Treasurer's Notice.

NOTICE is hereby given that all County Warrants endorsed prior to Oct. 1st, 1899, will be paid on presentation at my office in Coquille City, Coos county, Oregon. No interest will be allowed after Sept. 30, 1901.
This 23d day of Sept. 1901.
J. B. DULLEY,
County Treasurer.

On National Importance.

It used to be the American Nation, with a big N. It is now the American Empire with a big E.

Congress has something more to do now than to look after a few Indians on the reservations of the west. It must make the laws for a few millions of people who, in their ignorance, fear as desperately the beneficence of American civilization as ever they dreaded the iron hand of Spanish despotism.

The United States is a world power at last. She marches, too, in the front rank. Uncle Sam may now trail the attenuated tails of his ancient looking Yankee coat as far behind him as he choose. No one will tread upon them.

Time was when even the Barbary corsairs could snap their fingers at the little American nation in swaddling clothes, but Dewey at Manila, Schley at Santiago, and the wonderful trip of Captain Clark and his battleship, the Oregon, have changed all that. Is any better proof needed than the attitude of England toward us?

"You want to build operate and fortify an inter-oceanic canal?" asks John Bull.

"All right, go ahead, I've no objection. Blood is thicker than water, I'll abrogate the Clayton Bulwer treaty and any other little thing you may want."

When the United States send armies to Cuba and Porto Rico, it clinched for all time the unwritten law of the Monroe doctrine. If there is any nation of the old world, which does not acknowledge our supremacy in the new it is not likely to so state, unless it is prepared to follow it up with a declaration of war.

European ambitions may chafe at our re-iteration of this doctrine from time to time, but they will never be able to combine to overthrow it. England once wanted us to ask the nations of Europe to guarantee the neutrality of the Nicaragua canal. This we very promptly refused to do, and the political security of the Western Hemisphere is just as safe in our keeping as the Nicaragua canal will be.

Not so very long ago, Chas. Emory Smith, postmaster general, put the matter very strongly when he said. "We may have to abandon the Monroe doctrine or fight for it, and we will never abandon it.

Next in importance to the digging of the Nicaragua canal is the question. "What is to become of Cuba?"

The canal and Cuba are kindred subjects. The completion of the canal means as much, if not more, to Cuba, than to any other portion of the continent; while Cuba is absolutely essential to the safety and security of the canal.

Cuba, "the pearl of the Antilles," should be renamed, "the sentinel of the gulf." That island should be the military and naval base of the United States. Properly fortified and with a fleet of war vessels always in readiness, peace would be certain. Possession of this island makes possible the absolute defense of the eastern approaches to the Nicaragua canal, and protection of the commerce of the Gulf of Mexico and the Caribbean Sea.

A seperate existence for Cuba as a republic cannot possibly be so beneficial to the people of the island as would be a more intimate connection with the United States. Apart from the professional revolutionists who look upon the proposed Cuban republic as a sort of milch cow, to be milked by them alone, the general sentiment of the people of the island is in favor of annexation to the United States. This result will certainly come. Perhaps not in this session of Congress, perhaps not in the next, but it will come.

The liberating of Cuba from the Spanish yoke has cost the United States $400,000,000, but that may be considered cheap, indeed, when we get the island.—National Information Bureau.

If you wish to rent a house, call at the HERALD office.

Another Creamery Fraud.

Oh, it is so much cheaper not to read and keep posted on this dairy question! Here is proof of it:

The farmers in adams county, Indiana, have been buying some of these new, cheap, so-called cream separators. The machines were left in the house, the agents taking a receipt for the apparatus, "just to indicate where it was left." These receipts now turn up as promissory notes for $68 each. The gentlemanly agents sold the paper before they left the county, and the Monroeville bank is collecting them at this time. The grafters proposed to leave the separators on trail and promised to take all butter at 22 cents a pound. Riches loomed up before the farmers, and they bit. The sum taken out of Adams county was more than $3,000.

Three thousand dollars would have paid for a great deal of sound, dairy paper. These farmers would have been posted on the fraud and and lots of valuable things besides. But they prefer to pay their money for a fraud, other than for useful knowledge, and they have got what they paid for.—Hoard's Dairyman.

The Pan-American Model Dairy.

The following we take from a special Buffalo correspondence to Hoard's Dairyman:

Enclosed find summary of the six months test of breeds at Pan-American. While this may not be considered the official announcement of results, it will be found substantially correct.

The award for breed showing greatest profit on estimated butter (or more accurately on butter fat) goes to the Guernesys by $4.66.

The award for breed showing greatest profit on churned butter goes to the Guernseys by $5.86.

The award for greatest profit on total solids in milk, goes to the Holsteins by $26.44.

The award for greatest profit on total solids plus gain in live weight goes to the Holsteins by $31.73.

My table showing the order of cows in point of profit on butter which I hope to have in next week's paper, is going to make an interesting study.

It is headed by Mary Marshall, as nearly every one knows, with a profit of $59.40; next comes Mayflower, the star performer of the Red Polled herd. She is followed by Cassiopia, another Guernsey, and next a Jersey and then Procris of Paxtang, a third Guernesy, bringing three of this herd within the first five. The sixth in order is Beauty of Norval, a Holstein, with a profit of $49.43.

The first thirteen includes four Jerseys, three Guernseys, three Aryshires, two Holsteins and one Red Poll.

The Shorthorns demonstrate their inability to convert their food exclusively to dairyproducts by making a gain in weight of 802 lbs. for the six months, valued at $24.

Donation of the Ten Millions.

Chicago, Dec. 9.—Andrew Carnegie, the multi-millionaire steel magnate, has offered ten million dollars for the extention of American universities. The matter of appointing a board to properly distribute the amonnt has been left to President Roosevelt.

Of Benefit to You.

D. S. Mitchell, Fulford. Md.; "During a long illness I was troubled with bed sores, was advised to try DeWitt's Witch Hazel Salve and did so with wonderful results. I was perfectly cured. It is the best salve on the market." Sure cure for piles, sores, burns. Beware of counterfeits.

She(at the writing desk) – Dear, please tell me how to spell costume. I'm writing to mother about my lovely new gown.

He. Well, are you ready?
"Yes."
"C-o-s-t, cost——"
"Y-s"
"t—u, tu—"
"Well?"
"M-e, me—$50, yet unpaid."
"Oh! You're a wretch!"

Health and Beauty.

A poor complexion is usually the result of a torpid liver or irregular action of the bowels. Unless nature's refuse is carried off it will surely cause impure blood. Pimples, boils and other eruptions follow. This is nature's method of throwing off the poisons which the bowels failed to remove. DeWitt's Little Early Risers are world famous for remedying this condition. They stimulate the liver and promote regular and healthy action of the bowels but never cause griping cramps or distress. Safe pills. R. S. Knowlton.

Oregon's Timber Lands.

A. J. Johnson, the forestry expert, writes of Oregon's timber resources as follows:

"There are about 55,000 square miles of timber land in Oregon, most of it being on the western slope of the Cascade range. This forest would yeild from 20,000 to 200,000 feet per acre.

"The estimate of the different species of merchantable timber in Oregon is as follows: Yellow or red fir, 255,000,000,000 feet; spruce, 15,000,000,000 feet; hemlock, 7,000,000,000 feet; yellow pine, 20,000,000 8,000,000,000 feet; noble fir, 2,000,000,000 feet; silver fir, 1,000,000,000 feet; red cedar, 2,000,000,000 feet. Miscellaneous timber scattered in out-of-the-way localities, about 17,000,000,000 feet, making a total of about 322,000,000,000 feet, board measure.

"The annual cut of all the saw mills in the state of Oregon in 1901 did not exceed 600,000,000 feet. Among the most valuable of Oregon's woods is white cedar, found extensively in Coos, Curry, Douglas and Josephine counties. The trees attain a height of 200 feet, and for ship building purposes this timber cannot be excelled. Vessels that were built of this timber at Coos Bay 40 years ago are as sound today as the day they were built. So valuable is this timber that all waste is utilized for match wood, Portland along using some 800 cords annually. The total area of white cedar in Oregon is estimated at about 200,600 acres, the largest body being situates between Coos Bay and Coquille river. The average stand is from 15,000 to 20,000 feet to the acre, although in spots it will run up as high as 100,000 feet to the acre. Botanists are generally agreed that Oregon's white cedar is not less than 700 years old."

Roasted her Babe Alive.

Sioux City, Iowa, Nov. 30.—Mrs. J. Fred Meyers, living five miles from Correctionville, wrapped her five-months-old baby in a blanket put her in the oven of the kitchen stove to keep warm, and went out to gather fuel. When, half an hour later she returned, the fire in the stove had blazed up and the room was filled with smoke. Rushing to the oven, she found the blanket and clothes in flames. The baby was dead and its arms and legs were burned to a crisp.

An Evangelist's Story.

"I suffered for years with a bronchial or lung trouble and tried various remedies but did not obtain permanent relief until I commenced using One Minute Cough Cure," writes Rev. James Kirkman, evangelist of Belle River, Ill. "I have no hesitation in recommending it to all sufferers from maladies of this kind." One Minute Cough Cure affords immediate relief for coughs, colds and all kinds of throat and lung troubles. For croup it is unequalled. Absolutely safe. Very pleasant to take, never fails and is really a favorite with the children. They like it. R. S. Knowlton.

M G POHL
OPTICIAN
All tests solicited—no charge. Glasses only first-class quality. Prices to suit the times. Calls anywhere on request to do so.

Dated this 2nd day of December, 1901.
R. D. SANFORD,
Executor of the Estate of John Devinish, deceased.

The Commoner.

(MR. BRYAN'S PAPER)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the HERALD together for one year for $2. The regular subscription price of the two papers when subscribed for separately is $2.50.

To the Unfortunate

Dr Gibbon

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF
DEAFNESS OR HARD HEARING ARE NOW CURABLE
by our new invention. Only those born deaf are incurable.
HEAD NOISES CEASE IMMEDIATELY.
F. A. WERMAN, OF BALTIMORE, SAYS:
BALTIMORE, Md., March 30, 1901.
Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.
About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,
F. A. WERMAN, 730 S. Broadway, Baltimore, Md.
Our treatment does not interfere with your usual occupation.

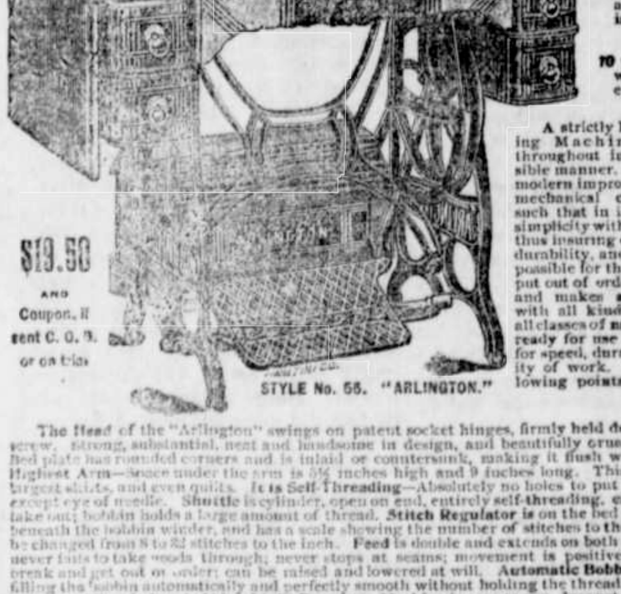
The Improved New High-Arm **"Arlington"** Self-Threading **Sewing Machine**
NEW HOME STYLE
LATEST BEST CHEAPEST



Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.
10 years' written warranty with each machine.
$19.50 AND Coupon, if sent C. O. D. or on trial
STYLE No. 55. "ARLINGTON."
A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. Highest Arm—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. Feed is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. The Needle is a straight, self-setting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ⅞ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawer pulls, dress guards to wheel, and device for replacing belt.

DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS

OUR GREAT OFFER. $23.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guarantee safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' test trial. We will ship C. O. D. for $19.50 with privilege of twenty days' trial on receipt of $1.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to any one at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.
