C. M. SKEELS,

Riverton Pick-Ups.

During last week our town was well represented by the pelding fraternity. Their goods were so well hawked here that the various men left taking away over 100 dollars from our citizens.

On Thursday night we had the greatest electrical storm that we have experienced since leaving the Mississippi valley. The lightning struck Stacy Lee's house, tearing a hole 2 feet square through the roof, then passed down a studding to the ground. It tore off the weather boards and ceiling, scattering the lumber and splinters all over the rooms. It tore one door off and threw it across the kitchen. Yet it did but slight damage, taking a half day to repair. Another bolt struck a large fir tree near town tearing large strips of wood 40 feet long and hurling them a long distance. Still another bolt struck an apple tree on F. G. Kelly's place. Surely our town must be purified by this time.

Another tin pan brigade appeared in town last week.

Before this shall have have reached our readers, we will be traveling in the direction of the Rogue River mountains, to resume our deer hunting where we left off last fall. Now you hungry Bandonians keep your eyes open and perhaps we may leave another sack of dried meat for you.

F. G. Kelly and family leave for California on next trip of the Mandalay.

We are glad to announce the early starting of the saw mill here. It will be owned and run by a joint stock company.

DONNA ANNA.

Deanses Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever unless cases out of ten are cured by surgery; which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) can not be cured by Hall's Catarrh Cure. Send for circulars, free.
