Robert Abr, the repairer, who has just returned from Eureka, Cal., mended all the pots and kettles at that place, and will in the future do work in his line along the river. Don't let the broken rib perforate your costly silk umbrella like some old tin pan. The traveling adjuster is not far off and comes well prepared to straighten out matters by giving the "bamboochute" a thorough overhauling.
The forepart of last week, at the kind invitation of Judge J. H. Schroeder we visited his farm at Arago for the purpose of seeing the first disk plow ever brought into Coos county work. The Judge, with his usual enterprise, is the first man in the county to venture in this experiment, however, he is not sorry he has done so. In applying the figure, the Judge finds that in sixty days' plowing this machine saves the price of itself in time of plowman, beside, reducing friction to a minimum, the draft is so much lighter that the work of one horse is saved in working a two-horse plow. As a matter of course Mr. Schroeder's experience is limited with this plow, and he is not able to say what it will do in all kinds of ground, but it is his opinion that it is a grand success in this county and will continue to investigate its merits.
