 L. H. HAZARD,
 County Clerk.

Text Books Chosen.
 Salem, Or., July 9.—Ninety-eight per cent of the common school text-book business of the state was awarded by the Text-Book Commission today. Ginn & Co. get 73 per cent, Maynard, Merrill & Co., 17 per cent, Heath & Co., 6 per cent; Christopher, Sauer & Co. 2 per cent. The American Book Company, which has heretofore had the bulk of the business, has thus far been given nothing.
 In making the awards the board voted as a unit, the selections having been agreed upon beforehand. Each book, therefore, received five votes, except in the selection of a primary history, when H. W. Scott voted independent of the other four. So far as appears, complete harmony prevailed, all differences of opinion having been settled at private conferences.
 The books adapted are here shown by series, the prices being for a set of the series. Introductory prices are the same as retail in all cases.
 Cyr's readers, five books, Ginn & Co.; exchange, \$1.03; retail, \$2.05.
 Reed & Kellogg's grammar, three books, Maynard, Merrill & Co.; exchange, 68 cents, retail, \$1.35.
 Wentworth's arithmetic, two books, Ginn & Co.; exchange, 36 cents, retail, 70 cents.
 Five's geography, two books, Ginn & Co.; exchange, 90 cents, retail, \$1.80.
 Speller, Reed's word lessons, one book, Maynard, Merrill & Co.; exchange, 10 cents, retail, 22 cents.
 Wheeler's primer, W. H. Wheeler & Co.; exchange, 15 cents, retail, 30 cents.
 Brooks' mental arithmetic, Christopher, Sauer & Co.; two now in use, retail, 30 cents.
 Newland & Row's vertical writing, eight books, Heath & Co.; 6 cents straight.
 Thomas' primary history, Heath & Co.; exchange, 30 cents, retail, 60 cents. Mr. Scott voted for Mc-Master's history.
 Thomas' United States history, grammar grade, Heath & Co.; exchange, 50 cents, retail \$1.
 After the vote had been taken President H. W. Scott stated to the board that the members of the board had been studying the merits of text books for about four months, that they had held a conference, compared notes and investigated prices and that the selections made were the result of that conference.
 Physiology, civil government, music and drawing are yet to be passed upon in the common branches, but they represent but a small percentage of the text-book business. All the high school branches also remain.
 Of course all the agents who were successful are satisfied and jubilant. One of the heavy losers, when asked tonight what he thought of the board's action, said: "The board is above reproach. They did what they thought best for the schools of Oregon. Of course I don't agree with their judgment in the matter."
 Another unsuccessful man, when asked what he thought of the board's holding a preliminary conference over the selections, said: "It was the only businesslike way of doing things. They went about it like business men.
 The adopting of the vertical system of writing is one of the most radical changes made by the commission.

Washington, July 8.—The Treasury Department to-day notified the Surety Company of Baltimore, which is on the bond of Superintendent Leach of the San Francisco Mint for \$100,000, that they will be held responsible under their bonds for the \$300,000 or any part of the same which is said to have been stolen from the gold vaults at San Francisco. Assistant Secretary Ailes, speaking for the treasury department, said today, "We are certain to apprehend the guilty party as the limits of the responsibility are comparatively circumscribed. The government, however, does not propose to be the loser, and in any case will hold Superintendent Leach responsible upon his bond. The secret service detectives, by the process of elimination, have considerably narrowed the limit of responsibility for the theft."
 Secretary Ailes said the department did not approve the plan of assessing the employees to make good the shortage. The thing has been done before, but never for so large an amount. In the present case the department recognizes the severe hardship which would result from a general assessment of all the employees of the mint at San Francisco. Many, and indeed most of these employees, have no connection whatever with the gold vaults, and could not, in the most remote way, and could not, in the most remote way, be responsible for the shortage there.

Hot Day in Kansas.
 Topeka, Kan., July 8.—This has been a day of unprecedented temperature in Kansas. In Topeka for two hours this afternoon the mark reached was 104. In Marysville, 108 degrees was the record made. Fort Scott reported 106 degrees. Reports from numerous Kansas counties tonight indicate that the corn crop is practically a failure. Hay is selling at enormous prices and the indications point to almost a famine in feed for animals unless rain comes within a day or two.

A Statement.
 MR. OLIVER S. BROWN,
 Coquille, Oregon.

Dear Sir: In reply to your communication of recent date, will say that the following is a statement showing the condition of the Modern Woodmen of America, as developed by an examination made by this department March 31, 1901.

Total assets,.....\$1,253,239.10
 Total liabilities,..... 627,085.70
 Bal. o protect contracts 728,153.40

From this you can clearly see that there is abundant money on hand to meet all obligations.
 During the year 1900, the mortality collections of the Modern Woodmen of America were \$4,366,000, death losses incurred during the same time \$4,274,000. During the first three months of the present year, the mortality collections were \$1,323,000, death losses incurred during the same period \$1,467,000.

While the death losses during the first three months of the present year have exceeded the amount of mortality collections, yet taking into consideration that the death losses of all companies doing business in the northern half of the United States is greater during the winter months than during any other season, I do not see that this should be any cause for alarm.
 It is true that this Department has advised the company that, in their estimation, it would be better that increased assessments or more assessments be levied.

This, however, was not done because the company did not have sufficient money to meet their obligations, but was for the purpose of enabling them to accumulate a reserve fund, which this Department thinks is necessary.

Very respectfully yours,
 HENRY YATES
 Insurance Superintendent.
 Treasury Will Hold Superintendent Leach Responsible.
