be ready June 25th. Address the president for it.

A Bullet in His Head.

Albany, June 3.—While hunting last night near Berry station on the Corvallis & Eastern railroad, Nathan Sumpter placed his gun on a log against a tree. It slipped off and was discharged, the ball passing through his nose and right eye and lodged under the skull. With the bullet in his brain he could still walk with assistance and was brought to Albany for surgical aid.

The Cosmopolitan for June is even more than usually strong in fiction. Ian MacLaren tells more adventures of that incorrigible youth, Sparrow. Richard Le Gallienne revives with charming freshness and simplicity the love-story of "Aeneas and Nicolette." H. G. Wells concludes "The First Men in the Moon" with Cavor's sudden death at the hands of the Grand Lunar. Tudor Jenks contributes a clever little satire on justice. Egerton Castle's powerful novel, "The Secret Orchard," continues, and G'Neill Latham writes a half-humorous, half-sad fairy-story, "Prince Weary-Heart."

Many new uses for skim milk have been developed in the past few years. One of these is the preparation of a food product in the form of a powder. A company is manufacturing an article of this kind in the United States, and in England the manufacture has also been developed. In this country the product is called "plasmon." The separated milk is coagulated, kneaded and then dried at a temperature of 158 degrees under an atmosphere of carbonic acid gas. When perfectly dry it is ground into a granular powder, which is soluble in hot water. It is said that the German Government uses this or a similar food product in large quantities for its army and navy.—The Oregon Agriculturist.

Mr. C. L. Dailley, of Salem, Oregon, says there are fine prospects for the fruit crops of Oregon, from strawberries to apples, especially the prune crop. Says he has not seen better prospects in ten years. At this date it does not seem possible that any unfavorable elements can change the situation. In California, while they will carry over an immense quantity of dried fruits, the recent frosts in that state, as reported from reliable sources, have cut the fruit crop down to very moderate proportions. He sees no reason why fair living prices should not prevail for fruit. It has been years since the outlook for canning stock, such as strawberries, cherries and other small fruits, has been as good as it is this year. Especially is this true of cherries.—Homestead.

One of the most remarkable but least-noticed facts in connection with the war in the Transvaal is the extreme youth of a large part of General De Wet's army. When hostilities broke out almost every grown man enlisted, even the enfeebled but the pace has been too rapid for the venerable burghers. As they were killed or incapacitated their places have gradually been taken by mere school-children, many only thirteen or fourteen years of age. Under the title of "The Youngest Soldiers in the World," in the June Cosmopolitan Allen Songree throws more light on the make-up and life of General De Wet's commandoes than anything hitherto published. The naive, simple letter from fourteen-year-old Deneys Reitz to his father, the Secretary of State of the Transvaal Republic, has seldom been equalled for vital interest by any carefully written article on the war.

Elmer Hamlin, of this place, who sought his fortune to the Northward, some weeks ago, is now at Victoria, British Columbia.

J. B. Hunt and wife, who have been visiting their son, Robert and wife, in Northern Curry county for the past ten days, returned to Bandon last Thursday.

W. A. Wooliver and O. S. Brown, who are organizing a camp of modern Woodman at this place, have 71 applicants for membership in that organization.

S. Munday shipped samples of native timber to a firm in San Francisco which will experiment with it for veneering purposes. The lot comprised samples of Myrtle, maple and fir and was shipped on the steamer Mandalay when she sailed last trip.

The Bandon Livery stable management has changed hands again. M. R. Lee and Elbert Dyer having bought out Conrad & Buckingham's interest. The new management have taken charge and will use their best endeavor to give the public first-class service, and we feel sure from the business qualifications of the new firm that it will prove a success.

Robert Laws was taken very sick last Friday and is confined to his bed yet, although slightly improved. He has been stopping with his brother, D. J. Lowe, for the past few weeks and Friday came down town during the forenoon. Near noon he started to return to the house and before proceeding more than half way up the walk to where he was stopping he received a stroke of paralysis. The attack caused blindness and sickened him, and he was carried into the house a very sick man, and has been under the care of Dr. Kim since then. He has improved somewhat, but is in rather a precarious condition yet.

One hundred and sixty glass jars of Oregon fruits, many of the jars of large size and all of them filled with fruits of Oregon, were lent to California for exhibition at Paris. They were asked for by the Californians, for the purpose of helping out their exhibit, and the Californians promised to let them carry the Oregon labels. Of the 160 jars only thirteen were returned; the remainder "disappeared." Those that were returned bore labels as California fruits. The Oregon labels were turned to the wall at Paris, and California labels pasted on the front of the jars. The few jars that were returned are now at Buffalo, where anybody who may desire can see the exposure of the California trick.—Oregonian.

Archie, the 10-year-old son of Elmer Palmer, formerly of this county, had his left foot crushed under a car wheel, while attempting to board a freight train near Ashland a few days ago. The foot had to be amputated.—Review.

Grants Pass, June 3.—At Kane Creek, three miles from Gold Hill, a vein of gold ore has been discovered that eclipses all others made in that notable mining district for several years past. Ten days, ending today on which the new vein has been worked, has brought over \$12,000 to the owners, Sanders and Rease, two miners late from California.

These two men held a working bond on the property, and on making the rich discovery a few days ago, went at once to the owners, Mitchell & Honck, and without revealing their secret, succeeded in purchasing the mine, the Roaring Glimlet, for a few hundred dollars.

The two lucky men were unable to stand so much prosperity without a jubilee and accordingly, a couple of days after the find they and their companions drank Gold Hill dry. There was free beer and whisky for everyone in town in celebration of the grand discovery.

The discovery is in the same district in which the noted Gold Hill and other valuable pockets were found; the formation of this one being identically the same as that of the former pockets. Mining men who have examined the Roaring Glimlet believe it will be as extensive and valuable as that of the Gold Hill.

Notice. Any one wishing to sell or trade land in Oregon for land in California, please address, J. W. SKAGGS & Co. Hanford, Kings county, Cal.

Notice. By direction of L. Harlocker, County Judge of Coos County, Oregon, notice is hereby given that in pursuance of an act of the legislature assembly of the state of Oregon, approved Feb. 23, 1901, all persons whose property has heretofore been sold for taxes and bid in by Coos County, will be allowed to redeem the same at any time before July 1st, 1901, by paying the amount of said taxes and the costs of advertising, without any penalty for redemption being added. Dated at Coquille City, Oregon, this 11th day of April, 1901. L. H. HAZARD, County Clerk.

THE WEEKLY CALL. A Sixteen Page Paper. Containing a report of the week's leading news features and many special features for the farmer and stock-raiser. SEND FREE SAMPLES. Subscription Price, including Postage: INVARIABLELY IN ADVANCE. Daily Call (including Sunday) 12 mos. \$1.00. Single Copy 10 cts. Weekly Call 12 mos. \$1.00. Delivered by carrier, every day, 50c month. JOHN D. SPRECKELS, Proprietor. Address All Communications to W. C. LEAKE, Manager.

GRAY Why let all your neighbors and friends think you must be twenty years older than you are? Yet it's impossible to look young with the color of 70 years in the hair. It's sad to see young persons look prematurely old in this way. Sad because it's all unnecessary; for gray hair may always be restored to its natural color by using AYER'S HAIR VIGOR. For over half a century this has been the standard hair preparation. It is an elegant dressing; stops falling of the hair; makes the hair grow; and cleanses the scalp from dandruff. \$1.00 a bottle. All druggists. I have been using Ayer's Hair Vigor for over 20 years and I can heartily recommend it to the public as the best hair tonic in existence. Mrs. G. L. ALDERSON, April 24, 1890. Editor, Tex. If you do not obtain all the benefits you expect from the Vigor, write the Doctor about it. Address, Dr. J. C. AYER, Lowell, Mass.

Great Clubbing Offers. The Herald has made arrangements with the managements of the following-named publications for clubbing purposes on the terms given below: The Commoner (W. J. Brysons paper) and the Herald, in advance... \$2.00. The Weekly Examiner and Herald... 2.50. The Weekly Oregonian and Herald... 2.00. The Oregon Agriculturist and Rural North West... 1.75. Western Poultry News (Lincoln, Neb.) and Herald... 1.50. Pacific Homestead and Herald... 2.25. New York World (Three-a-week) and Herald... 2.15.

AN INCOME FOR LIFE FROM Greatest of Gold Properties

3680 Acres—9 Miles in Length 250 Million Tons

Richest Gold-Bearing Quartz, ground by nature's hand into gold-laden gravel, from 50 to 600 feet in depth over the entire property. In addition, Company owns

14 MILES in length of river bed, each mile of which contains many millions of gold, situated on the Rio Grande, in Taos Co., New Mexico.

OVER 100 Million Dollars For Dividends

READ THE PROOFS: United States Official Report MADE TO Commissioner of the United States, GENERAL LAND OFFICE, WASHINGTON, D. C.

by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin Silliman, who spent several months there, then being connected with the United States surveying corps, and in his official report says: "HERE ARE COUNTLESS MILLIONS OF TONS OF RICH GOLD QUARTZ reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over 40 miles is a sluice on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved methods of river mining. THE THICKNESS OF THE RIO GRANDE GOLD GRAVEL EXCEEDS IN MANY PLACES 50 FEET, OR NEARLY THREE TIMES THAT OF THE LIKE BEDS IN CALIFORNIA. WHILE THE AVERAGE VALUE PER CUBIC YARD IS BELIEVED TO BE GREATER IN THE NEW MEXICO BEDS THAN IN ANY OTHER SUCH ACCUMULATIONS YET DISCOVERED."

"I have made a reconnaissance of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. NOTHING I AM PERSUADED, SINCE THE DISCOVERY OF CALIFORNIA AND AUSTRALIA, IS COMPARABLE FOR ITS MEASURABLE RESOURCES OF GOLD AVAILABLE by the hydraulic process to the size of pieces of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this Company the richest and most extensive known.

Capital Stock \$2,000,000. FULLY PAID AND NON-ASSESSABLE, PAR VALUE \$1 EACH SHARE.

One-half the entire Capital Stock has been placed in the treasury of Company as a working Capital. To complete necessary duties and place on the river bed several gold steam dredges, the Company now offers
