Seeding Clover and Timothy with Planted Corn

Ed. HOARD'S DAIRYMAN:—On the occasion of a recent visit to the Susquehanna valley, at Sidney, Delaware Co., New York, I learned of a new practice in seeding land, which in recent years has become quite common among farmers there.

The farmer I called upon at this time and who directed my attention to this method of seeding, Mr. E. P. Smith, of Sidney, N. Y., is among the foremost of dairy farmers in that locality, and a leader in Grange work, being an ardent believer in the benefits of that organization to the farmers as a class.

The farm of Mr. Smith is a river farm, just below Sidney village on the north side of the Susquehanna, and his meadow land is mainly of bottom lands in this river valley.

These lands are especially well adapted to the growth of corn, which is quite largely grown by the farmers here in connection with dairying, which is the most important industry throughout this region.

Noticing that the field, in which I found Mr. Smith at work harvesting corn, presented the appearance, where the corn had been removed, of a newly seeded meadow, I referred to the fact as something unusual in my observation.

"Yes," said Mr. Smith, "this system is comparatively new, but is becoming quite general with many of our farmers and proves a very satisfactory one I think, wherever tried.

"Level culture for corn crop has come to be a very general practice with our leading farmers, and the seed being sown at the time of the last cultivation, the corn seems to furnish just the amount of shade needed for the proper protection of the young and growing grass and clover plants.

On these bottom lands where seeding has been done with the oat crop it appears there has been considerable trouble caused by smothering out the young and tender grass and the satisfaction secured where done in connection with planted corn seems to warrant a trial of the method here outlined.

Rev. Iri R. Hicks is Not Dead.

Notwithstanding a widely current rumor that the Rev. Iri R. Hicks was dead, he never was in better health, and never did a harder and more successful year's work than that just closing. He has just completed his large and splendid Almanac for 1902 and, with his staff of able helpers, has brought his journal, Word and Works, justly forward into international reputation.

For a quarter of a century Mr. Hicks has grown in reputation and usefulness as the people's astronomer, and forcaster of storms and the character of coming seasons. Never were his weather forecasts so sought after as now, his timely warning of a serious drought this year having saved the people from loss and suffering. Millions of wheat were harvested through his advice to plant crops that would mature early. The American people will certainly stand by Prof. Hicks, when it costs them so little and the benefits are so great. His fine Almanac of 200 pages is only 25c, and his splendid family journal is only one dollar a year including the Almanac. Send to Word and Works Pub. Co., 2201 Locust St., St. Louis Mo.

Jumped on a Ten Penny Nail.
The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and in five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolute no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by Dr. S. Knowlton.

Vaccination Fatalities.

Philadelphia, Nov. 18.—The alarm that has been caused by tetanus following vaccination in Cambridge, N. J., has caused the city officials there to take official action. The Board of Health and the Board of Education each held meetings today. The former decided to request physicians to cease vaccinating persons until an investigation as to the cause of the lockjaw cases has been made, and the latter rescinded the order of compulsory vaccination of all school children. Of the nine cases of tetanus so far reported, seven of the victims have died, and the other two are still in a dangerous condition. The Board of Health appointed a committee of three to act in conjunction with the County Physician and make a complete investigation of the whole matter. Dr. H. H. Davis, president of the board in stating the purpose of the call, said he did not believe that the vaccination was the direct cause of tetanus, but that he was thoroughly aroused, and the people were looking to the board of health for some action. He therefore believed that something should be done.

New-Fashioned Game of Green Goods Men.
New York, Nov. 20.—According to the Journal and Advertiser, the best men in the United States Secret Service and the cleverest inspectors in the Post office Department are at present working in the attempt to discover the details of a new green goods scheme which was worked until a week ago from Manhattan, and which is at present being operated from Jersey City and from Chicago. The victims are second, third and fourth-class postmasters, who do not dare complain to the authorities. It is known that since the first of July more than 1000 postmasters have been swindled out of sums ranging from \$250 to \$1000.

The principal of the game is the same as that of the old-fashioned green goods game. But in this 20th century bucco game only postmasters are invited and they are urged to purchase instead of money, postage stamps from "the undestroyed plates of the Government," plates and stamps which, of course, are not in existence. The postmasters are lured to this city by samples which are sent by mail. These goods are genuine stamps and not counterfeit stamps. When the victim reaches the city all of the old-fashioned games of substitution are practiced.

Valuable Cargo.

Seattle, Nov. 18.—Products of Alaska valued at \$200,000 were brought to Seattle as the cargo of a single vessel, the Senator, Captain James B. Patterson, which arrived from the North today. Fish and fish products made up the entire shipment. There were 37,215 cases of salmon from Petersburg, Girard Point and Titka Bay canneries and 2500 cases of fish guano and 550 barrels of fish oil from the Killas noon fisheries.

Trains in Collision.

Chicago, Nov. 19.—The thickest fog ever experienced in Chicago caused numerous collisions between trains early today, in which one man was killed, two were so badly injured that they will probably die, and fifteen others were seriously hurt. Scores of others, the police say, were injured in minor accidents due to the fog.

The Commoner.

(MR. BRYAN'S PAPER)
The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is \$1 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the HERALD together for one year for \$2. The regular subscription price of the two papers when subscribed for separately is \$2.50.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liqueur Habit.

It is now generally known and understood that Drunkenness is a disease and no weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and expelling this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure," which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

Wives Cure Your Husbands! Children cure your fathers! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. Do Not Wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effective than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. 23849 WINN B. GILES Company, 23849 and 2332 Market Street, Philadelphia.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult.

ALL CASES OF
DEAFNESS OR HARD HEARING ARE NOW CURABLE
by our new invention. Only those born deaf are incurable.
HEAD NOISES CEASE IMMEDIATELY.
F. A. WERMAN, OF BALTIMORE, SAYS:

gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.
About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for cataract, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist in this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and today after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

shipped to anyone, anywhere, on 10 days' free trial, in your own name, without asking one cent in advance.

10 years' written guarantee with each machine.

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that it is completely self-adjusting, and makes a perfect stitch with all kinds of thread and all kinds of material. Always ready for use, and unrivaled for speed, durability and economy of work. Contains the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Red plate has rounded corners and is inlaid or counterpaneled, making it look with top of table. Highest Arm—Spans under the arm is 5 1/2 inches high and 9 inches long. This will admit the largest fabric, and even quilts. It is Self-Threading—Absolutely no holes to put thread through, makes little noise and sews rapidly. Shuttle is a double lock stitch, the same on both sides, never fails to take goods through, never stops at seams; movement is positive; no springs to break and get out of order, can be raised and lowered at will. Automatic Bobbin Winder—Can be filled the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator. The Needle is a scratch, self-cutting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of extra-hard steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Footings—All footings are case-hardened steel and easily adjusted with a screw driver. All footings can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, as follows: One rubber and pattern, one binder, one shirring plate, one set of four hemmers, nickel-plated rings up to 1/2 inch each, one button, one under-bleeder, one sheet or attachment foot, and one thread cutter. Woodwork of foot made of solid oak or walnut, polished cover and drawers, nickel-plated rings to regulate the pressure on wheel, and device for replacing belt.
