

Church Directory.

Episcopal Church.—Episcopal services will be held at St. James church, Coquille City the third Sunday in each month.

LOCAL ITEMS.

J. C. Brown, of near Riverton, was up to town Wednesday.

Jesse Taylor, of the lower river, paid Coquille a visit Wednesday.

Frank Fahy, bookkeeper at the Parkersburg mill, paid this place a short visit Wednesday.

A fine two-year-old Durham and Holstein bull for sale by A. B. Tozer, at the county farm.

Anyone in Coquille City who has property to exchange for property in Bandon will do well to call at the HERALD office.

Mrs. W. H. Young, of this place, went to Bandon Wednesday where she will enjoy a visit with her aunt, Mrs. J. S. Edmunds.

E. A. Howey, our new arrival from South Dakota, and brick mason, built the chimney in Martin's new building last week.

The tug Triumph came up Wednesday and towed the schooner Albion to the lower river preparatory to sailing for San Francisco.

Mr. and Mrs. L. J. Simpson and Mr. and Mrs. M. H. Kriebel, of North Bend, drove to this place Wednesday and returned Thursday.

There is a few unsightly piles of old lumber and trash about our streets that should be cleaned up to give our town a real Fourth of July appearance.

The HERALD has just listed some of the best dairy ranches and town property in Coos county. Intending purchaser should examine our list and get prices.

Anyone wishing a choice band of sheep, still retaining a heavy clip, will do well by calling upon R. G. McQuigg, one mile from town on Marshfield road.

A nice garden lot of about one acre in a beautifully located and well sheltered place near the Bandon beach will be sold very cheaply if a buyer be found soon. For full information and terms call at the HERALD office.

While the big schooner Aluma just completed at North Bend was loading lumber on the lower bay last Tuesday, a sailor by the name of Miller was struck by swinging sling of lumber and instantly killed, his head being crushed.

C. T. Cessna and Crane Sturdivant, of Riverton, went over to the old Southport mine Wednesday where they will take up the track and bring that and also the trucks which were used in that mine over to the camp of the latter where will be used for logging purposes.

Dyspeptics cannot be long lived because to live requires nourishment. Food is not nourishing until it is digested. A disordered stomach cannot digest food, it must have assistance. Kodol Dyspepsia Cure digests all kinds of food without aid from the stomach, allowing it to rest and regain its natural functions. Its elements are exactly the same as the natural digestive fluids and it simply can't help but do you good. R. S. Knowlton.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them.

The State Normal at Drain has not been able to supply one-half the teachers called for since January. Trained teachers are demanded.

The Normal is meeting with success in its various departments of work and its students are securing high grades in country and state examinations. Review classes will be organized at the opening of school in September for those desiring to prepare for the next examination.

Frank Hofer, of the Mail, left Thursday morning for Salem, intending to return in a short time with his family.

Up at South Bend they tax the town cow one dollar, and don't allow bells to be worn. Steers and young stock are taxed \$2 per head.

Mrs. C. W. Olive, who is being treated at the German hospital, San Francisco, is improving. With assistance, she is now able to walk a few steps.

The oft recurring rumor of the Alliance going on the Alaskan run is pronounced by the agent here as being absolutely false. She is due to sail from here to Portland next Monday.

A flock of fourteen swans was seen on the bay Wednesday last. They remained but a few hours, and then continued their flight north. Our informant says that swans have never been seen on the bay before at this time of year.

The Examiner gives an account of a child at Oakland, Cal., who was beaten, starved, and left bound hand and foot. Lyle Savage, formerly of Marshfield, and whose parents reside here, broke into the house and rescued the little girl. Lyle's picture is published, and, strange to say, it somewhat resembles him.

H. R. Reed put a crew of men to work yesterday morning, gardening at the Bay City shipyard, to make room for the building of a four-masted barkentine. W. H. Noble is getting out the keel, and we understand that work will be commenced on construction as soon as possible. She is to be built for Julius Heyman & Co., of San Francisco, and her dimensions are as follows: Length over all, 235 feet; beam, 42 feet; depth, 16 feet; to carry 1,500,000 feet of lumber on a draft of 18 feet.

Doctors State Nature of Mrs. McKinley's Ailment.

Washington, June 8.—Mrs. McKinley's physicians were in consultation about two hours today, and subsequently a complete statement of the illness from which she has been suffering was issued. Such a statement has been promised from time to time, and while in San Francisco it was said the President desired a fuller announcement of the nature of Mrs. McKinley's illness given to the public. But for one reason or another it has been withheld up to the present time.

The bulletin is as follows: "Mrs. McKinley's illness has been a blood affection resulting from perionitis of the index finger (bone felon), which began in Los Angeles, and which was promptly treated by incision. The subsequent condition and exhaustion was due to the same blood infection asseverated with a diarrhoea. She improved however, and was brought home in comfort and without loss of strength. The principal cause of anxiety in her case since her arrival in Washington has been acute endocarditis (inflammation of the lining membrane of the heart), involving the mitral valve, the result of the same blood infection. This does not appear to be progressive, and there has been an improvement in the diarrhoea and in her general condition. Mrs. McKinley's case at the present is a more cheerful aspect."

The statement that Mrs. McKinley's case at this time presents a more hopeful aspect is the best word that has come from the sick-room since the arrival of the distinguished patient in Washington. The President feels considerably encouraged.

Today was Mrs. McKinley's birthday, and many beautiful flowers and gifts were left at the White House for her.

The Best Time for Planting Currants.

Currants are about the cheapest and easiest crop of fruit to produce, requiring very little time and labor as compared with many others, state American Gardening. For fillere, or what might be termed a catch crop, they are indispensable when grown between plum, pear, peach, cherry and quince trees. They can be grown in an orchard of any of these fruits without retarding or injuring the trees. When currants are fruited in this way it is merely a question of more manure or fertilizer. Every intelligent fruit grower will understand this at once. Under this system of intensive gardening you have a nice income from your currants, while your fruit trees are developing and getting ready for fruiting.

It depends entirely upon yourself as to how long these bushes will bear large, marketable fruit. No matter how great a sacrifice it may seem, you should remove two-thirds of the new wood each season. Failing to do this you will soon have a lot of overgrown bushes on your hands, and the fruit will dwindle in size and be imperfect in many ways. On the other hand, if you prune judiciously, spray as is necessary, manure well and cultivate thoroughly you can keep your plantation of currants in perfect order for at least ten years, and one year with another, you will be well recompensed for your investment and labor.—American Fruit and Vegetable Journal.

HAIR HELP

So many persons have hair that is stubborn and dull. It won't grow.

What's the reason? Hair needs help just as anything else does at times. The roots require feeding. When hair stops growing it loses its luster. It looks dead.

acts almost instantly on such hair. It awakens new life in the hair bulbs. The effect is astonishing. Your hair grows, becomes thicker, and all dandruff is removed.
