The Best Man in 100.

When we employed C. P. Goodrich one of the corresponding editorial staff of the Dairyman, to take a complete census of 100 herds in this country, numbering in all over 1,800 cows, he found one man who stood at the head of the list in the work of receiving the greatest profit per cow.

Mr. Goodrich worked out the facts and figures with close exactness and accuracy. He wrote 10 letters to the Dairyman, describing each herd of cows by numbers, what they were fed and all necessary details. Many of our present readers never saw this very interesting and instructive presentation, and so we reprint what Mr. Goodrich said about the best dairyman in the 100:

I want to call attention to some facts which appear in this record, and also to some other facts, which I learned in my investigations. It will be seen that No. 79 got the greatest returns for food consumed of any in the lot, and with one exception the greatest net profit per cow. He also got the highest average price for milk for the year—110 cents a hundred. He was doing the most profitable business, notwithstanding one-third of his herd were two-year-old heifers. How did this come about? I discovered that he had studied and understood his business; was thoroughly acquainted with every one of his cows; he keeps accurte accounts of everything in connection with his dairy business: he could tell me to a cent the cost of the grain his cows had eaten, for he bought every bit of it. He could tell very closely the amount and value of all the other feed his cows had had, as he had kept his accounts solely for his own benefit; there can be no doubt about $26 being the correct figure as to the average cost of keeping.

His milk gave a larger yeild of butter per 100 pounds than any other patron I have yet interview in this series of papers, although one of his cows was a native with no particular breeding, and the other were only grades. Yet this is not the result of accident, he had worked intelligently and systematically for years to produce rich milk and cheap butter production, and he has got it.

For years he has used the Babcock test and tested his cows and rejected those that did not produce butter fat economically. His milk yielded close to six pounds, and some of the time over six pounds of butter to the 100 pounds of milk.

The careful student of dairying gets double the cost of feed in return from the creamery, while the man who does not study his business, gets at best but little more than cost of feed back, and consequently works for very small pay, which he takes in a calf' skim milk and manure.

Note in the above how the facts sustain the oft-repeated assertion of the Dairyman: It pays to be a reader and student of dairy practice. —Hoard,s Dairyman.

Transparent Mirrors.

Mirrors that one can see through are anew invention already coming in to use. They are of so called "platinized glass," being backed with a compound made of 95 per cent silver and 5 per cent plantinnum, and, optically speaking, they are exceedingly curious and interesting. Looking into a glass of this kind, one finds a first rate reflection. It is a mirror and nothing more At the same time a person on the other side can see directly through it.

For example, a glass of this sort placecd in front of the prescripton desk in an apothecary shop perfectly conceals the prescription clerk and his apparatus. Thus the privacy of that department is secured while on his part the clerk is able to survey the shop and see every body who comes in, just as if the mirror were ordinary glass. It is transparnt to him, but is like any common mirror from the view-point of people in front. It is easily seen that glass of this kind is likely to be useful for a good many purposes. It can be put in the doos of dark bathrooms or of any other rooms where privacy is desirable and light is wanted. Anybody who has observed own reflection in this plate glass windows of shops will understand the principle well enough. The effect is merely enhanced by an extremely thin coat of platinum silver, which allows light to pass through and yet furniched an excellent looking glass. The process consists in pouring over plate glass nitrate of silver and platinum and then applying rochelle salts—Saturday Evening Post.

In cases of cough or croup give the little One Minute Cough Cure. Then rest easy and have no fear. The child will be all right in a little while It never fails. Pleasant to take, always safe sure and almost instantaneous in effect. R. S. Knowlton-

To Stop Timber Abuses.

Washington, July 25.—On account of the timber land frauds discovered in Montana, and Idaho, Commissioner Hermann, of the General Land Office, has suspeded all proofs made during the present year under the timber and stone act, pending conclusion of the full Investigation and inquiry begun some time ago. The suspension aplies to all states where govenrment timber land is purceased, and involves thousands of casses. Many large companies and speculators, it is alleged, have had "dummies" as agents, making purchases of these lands from the government. Commissioner Hermann said today:

"Owing to the act of congress permitting selections of vauable timber lands, as indemnity for lands held by individuals and corporations within forest reserves, a speculation in so-called forest reserve scrip has developed. This is a means by which the owner of such lands within forest reserves may relinquish them to the government and in lieu thereof take valuable lands out of the uuappropriated public domian, or may convey his holding to another person seeking to exercise the right of selection.

"This provision has produced great rivalry among speculators and extensive mining companies in the acquirements of large tracts of timber lands. It has induced many others, who are not owners of such scrip or exchangeable lands inside forest reserves, to avail themselves of an earlier act of congress, approved June 3, 1898, the timber and stone act.

"This limits each purchaser to 160 acres and expressly requires the applicant to swear that the purchase is not speculative, but is made in good faith for his own exclusive use, and that he has made no agreement whatsoever with any person for transfer of his title.

"For many years, particularly the past year, this law has been grossly violated and abused by persons who perjure themselves before the local land office. The General Land Office has directed its special agents to report on any futher cases that may be discovered and all land officers have been warned to exercise the utmost strictness in the examination of parties and witnesses. Many of the fraudulent proofs made might have been detected at the time had the regesters and officers at local land office strictly applied the rules for scrutiny of proofs of applicants. After such proofs have passed the local officers, showing regularity and apparant good faith of entries, it is impossible for the authorities here to detect an error or fraud.

Improvements at State Fair Ground.

The State Board of Agriculture are making some wonderful improvements at the state fair grounds, and old timers will hardly recognize the place when they attend Oregon's greatest fair this fall. The old pavilion is being enlarged to double its size, and after the best exhibits ever seen in the state are arranged there will be ample room left for an auditorium, a thing that has been needed for a long time. A bran new up to date creamery building is being erected also where the best dairy display ever made in the state will certainly be seen. The machinery hall is being enlarged, new cattle stalls, sheep pens, hog stys, and horses stables are being built. A cozy farm cottage, hay barn. and new sidewalks are also on the list of improvements, and nothing will be left undone to accommodate the exhibitor and entertain the visitor at the state fair this fall.

The Cunard ocean liner "Lucania,, has been fitted with the Marconi instruments, and messages have been successfully transmitted from the vessel to Holyhead, and communication was kept up until the vessel was 20 miles from shore. The New York Herald is installing a station at Nantucket lightship. It will then be possible to redeive message from an incoming vessel twelve hourse before she is sighted, off Sandy Hook.

P. T. Thomas, Sumterville, Ala., "I was suffering from dyspepsia when I commenced taking Kodol Dyspepsia Cure. I took several bottles and can digest anything." Kodol Dyspepsia Cure is the only preparation containing all the natural digestive fluids. It gives weak stomachs entire rest, restoring their natural condition. R. S. Knowlton.

Theaters are to be established by the King and Queen of Roumania in all the rural communes of their kingdom. Here the villagers will give, once or twice a week, moral plays, the object being to inculcate religious and social precepts.

O. O. Buck, Ceirne, Ark., says; I was troubled with constipation until I bought DeWitt's Little Early Risers. Since then have been entirely cured of my old complaint. I recommend them. R. S. Knowlton.

PACIFIC COST STRIKE FAIRLY ON.

General Strike Ordered at San Francisco Last Night and 25,000 Men are Out.

San Francisco, July 30.—Culmination of the labor trouble came last night, when at a late hour the City Front Federation, composed of 14 organizations, with 15,000 members, ordered a general strike which was begun this morning. In addition to the 15,000 members of the City Front Federation, 10,000 machinists, iron-workers, cooks, waiters and teamsters are out, making the total number of men affected 25,000.

As a result of the strike in addition to the general suspension of business in the wholesale and manufacturing districts of San Francisco and Oakland, the port is practically closed, as not a vessel can be loaded or moved. Members of the Employers' Association, which is the offending organization, say they have counted the cost of the strike, and are prepared to stand firm. The steamship managers will act in harmony with the association.

San Francisco, July 30.—The labor truble in this city reached their culmination late last night, when the City Front Federation ordered a general strike on the docks of San Francisco, Oakland, Mission Rock and Port Costa, and in the City of San Francisco, to go into effect this morning. The resolution to strike, which received the unanimous indorsement of every delegate to the Federation, was short, but its effect will be to cause a temporary paralysis of the shipping business of San Francisco, such as has not been known before.

The resolution reads as follows: "The full membership of the City Front Federation refuses to work at the docks of San Erancisco, Oakland, Port Costa and Mission Rock. The steamers Bonita and Walla Walla, with mail and passengers, now in the stream, will be allowed to go to sea."

The meeting of the Federation was a long one, and there was much heated argument, but when the resolution came to a vote every delegate present voted in favor of the strike. The following 14 unions were represented, comprising all the workers on the water front: Sailors' Union of the Pacific, four local unions of Longshoremen, Marine Firemen, Brotherhood of Teamsters, Ship & Steamboat Joiners, Porters, Packers & Warehousemen, Ship Clerks, Pile-Drivers & Bridge-Builders Hoisting Engineers, Steam & Hot Water Fitters.

$2,663,200 IN SIX MONTHS.

Paid to the Beneficiaries of Deceased Members by the Modern Woodmen Society Still has Hundreds of Thousands in Treasury.

The Board of Auditors of the Modern Woodmen society, which has been in session for the past week checking up the books and accounts of the Head Clerk and Head Banker, reports that for the six months beginning January 1 and ending June 30, 1901, the Society's Benefit Fund has received in assessments from members, a total of $2,698,020.15. There was a balance in the Benefit Fund on January 1, 1901, of $345,853.20. Added to the assessments collected during the six months, this gave the Society a working Benefit Fund capital of $3,043,873.35. The disbursements to beneficiaries or deceased members during the six months aggregated $2,663,200, leaving a balance in the Benefit Fund on June 30, 1901, of $380,673 35.

In the General Fund there was a balance on January 1, 1901, of $303-315.42, and the receipts during the six months were $355,075.91, giving this fund a total working capital of $658,391 33. The Auditing committee finds expenditures for all purposes from General Fund during the six months, to have been $422,797.57, leaving a balance in June 30, 1901, of $235,593.76.

Seated Bibs.

Sealed bids will be received by the recorder of the City of Coquille until July 31, at 12 m., for $14,000 4 per cent semiannual interest, 20 year water works bonds, payable at the City Treasurer's office. Issued in denominations to suit purchaser. Bonds dated August 15, 1901.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a desease and no weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure," which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upwright men.

Wives Cure Your Husbands! Children cure your fathers! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. Do Not Wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E849 EDWIN B. GILES & Company, 2330 and 2332 Market Street, Philadelphia.

All correspondence strictly confidential

Armies of the Nations.

Washington, July 23.—That militarism is expensive to the poeople of the United States is fully demonstated in the volum just issued by the bureau of military information of the war department entitled, "Notes of Military Interest." It shows that the cost of one solder of the United States army for one year is $1,014.-66. The total fighting strength of the army as fixed by law is 76,000, and the total cost for maintainiug it for the year is $114,220,000.

The next most expensive individual soldier is the German. The effective in the army of the Kaiser number 562,187, and the military budget aggregates $142,077,225, or at the rate of $201.30 per soldier per annum, a difference against the United States of $813.36. Each soldier in the French army costs that republic $197.65, in the Austrian army, $194.54, in the Italian army, $192.23, and in the Russian army, the least expensive in the list, $155.75.

The figures pertaining to the British military establishment were not published, because of the greatly increased expense of that army owing to the Boer war. Russia maintains the largest army of the countries named. Her effective force numbers 732,605, costing $141,392,825. France is second with 589,215 officers and men, whose maintenance costs $124,491,500 a year. Germany comes next in strength with 562,187 effectives costing $142,077,225; Austria next with 350,637 effectives, costing $78,717,800, while Italy comes last of the European countries with 221,-388 effectives, costing $45,640,664

A $65.00 Machine For $18.50

Cash with Order and Coupon

The Improved New High-Arm "Arlington" Self-Threading Sewing Machine

NEW HOME STYLE

LATEST BEST CHEAPEST

STYLE No. 55. "ARLINGTON."

$19.50 AND Coupon, if sent C. O. D. or on trial

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.

10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. **Highest Arm**—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. **It is Self-Threading**—Absolutely no holes to put thread through except eye of needle. **Shuttle** is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. **Stitch Regulator** is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. **Feed** is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. **Automatic Bobbin Winder**—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. **Light Running**—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. **Stitch** is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. **Tension** is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. **Never gets out of order. The Needle** is a straight, self-setting needle, flat on one side, and cannot be put in wrong. **Needle Bar** is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. **Adjustable Bearings**—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. **Attachments**—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ⅞ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. **Woodwork** of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.

DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS

OUR GREAT OFFER. $23.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guarantee safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' test trial. We will ship C. O. D. for $19.50 with privilege of twenty days' trial on receipt of $5.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to anyone at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.
