Large Yield of Prunes.

Grants Pass, Sept. 30.—Never before has there been such a yield of prunes in the orchards of the Cow Creek country as this year. The prunedriers are running night and day, and even this can hardly take care of the great flood of prunes. Trouble is met with in securing workmen enough to aid in gathering and caring for the crop. This is true over all parts of Josephine county and southern Oregon.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a desease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure," which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upwright men.

Wives Cure Your Husbands! Children cure your fathers! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. Do Not Wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E849 EDWIN B. GILES & Company, 2330 and 2332 Market Street, Philadelphia.

The Commoner.

(MR. BRYAN'S PAPER)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the HERALD together for one year for $2. The regular subscription price of the two papers when subscribed for separately is $2.50.

A Typical South African Store.

O. R. Larson, of Bay Villa, Sunday River, Cape Colony, conducts a store typical of South Africa, at wich can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about twenty-five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by R. S. Knowlton.

A Proposed Railroad.

Medford Or., Sept. 6, 1901.

The Timberman: Mr. Bilton of the Medford Mail handed me your letter to him making inquiry in relation to the proposed railroad from Medford to Port Orford. In reply, will say that Mr. W. Allaway, of the Allaway Trust Co., limited, of London, is the promoter of the enterprise. The proposed route, however, is from a starting point some place across the mountains in eastern Oregon, and coming west, across the mountains somewhere near Rogue river, tapping the extensive sugar pine belt along Rogue river. Leave the river about twenty miles east of Medford, running through Medford and Jacksonville and down the Applegate river to Illinois river, thence down to its confluence with Rogue river: cross the river at this point, follow down north side of the river a few miles, and leave the river, running in a northwesterly course through a natural pass in the Coast Range to Port Orford.

Mr. Allaway came out from London last spring, but was cabled for before he could make a thoeough investigation of the proposed route. Since retuaning to London, however, he writes me that the prospects are very flattering for a road along the route contemplated.

This is about all the information I am able to give you at present in regard to the route. Such an enterprise would be a valuable acquisition to southern Oregon, opening up its resovrces, which are many.

Grain Harvest in Harney County.

Burns, Sept. 30.—Grain harvesting is about over in this country, and the yield has been much larger than expected. Owing to the heavy freezing weather in spring, it was thought for some time that the crop would be an entire failure. The average yield of wheat is about 40 bushels per acre, and barley about 60, of first-class quality.

STYLE No. 55. "ARLINGTON."

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.
10 years' written warranty with each machine.
A strictly high-grade Sewing Machine finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:
The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. Highest Arm—space under the arm is 6½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. Feed is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—Fills the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. The Needle is a straight, self-setting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ½ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.
