SALOON,
Bandon, - - Ore.
J B. Gross & Son, Prop.
Chief resort of Bandon by the sea.
Agents for the celebrated Silver Bar (Kentucky) Whisky.
Don't Miss Them.

Fishy Flavors of Butter.

a circular letter Francis D. Moulton & Co., in discussing this question, says that the commonly heard complaint, that fishy flavors are due to the salt that may be used, is entirely without foundation, but proceeds through ignorance of conditions and is the result of efforts at guessing the cause of the trouble.

We think this is probably true; and a great many other complaints made, and especially the reasons for them, are similar guesses, without any real foundation in fact or experience. This is particularly the case with those very wise experts on the market, who annually inform us that dairy goods are "showing frosty flavors." If there has been any one proposition incontrovertibly established by our experiment stations, it is that the freezing of milk or cream has no perceptible effect upon the quality of the resulting butter.

This question of flavors in milk and its products, both those which are agreeable and those which are offensive, is a very intricate one. It is probably true that the disagreeable flavors may have many sources, but it is our opinion that more frequently than otherwise the water used in washing milk utensils and butter is responsible for these defects in flavor. For example, Mr. DeWitt Goodrich, while carrying on some experiments as creamery instructor, last spring, discovered that water which had been standing in the tank over night imparted this disagreeable fishy odor to the butter, whereas water direct from the well which supplied the tank did not impart any such flavor. The only reasonable explanation is that in some way the tank itself had become infected with bacteria capable of producing this flavor, and it would be well worth the consideration of butter makers who receive complaints of this character to look after the water receptacle and give it a thorough cleaning and disinfection with boiling water.—Hoard's Dairyman.

One of those peculiar manifestations of ignorance or prejudice regarding the specifications of Pacific Coast material for government contracts on this Coast has been brought to light again. The government is constructing a custom house in Portland. The specifications called for yellow pine flooring. The contractor, through Senator Mitchell, called the attention of the officials to the fact that not only was Oregon pine equal to yellow pine flooring in every respect, but is superior in every way. Oregon pine ship decking is manufactured by Portland mills and shipped to the Atlantic shipyards where its superiority over yellow pine is admitted. In the face of these facts the constructing department has condescended to allow Oregon pine to be used provided a deduction in the price is made. This fight for the recognition of Pacific Coast lumber for government contracts should not be allowed to wane.—Oregon Timberman.

The following extract from a letter just at hand, shows the confidence of school boards in the State Normal at Drain: "We want a thorough and strong teacher—lady teacher—one who has had several terms outside experience, as well as the advantage of your training department. If chanced that the president has such a teacher that he could recommend." Normal graduates are being sought and this fact is turning students towards the Normal. The Normal aids its graduates in securing positions. The TEACHER'S REVIEW CLASS will be found of great benefit to those needing review work for examinations. Address the President, Drain, Oregon. *

The state of Oregon refuses to give James McDonald, a London waiter, a free ride to Portland for the purpose of giving him a hearing for the robbery of the Western Lumber Company's office of $4,728.70 last year on his own confession.

James White Bryantsville, Ind., says DeWitt's Witch Hazel Salve healed runing sores on both legs. He had suffered 6 years. Doctors failed to help him. Get DeWitt's. Accept no imitaions. R. S. Knowlton.

Poultry Notes.

It is claimed that New Yorkers eat 2,160,000 eggs every day. Notwithstanding the fact that the United States produce 10,000,000,000,000 eggs yearly, we import over 15,000,000 dozen annually from Canada, Spain, Italy and even China to help fill the demand.

Blessed is the good housewife who can relieve the monotony of salt meats with a dinner of fried chicken once or twece a week.

The farmer should by all means give his birds ample room. The freedom of the premises and commodious houses pay in results.

The hen with a free range does better than the one confined within woven wire meets and bounds.

In counting up the value of the farm poultry estimate the value of the eggs used on the table.

The advantage of plenty of fowls for table use is readily understood by the good housewife.

There will be a better demand for pure bred fowls each year as time progresses.

Raise chickens for your own table whether you market any or not.

The half grown fowl is a little the nicest delicacy of the season.

The troughs and drinking vessels must be kept clean.

Capons make excellent nurses for turkeys and chicks.

If the hens do not lay change their feed.

The healthy hen is a hearty feeder.—Rocky Mountain Husbandman.

Powder Exploded on Freight Train.

The following extract we take from The Evening Telegram. As an evidence of the terrible explosion, we are assured by our friend A. O. Hooton, of Bridge, this county, that the report was distinctly heard to that section:

The regular northbound extra freight train that left Grants Pass Saturday afternoon at 2 o'clock was wrecked two hours later near tunnel 7, north of Glendale. The wreck was one of the worst in the history of the Southern Pacific. The train crew escaped with slight injuries, some of them receiving cuts from broken glass of the caboose and engine.

The train was a long and heavy one, drawn by three engines, with Engineers Gray and Dempsey in charge. Near the middle of the rain were three cars loaded with giant powder. In going up the steep grade near tunnel 7, the train broke in two. The emergency brake being instantly set, brought the train to a sudden stop, the severe concussion of which exploded the giant powder in the three cars, blowing them to atoms and damaging those immediately in front and behind them.

The track was torn and twisted for some 50 yards or more covered by the explosion. This together with the demolishing of the cars was the only damage done. Fortunately there was no one near the cars at the time of the explosion.

Constantinople, Aug. 21—The French Ambassador, M. Constans, has notified the Sultan's first secretary, that all diplomatic relations between France and Turkey are broken off and that the Ambassador has informed his government to his effect.

M. Constans communicated direct with the Sultan because the latest negotiations were transacted with the Sultan personally. The Ambassador justifies his action on the ground that the Sultan broke his direct personal promise, given to M. Constans at an audience in the Yildiz Palace Thursday regarding the purchase of the quays and the settlement of the disputed French claims.

The Foreign Minister also gave formal assurances that the agreement would be carried out, so, in view of this breach of faith, M. Constans holds that it is impossible for France to continue diplomatic relations with Turkey.

Tien Tsin, Aug. 20.—The American Minister, Mr. Conger, is urging Washington's attention to the persistent occupation of Tein Tsin University by the Germans, who refuse to vacate the building or pay rent, thereby preventing Dr. Tenny from continuing his educational work, which the Chinese desire him to resume.

The Oregonian of the 21st gives a beautiful half-tone illustration three columns wide of the large schooner, David Evans which was launched at Marshfield on the 7th inst, as well as a full description of her make-up in general.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a desease and no weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure," which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upwright men.

Wives Cure Your Husbands! Children cure your fathers! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. Do Not Wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E849 EDWIN B. GILES & Company, 2330 and 2332 Market Street, Philadelphia.

All correspondence strictly confidential

In the east it is considered almos necessary that clover be sown every two years in order to keep it from running out. In this country it keeps seeding itself and lasts for years. An item from the Aberdeen Bulletin gives some idea of the length of time clover will stay with the patch of ground. It says that Mr. A. J. Stewart has a field on the home place which has not been sown or seeded for over 25 years. The last sowing being in 1876 when the land was seeded to red top, timothy and clove. This year the crop was good and yielded over two tons per acre of the finest hay. The timothy is about eliminated but the red top and clover being very much in evidence. We have heard other stories of clover along muce the same line. One patch above Vancouver that was sown to clover and timothy many years ago keeps reseeding itself, that is, the clover will smother out the timothy, then the timothy will get the upper hand, and for a while there will be but little clover. Then back again it goes to clover. —Pacific Farmer.

We think Coos county could go them one better on the clover racket. This seems to be the perfect home of the clovers, all kinds growing to perfection. There are places in the streets of Coquille City that have been thick set with white clover for the last twenty years to a certain knowledge of many of our citizens, that were never seeded only as nature seeded them, the ground never having been plowed at all. Clover never seems to run out here except when over pastured when the ground is wet.

The Polk County Observer recently published this interesting item: "Uncle William Grant tells us that his parents' 640-acre claim below town, which for many years yielded a living for a family of only five persons, now affords a good home for over sixty people, and there is yet much waste land in the tract." The change which has taken place on this section of land is one that is needed on many thousands of other sections in western Oregon. In dry prairie regions where the roads are nearly always level, hard and good, the larger farm may be endured, but our conditions in the Willamette valley call for system of farming which will support a dense population. If there was a dozen families on every section of land in the Willamette valley, and all making a good living, the good roads problem would be quickly solved, and all the conditions of life on the farm would be improved.—Ex.

Samuel Morse Felton, it is said, is to be selected for the presidency of the Southern Pacific Railroad Company in the place of Charles M. Hays.

Latest Literary News.

The sale of thousands of copier of a ten-cent magazine at one dollar apiece was a very curious happening at the time of the Chicago World's Fair. The Cosmopolitan prepared a World's Fair number, contributed to by many famous writers, and so thoroughly illustrated that it surpassed even the most expensive book which had up to that time been issued. In those days the magazine was printed from two sets of plates only, and when these were worn out it was impossible, without a great loss of time, to put further editions on the press. The newsdealers, taking advantage of this condition, raised the price of The Cosmopolitan's World's Fair number to one dollar a copy. A few sales were even made toward the close at the phenomenal figure of five dollars. Undoubtedly this happeding is unique in the hiotpry of magazine literature. The Cosmopolitan will endeavor to repeat its past success, with a Pan-American Exposition Number, which will be even more attractive, if possible, than its World's Fair predecessor.

The most famous writers of the country have been invited to take part in the preparation of this issue. After many days' careful study of all the wonderful scenes of the Exposition, more than a hundred photograph have been prepared, which taken as a whole, give a thorough conception of the marvels of this Exposition.

It is doubtful if any book, selling at forty times the price of the magazine, will give any decription of the Fair which will approach in interest and artistic value the September Comopolitan.

Those who visit the Fair will preserve this as a delightful reference-book in the years to come, and those who are unable to go there will secure such a comprehensive view of its main attractions as will be well worthy of presereation.

Penalty of Princely Theft is 15 years.

Martinez, Cal., Aug. 21.—Jack Winters, the man who got away with $320,000 in gold bullion from the Selby Smelting Works, and afterwards confessed, was sentenced today to 15 years at Folsom. The prisoner took the sentence cooly, and asked that he be sent to San Quentin, but the request was refused.

The prisoner was taken to Folsom this morning, and before night will be in stripes.

Washington, Aug. 20—The Navy Department have been informed of the sailing of the battleship Iowa for Panama this afternoon. She will stop at Acapulco for fuel. The distance from San Francisco to Panama is 3274 miles, and the trip will ocuppy about 12 days.

Kodol
Dyspepsia Cure
Digests what you eat.
This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. A $65.00 Machine For $18.50
Cash with Order and Coupon
The Improved New High-Arm Self-Threading "Arlington" Sewing Machine
NEW HOME STYLE
LATEST BEST CHEAPEST

STYLE No. 55. "ARLINGTON."
$19.50 AND Coupon, if sent C. O. D. or on trial
Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.
10 years' written warranty with each machine.
A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority.
The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. Highest Arm—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. Feed is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. The Needle is a straight, self-setting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ⅞ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.
DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS
OUR GREAT OFFER. $23.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guarantee safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' test trial. We will ship C. O. D. for $19.50 with privilege of twenty days' trial on receipt of $5.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to anyone at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.
