The schooner Albion and Parkersburg sailed over the Coquille bar Wednesday, both striking on the middle ground which has formed in the month of the river recently. The Albion got off and came on up the river and is loading at Lyons' mill. The Parkersburg had a lot of brick for the lighthouse on board, and did not come off so easily. However she was pretty well inside, and by putting a line to the breakwater, she has since been pulled into the channel.

Dr. Culin received a letter from his old home at Hainesport, New Jersey, last Friday conveying the news of a severe accident which had happened to his sister, Miss Mira, who visited the doctor and family with her mother a year ago, and who is known and will be remembered by many of our citizens. It seems she was driving her brother's driving horse, a pacer and spirited animal, which frightened at a train of cars and ran away. While Miss Culin did not lose control of the animal altogether, and kept on ground that the vehicle remained upright, and remained in the seat, she received a kick from the animal breaking one of her limbs below the knee. This plucky girl remained in the seat and recovered control of the horse and drove a mile and a half after her injury.

George O. Leach Seriously Injured. Last Friday morning while working in the logging camp of Geo. E. Pike, on the lower river, George Leach, well known in Coos county, was severely hurt, and may be crippled for life. It seems he was standing in front of a log to which was attached a steel cable from the donkey, the log being pulled from the woods to the chute, when the grab hooks came out of the log and the spring in the cable, caused the hooks to fly back with terrific force, striking Mr. Leach on the leg, inflicting a compound fracture beside badly bruising the member. The Dispatch having come past the landing before he was carried to the river, the services of Capt. Panter with the little steamer Maria, were secured, and he was landed here at town about noon. While the boys handled him as tenderly as possible, he necessarily suffered intensely and was considerably exhausted when this place was reached. Dr. Culin has dressed the injured limb, and while there has nothing occurred so far to indicate the necessity of amputation, yet grave fears are entertained that such may yet be the result. His many friends sincerely hope that his recovery may be early and complete, and deeply sympathize with him in this painful affliction. We have one price to all at the Emporium. If you wish to rent a house, call at the HERALD office. Bring your pull and get some of that fine, fresh sauer kraut at Hersey's. George Beale, of the bay side, was over to the county seat Wednesday. Word reaches us to the effect that the weather has been too rough to lay the cables from the anchors to the stranded Baroda, or she could have been pulled to sea yesterday. The scheme of sluicing the sand from around her by turning the stream Four-Mile that way worked admirably, and while the tide was at its highest she rolled till it made those working on board her seasick. It is too bad, if this be the case that all could not have been in readiness and a supreme effort made to pull her off.
