The Folly of Killing Birds.

The thinking people of the country are gradually awakening to the fact that the mania for killing birds, which has existed for over a century, needs the substantial check to prevent the absolute extermination of the feathered friends of humanity.

The first intimation that something would have to be done to protect American animal life was the rude shock caused by the announcement that the vast herds of bison were no more—and the pitiful and abortive effort of the government to protect a few isolated specimens in Yellowstone Park. In the past five years a similar statement has led to the creation of the Adirondack Park in New York, and much-needed restrictive legislation for the protection of deer.

What statistician will compute, what orator will present, and what legislators will provide the data, formulate the bills and pass the laws necessary to save the wondrous bird-life of this continent from the fate of the bison and the deer?

The economic value—the appeal to sordid commercial ideas—even if no other phase of humanity should be reached in this age of commercialism, should speedily bring about the passage of protecting bird-life.

Come out into the world with me and watch a pair of busy wrens or a hundred other birds as they toil from daybrake until sunset—and sometimes later. Try to count the number of trips they make during the day, and estimate, if you can, the quantity of destructive insects that is required as food for the family. You will find yourself growing tired of counting, and will gradually multiply the insects brought in at each trip by seconds, minutes, hours and days, until the number will appall you. Then you will have a new idea of nature's law of compensation; you will begin to realize that the birds you imagined were such a menace to your berries, cherries, apples and other fruits, are really the protectors—and you can thank them for every sound, wholesome piece of fruit that is marketed, and also for the product of your flower and vegetable gardens.—Charles Dennison Kellogg, in June Success.

Although the yield of fruits will not average very heavy as a whole in Oregon this year, the season so far is proving an unusually good one for the growers. The crop of strawberries was large and prices were good throughout. More strawberries were shipped out of the state and more money was paid for strawberries for home consumption than ever before. The cherry crop has been pretty light in many places but a great deal more money has reached the growers for this year's crop of cherries in Oregon than in any previous year. The pear crop will be light but will probably sell well. Last year's apple crop was unusually good in the sections which raise most of the shipping apples, and prices were also good. It is not expected that the proceeds of shipping apples this year will be quite as large as they were last year. It is hoped that the difference will be more than made up by an increased demand for low-grade apples for the manufacture of cider vinegar, and by a probable better demand for evaporated apples. The crop of Italian prunes will be the largest the state has ever had. It can not be expected that the prunes will average in size as large as last years or that the price per pound will be as high, but from the present outlook there is no reason for believing that they will not sell at prices which will give the growers a margin of profit. It is not probable that the aggregate prune crop of the world will be as large this year as it was last year. There is also a possibility of a market for a few hundred carloads of fresh Italian prunes.—Rural Northwest.

Not one death from yellow fever has been reported from Cuba within the year! This is a statement so astonishing as to be almost incredible. It signalizes the triumph of relative cleanliness ovar abominable filth, of sanitary science over ignorance and carelessness. The germs of this filth disease have been tracked to their breeding places, and there have been so purified and so destroyed for the purpose of fever propagation. Relentless and intelligent warefare has been waged against the mosquito, and this carrier of fever germs has been routed. The sunlight has been let into dark places, miasmic pools have been drained, and disinfectants have been dispensed with a liberal hand. The result will be of incalculable advantage to Cuba, not only in a human sense, but in a financial and commercial sense as well. It is in itself sufficient to justify the Cubans in asking annexation to the United States, as a boon greatly to be desired.—Oregonian.

Oil Boring Progress.

Operations at the site of the Southern Oregon Oil Co's new oil boring plant have been steadily pushed during the past week, and some miner troubles incident to the starting of new machinery have been experienced. The drill pounded along in blue clay until about 40 feet down when a formation was reached which is thought to be an old river bed. It was a gravel drift which closed over the opening made by the drill as it went down. It was found necessary to case through this quicksand, which has been done and good progress is now confidently expected. Water has been encountered and colors of gold are frequent.

Just as soon as things are in steady working order, Manager Whitney intends to put on a night shift and push the work as fast as possible. Expert J. B. Treadwell, who accompanied Messrs. Guggenheim and Mack on their visit here, gave it as his opinion that oil would be struck at a depth of 1500 feet.—Ashland Tidings.

Working of the Oklahoma Registration Plan.

Washington, July 11.—Secretary Hitchcock today received a telegram from Assistant Commissioner Richards, of the General Land Office, in charge of the Oklahoma lands, saying the registration plan is working successfully. Secretary Hitchcock estimates that 100,000 people could be registered by July 26, the last registration day. There are lands for only about 13,000 people.

Reports of cutworms are beginning to come in. There is no present indication that these will be as numerous as they were last year, but it does not pay to allow them to destroy crops of potatoes, cabbages, etc. The best method of poisoning them, probably, is one that has been used in California for a number of years, and that is feeding the worms poisoned, sweetened bran. To prepare this mix one pound of Paris green with 50 pounds of bran and then dampen the bran with sweetened watter. A spoonful of the moistened bran is deposited at frequent intervales along the rows. In this way the grape vines have been protected in California, as the cutworms appear to be peculiarly fond of sweetened bran. The method is not very expensive From ten to twenty pounds of the mixture is said to be enough for an acre. In place of this, freshly cut clover can be dipped in a strong mixture of Paris green and deposited in bunches.—Rural Northwist.

The midsummer fiction number of the July Cosmopolitan contains the best story Bret Harte has written in a long time. The well-known Jack Hamlin is the hero, and he will be eagerly welcomed back by the public. Desperado and gambler that he is, theoretically we ought not to like him, but he has that fine courage too rarely met with in real life or in fiction, and those who read "A Mercury of the Foothills" will probably lose sight of his faults in following the events which take place upon "that heaven-kissing hill." Katrina Trask's story in the same number should be read by every woman. It is one of those homely tragedies constantly going on in modern society. It is probably the cleverest piece of work Mrs. Trask has ever done. R. K. Munkittrick's quaint New England coast yarn has a breeziness about it that makes it really refreshing. The July installment of Egerton Castle's story begins to raise the curtain on the inevitable ruin which the Duke of Cluny's weakness must bring on those who love him.

Excerpts from the Plaindealer: Grace Shupe, the third daughter of Mr and Mrs. John H. Shupe, died at the family home in South Roseburg, Sunday evening, July 14, 1901, her death being due to typhoid fever, complicated by meningitis.

The sad intelligence of the death of Lester Wright, a very popular and highly esteemed Roseburg boy at the Good Samaritan hospital, at Portland, July 14, 1901, reached this city Sunday evening and came as a shock to his relatives and many friends at this place as his condition was reported much improved last Saturday evening and the case was not considered critical by the hospital physicians. However, fatal complications set in and death soon resulted, his death being due to some kind of stomach troubles and his illness being of short duration

You can never cure dyspepsia by dieting. What your body needs is plenty of food properly digested. Then if your stomach will not digest it, Kodol Dyspepsia Cure will. It contains all of the natural digestants hence must digest every class of food and so prepare it that nature can use it in nourishing the body and replacing the wasted tissues, thus giving life, health, strength ambition, pure blood and good healthy appetite. R. S. Knowlton.

A Dawson Letter.

The following letter from Marshall Nay, who went to Dawson Alaska, last spring, was received by his uncle, J. L. Nay, of Curry county, and was published in the Port Orford Tribune:

I arrived in Dawson on the 24th of May, all O. K., and found everything on the boom. Lots of work at good wages, $5 a day and board; and there is a good demand for women cooks at from $80 to $125 a month.

"The wash-up is not half over yet, I think there will be a big clean-up here this summer.

"I can tell you that Dawson is all right. Anyway, I am willing to take my chances here. I am going to work for $6 a day and board, to-morrow, until I get on my feet, and then I can't just say what I will do or how I will do it.

"We had a hard trip from White Horse to Dawson. We followed the ice with a small boat, and we hauled the boat over Lake Labarge on a Yukon sledge and launched it on Thirty Mile river. There was five in our paty—three men and two women—one a girl of 18, and she is a trump. She worked in harness all the way across the lake and pulled more than old Tenbrook, and then she cooked supper, breakfast and dinner and never complained, while some of the men gave out and were growling, and when we struck the river she took the oars like an old seaman. She said she was from "Old Arkansaw," where all the girls know how to work. We landed on an island to wait for the ice jam to clear, and she took off her overskirt and went out. She killed four rabbits, two grouse and a porcupine and made the best pot pie I ever tasted in my life. You talk about your girls—this girl is a queen. She is well educated and good looking and can outrun a buck deer. She has gone to work cooking on a mining claim for $100 a month and says she will earn $400 before snow flies."

Will Put in a Paper at Astoria.

Astoria, July 11—Articles of incorporation of the Herald Union Publication Company were filed with the county clerk today. The capital stock of the company is fixed at $5000, in shares of $50 each. The incorporators are: H. L. Henderson, J. M. Hughes, W. C. Curtis, William Althouse and C. J. Curtis. The objects of the corporation as set out in the articles are the publication of a newspaper devoted to the interests of the Federation of Labor; to establish a job printing office; to buy and sell real estate; organize a labor bureau and to conduct a general newspaper and job printing office. C. J. Curtis, one of the incorporators, states that it is the intention of the company to begin the publication of a daily morning paper in Astoria about October 1.

A Salmon Combine.

Portland, Or., July 10.—Some time this week papers, incorporating a combine which will aim to control the salmon fisheries of the Pacific Coast and Alaska, will be filed at Trenton, N. Y. The capital will be $32,000,000. Of this amount $16,000,000 will be issued at once to pay for the plants which have accepted the offer of the combine, headed by R. Onffroy, the promoter. The remaining $16,000,000 of stock will be held in reserve for the purpose of negotiating with plants which are still outside the combine.

Private advices received from New York are, that the deal is practically completed, and that Onffroy will be able to announce in a few days that he has thirty Alaska and Puget Sound canneries under his control.

Situation is Not Hopefull.

New York, July 15.—Returning British officers do not speak hopefully of the situation in South Africa, says the Tribune's London correspondent. They assert that the railways are securely held and that there are small zones around Bloemfontein, Pretoria and Johannesburg where it is possible for inhabitants to settle down and to resume their usual occupations without fear of disturbance; but apart from the pacification of these small spheres of British influence there are few signs of progress. The railway line from Johannesburg to Laing's Nek is still menaced and the Dutch section along the South Orange river is ravaged by guerrillas, and broad districts of the Transvaal and the Orange River colony are only kept quiet by being emptied of their population through repeated marches of strong columns. In Cape Colony Scheepers is giving General French considerable trouble

A bad complexion generally results from inactive liver and bowels. In all such cases. DeWitt's Little Early Risers produce gratifying results. R. S. Knowlton.

A Forest of Petrified Trees.

A remarkable "forest of petrified trees called Chalcedony Park can be reached in a few hours from Holbrook, Ariz. The area of the park is estimated at hundred of square miles, and it contains thousands of tons of agatized wood. It is like a vast lumber camp, where the lumbermen have thrown the huge logs at random from their sleds, leaving them to become rain-soaked and moss-grown. Some of the trunks are 150 feet long, and they break up in sections, as if sawn through at intervals.

The bark is of a dark red color, as a rule, but the chips and interior exhibit kaleidoscopic colors. Amethysts, red and yellow jasper, chalcedony of every tint, topaz, onyx, carnelian and other stones abound. The logs in fact, are a blend of these stones. One of them, 100 feet long and three to five feet in diameter, spans a narrow canyon, and is called the Agate Bridge. It is chiefly composed of jaspers and agates.

As to the origin of the petrifications, it is supposed that in past time the trees were overwhelmed with volcanic asher and hot silicious waters from geysers. The timber is analogous to pine or cedar, and as it decayed the silicia dyed with various salts of iron and manganese in solution took its place.—Ex.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a desease and no weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure," which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upwright men.

Wives Cure Your Husbands! Children cure your fathers! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. Do Not Wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E849 EDWIN B. GILES & Company, 2330 and 2332 Market Street, Philadelphia.

All correspondence strictly confidential

For a grand bargain in a fine river bottom farm near a booming coalmine where all truck raised can be disposed of right at home, call on the HERALD.

NOTICE OF SHERIFF'S SALE.

NOTICE IS HEREBY GIVEN THAT by virue of a decree and order of sale duly issued out of the circuit court for the county of Coos, state of Oregon, dated the first day of July, 1901, upon a decree rendered and entered in said court on the sixth (6) day of May, 1901, in a certain suit wherein Ben Gant is plaintiff, recovered judgment against Wm. H. Gordon and his wife, Perrie C. Gordan, W. H. Pullen and James Pearson were defendants, being case No. 1990 of said court, commanding me to make sale of certain real estate hereinafter particularly described, to satisfy the sum of $162.90 and the further sum of $25 attorney fee together with interest thereon at the rate of six (6) per cent per annum from the sith (6th) day of May, 1901, and the further sum of nineteen $19.80 costs and disbursements now due on the said judgement to the said plaintiff from said defendants, I have levied upon and will, on Thursday, the 8th day of August, 1901, at the front door of the courthouse in Coquille City, in said county and state, at eleven o'clock in the forenoon of said day, sell at public auction to the highest and best bidder for cash, the following-described property, to-wit: Lot seven (7) of section (3) and lot three (3) of section ten (10) all in township thirty-one (31) south of range twelve (12) west of the Willamette meridian, in the county of Coos and state of Oregon, or a sufficiency thereof to satisfy the above amounts together with accruing costs and costs on said Execution.

Dated Monday, July 8th 1901.

STEPHEN GALLIER.
Sheriff of Coos County, Oregon.

A $65.00 Machine For $18.50

Cash with Order and Coupon

The Improved New High-Arm "Arlington" Self-Threading Sewing Machine

NEW HOME STYLE

LATEST BEST CHEAPEST

$19.50 AND Coupon, if sent C. O. D. or on trial

STYLE No. 55. "ARLINGTON."

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.

10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. **Highest Arm**—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. **It is Self-Threading**—Absolutely no holes to put thread through except eye of needle. **Shuttle** is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. **Stitch Regulator** is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. **Feed** is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. **Automatic Bobbin Winder**—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. **Light Running**—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. **Stitch** is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. **Tension** is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. **The Needle** is a straight, self-setting needle, flat on one side, and cannot be put in wrong. **Needle Bar** is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. **Adjustable Bearings**—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. **Attachments**—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ⅞ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. **Woodwork** of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.

DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS

OUR GREAT OFFER. $23.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guaranteed safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' test trial. We will ship C. O. D. for $19.50 with privilege of twenty days' trial on receipt of $5.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to anyone at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.

Coupon No. 2970 GOOD FOR $6.00 If sent with order for Arlington Sewing Machine No. 55
