## ASSISSIN OF THE PRESIDENT.

Said he was not Sorry for his Crime as he was Being Strapped to the Death Chair.

Auburn, N. Y., Oct. 29.—Czolgosz retired last night at 10 o'clock, and slept so soundly that when Warden Mead went to the cell shortly before 5 o'clock, the guard inside had to shake the prisoner to awaken him. He sat upon the edge of his cot and made no reply to the warden's greeting of "good morning."

The prison official took from his pocket the death warrant and read it slowly and distinctly to the assassin, who hardly raised his eyes during the perfunctory ceremony. Just as the warden stepped away from the cell door, Czolgosz called to him and said:

"I would like to talk with the superintendent." The warden responded: "He will be down presently."

Then the condemned man rolled over on his cot, apparently anxious to sleep again.

At 5:15, however, the guard brought him a pair of dark trousers with the left leg slit so as to allow the free application of the electrode, and a light gray outing shirt. He was told to get up and put these on, which he did. Contrary to the usual custom, he was given a new pair of shoes. When dressed he laid down on the cot again, and in this attitude Superintendent Collins found him at 5:30, when he went down to visit him.

WANTED TO ADDRESS SPECTATORS.

The superintendent stood in front of the steel bars, and when the guard had called Czolgosz' attention, he said:

"I want to make a statement before you kill me."

"What do you wish to say, Czolgosz?" asked the superintendent.

"I want to make it when there are a lot of people present. I want them to hear me," said the prisoner.

"Well, you cannot," said the superintendent.

"Then I won't talk at all," said the prisoner, sullenly.

After the superintendent had left, the guards brought Czolgosz' breakfast, consisting of coffee, toast, eggs and bacon, and he ate with quite a good deal of relish. While he was partaking of this, the witnesses were gathering in the offices of Warden Mead, and at 7:08 the procession passed to the death-chamber, going through the long south corridor.

In the chamber, Electrician Davis, and Ex-Warden Thayer, of Danemora, had arranged the chair test, placing a bank of 22 incandescent lights across the arms and connecting the electrode wires at either end. The witnesses were ordered seated, and then Warden Mead briefly addressed them, saying:

"You are here to witness the legal death of Leon F. Czolgosz. I desire that you keep your seats and preserve absolute silence in the death-chamber, no matter what may transpire. There are plenty of guards and prison officials to preserve order and attend to the proper details."

The prison physician, Dr. Gerin, and Dr. Charles F. MacDonald, of New York, took a position to the left of the chair, Warden Mead stood directly in front, and Electrician Davis retired to the little room containing the electrical switch-board. Thayer gave the signal and the current was turned through the electric lights, flooding the chamber with brilliant lights and dramatically showing the power that was used to kill the prisoner. Warden Mead gave the signal to have the prisoner brought in, and at 7:10:30 o'clock Chief Keeper Tupper swung open the big steel door leading to the condemned cells, and as the steel bars behind which Czolgosz had been kept were swung aside two guards marched the prisoner out into the corridor, two other following, and the Chief Keeper walking in front.

The guards on either side of Czolgosz had hold of his arms, as if either to support him or to keep him from making a demonstration. As he stepped over the threshold he stumbled, but they held him up, and as they urged him forward toward the chair he stumbled again on the lit-

An Apple Famine in the East.

New York, Oct. 30.—The apple famine which dealers have been predicting for several months is now an assured fact, says the Tribune. Ever since the unfavorable apple weather in the spring, buyers and grovers have anticipated a shortage, and now local dealers announce that the situation is even worse than anticipated. One dealer is quoted as estimating the crop at 23,000,000 barrels, as against 48,000,000 barrels last year, and 70,000,000 barrels the year previous.

A Physician Testifies.

"I have taken Kodol Dyspepsia Cure and have never used anything in my life that did me the good that did," says County Physician Geo. W. Seroggs of Hall County, Ga. "Being a physician I have prescribed it and found it to give the best results." If the food you eat remains undigested in your stomach it decays there and poisons the system. You can prevent this by dieting but that means starvation. Kodol Dyspepsia Cure digests what you eat. You need suffer from neither dyspepsia nor starvation. The worst cases quickly cure. Never fails. R. S. Knowlton.

Hundreds Penniless at Nome.

Port Townsend, Oct. 30.—The steamships Queen and Valencia arrived today from Nome within half an hour of each other and each brought down 800 passengers.

On the Queen were 100 stowaways who succeeded in boarding the vessel by climbing up the anchor chains, ropes, etc., while the vessel was at anchor in the roadway at Nome. The passengers report that 500 men were left at Nome, all of whom are penniless, with no means of making a living during the winter, and a reign of terror is predicted.

## Southern Pacific Rival in Arizona.

San Diego, October 26.—A dispatch from El Paso, Texas, says that the Phelps-Dodge syndicate is rapidly pushing construction of their railway, eastward from Douglas, Arizona, and westward from Arizona. This afternoon the Southern Pacific served an injunction on the Phelps-Dodge people and lively times are expected, but work from El Paso will merely be delayed. The special adds that Messrs. Mars-ton, Ferguson & Wood of the Railroad Committee of the San Diego Chamber of Commerce, are in El Paso, guests of General-Manager Hutchinson of the El Paso, Southwestern road. They will have a conference with President Douglas of that line next week when he arrives. The Rock Island, it is added will be in El Paso January 1st, leaving only 350 miles to be built to make a line from Phoenix, Arizona, to San Diego committee found the people of Arizona willing to aid the building of such line with liberal subsidies.

Jumped on a Ten Penny Nail.

The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and in five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by R. S. Knowlton.

Anarchists Dance in Honor of Czolgosz.

London, Oct. 30.—The anarchist clubs of London celebrated the electrocution of Czolgosz by dances in honor of his "noble death." Various groups met at their respective headquarters at a late hour last night and most of the gatherings only dispersed at 4 o'clock this morning, after singing the "Carmagnole." All the meetings lustily cheered every mention of Czolgosz, whose portrait, draped with black and red, occupied the place of honor on the platforms. There were remarkable scenes on the dispersal of the clubs, groups of anarchists shouting "Oive la Republique," singing "Carmagnole" dancing and shouting "Czolgosz, the brave." The police dispersed some of the groups. The increasing activity of the anarchists is causing some concern to Scotland Yard authorities.

The Improved "Arlington" Sewing Machine  
NEW HOME STYLE  
LATEST BEST CHEAPEST  
Shipped to anyone, anywhere, on 10 days' trial, in your own home, without making one cent in advance.  
10 years' written guarantee with every machine.  
A strictly high-grade Sewing Machine, made throughout in the best possible manner. It possesses all the modern improvements, and its mechanical construction is such that it is an excellent sewing machine with great strength, thus insuring ease of running, durability and easy adjustment with all kinds of thread and all classes of material. Always ready for use and unrivaled for speed, durability and quality of work. Notice the following points of superiority:  
The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Back plate has rounded corners and is rigid or counterbalanced, making it flush with top of table. Highest Arm—Reaches under the arm in 5 1/2 inches high and 9 inches long. This will admit the largest shirt, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on both sides of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 10 stitches to the inch. Feed is double and extends on both sides of needle; never fails to take woods through; never stops at seams; movement is positive; no springs to fling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitches is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit thread from 8 to 100 spool cotton without changing. Needle Bar is round, made of case-hardened steel, with lock cup at the bottom to prevent oil from getting on the goods. Adjustable Boarding—All bearings are case-hardened steel and easily adjusted on the goods. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish a extra set of attachments in a velvet lined metal box, free of charge, as follows: One to 1/2 inch, one 1/4 inch, one 1/8 inch, one under hander, one short or attachment foot, and one treader. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.
