At the recent term of county court \$1000 was appropriated for the opening Alleghany-Elkton wagon road. This is a good move, as this road will open up a good section of country, tapping the railroad at Drain.

The wharf of the Parkersburg mill having been relieved of a great quantity of lumber, the mill is now running again. Their big schooner, Onward, will prove a grand addition to the fleet flying to that mill, and it is hardly likely that they will be bothered with crowded wharves in the future as they have in the past.

This is the first case that has proved fatal in this valley, however, the number of cases is increasing in number of cases as well as severity. He returns to his old home at Ukiah, California. He will be greatly missed by the many friends he has gained during his short stay here.

H. Buttman, of Florence, Deputy fish warden, was in town from Saturday till yesterday looking up fishing interests in this section. He was considerably handicapped on account of not being able to move around as he desired on account of the smallpox scare, but he informs us that the chances are good for us to have a hatchery somewhere on the river next year.

The following is a section of the late registration law which should be observed by the legal voters of our state:

"Section 5. It shall be the duty of every elector in the state of Oregon between the first Monday in January, 1900, and 5 o'clock p. m. of the fifteenth day of May, 1900, and between the same dates and hours biennially thereafter, to register with some notary public or justice of the peace, or with the county clerk of the county in which the elector resides, in accordance with this act."

A COIN.—A few days ago in passing along the street where workmen had been removing dirt in making street repairs we observed a small silver coin that had been turned up with the earth that had been moved, and on picking it up and examining it discovered it to be a thin silver coin with a wreath on each side. One side bears the inscription "A Shilling 1750" and on the other side is a castle engraved around which is the word "Hamburger." The coin showed signs of having been lost a long time ago, and as some of the dirt that had been moved had been carried here in ballast the coin may have been carried here from San Francisco.—Bandon Recorder.

Child Worth Millions.

"My child is worth millions to me," says Mrs. Mary Bird of Harrisburg, Pa., "yet I would have lost her by croup had I not purchased a bottle of One Minute Cough Cure." One Minute Cough Cure is sure cure for coughs, croup and throat and lung troubles. An absolutely safe cough cure which acts immediately. The youngest child can take it with entire safety. The little ones like the taste and remedy how often it helped them. Every family should have a bottle of One Minute Cough Cure handy. At this season especially it may be needed suddenly. R. S. Knowlton.

BANDON RECORDED.—To Mr. and Mrs. Raleigh Davis, of New Lake, January 3, 1902 a daughter.

E. B. Thrift had a separator shipped up from San Francisco on the steamer this trip for his dairy near Dairyville.

E. B. Thrift of Dairyville, returned home from a business trip to San Francisco on the Mandalay last trip up. He visited his parents at San Jose while away.

Among the freight to arrive on the Mandalay last Saturday evening was a large lifeboat for the bark Baroda. Messrs. Stewart of the Bandon livery stable hauled the boat down to the stranded bark last Monday.

A Profitable Investment.

"I was troubled for about seven years with my stomach and in bed half of my time," says E. Demick, Somerville, Ind. "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you really starve. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want Kodol Dyspepsia Cure cures all stomach troubles. R. S. Knowlton.

Most of the "news" from Miss Stone, the captive missionary, has a sort of a grapevine line's flavor.

The treasury of a Missionary Society has gone to dicker with the Bulgarian brigands for Miss Stone's release. Suppose they should take a notion to kidnap him, too?

Here is the verdict of The Washington Post on the Schley-Sampson case: "In addition to receiving \$14,000 for navigating his vessel so as to keep Admiral Sampson out of range of the guns and within reach of the prize money, Captain Chadwick was given a desirable assignment at Newport, where he might entertain royally and forget all about West Virginia. The Navy Department certainly knows how to differentiate."

Don't Live Together.

Constipation and health never go together. De Witt's Little Early Risers promote easy action of the bowels without distress. "I have been troubled with constipation nine years," says J. O. Greene, Depauw, Ind. "I have tried many remedies but Little Early Risers give best results." R. S. Knowlton.

Coquille City Packing House.

What is destined to become one among our most prominent enterprises in this section is the packing house of the Coquille Packing Company, Inc., Messrs. Carren and Fitzgerald. While this enterprise has been established only a short time, the amount of business done in the past month or so is large enough to do credit to a much older institution. As many as eighty hogs per week have been handled by this establishment being converted into as fine bacon as can be shipped from the east. Thus, it is plainly to be seen what a great benefit this institution will be to all concerned in the financial welfare of this section. Instead of sending away enormous sums of money each month for bacon and lard, with the proper enterprise on the part of the farmers, this flow of money will soon be changed, as there would be no trouble met with in marketing the products of this house, it being a well established fact that hogs in this section are perfectly free from the diseases so prevalent in other parts of the country. Beside the packing feature of this establishment is a well directed market in which all kinds of fresh meats are kept in a style that would be pleasing to the most fastidious. The various kinds and styles of sausage, head cheese and pickled pigs' feet always on hand.

And while it is a fact that our farmers should procure the best of stock by importing, exceeding great care should be exercised that no disease be introduced with the stock, and thus keep our section free from such as long as possible.

Norway Items.

Grandpa Clinton is still quite poorly.

Mrs. Alice Bunch visited friends in Norway for several days last week.

A. M. Snyder of the "Favorite" brought his family up to spend a time under the parental roof now that the steamer is not running.

Since the burning of the Arago postoffice the mail stops at this office and our little village is made quite lively by the return of the good people of that section.

Lillian Augusta, infant daughter of Mr. and Mrs. Jessie D. Clinton, died at their home near Norway Jan. 5th only twenty-four hours' illness. The sorrowing parents have the sympathy of all in the loss of their sweet little daughter.

TRIXIE TANCE.

At least one wireless telegraph company seems to be run to receive the money of the credulous rather than wireless messages.

A Correction.

EDITOR HERALD: In your last issue under the caption of the Riverton Pick-ups I had the following:

Rev. Coulter, the prohi lecturer, accompanied by Mr. Petteys, the violinist, made our town a long visit. Mr. C. preached on Sunday. The speaking and music were appreciated by all. We regret to say their financial proclivities are beyond our diminutive understanding in as much as they left without even asking the hotel proprietor how much they owed for hospitality or accommodation.

Please allow me to say that our friend Pick-up picked up something which was not true. The exact circumstances are as follows:

Mr. Petteys and myself had to leave on the morning boat for our next appointment at Bandon. A half hour before boat time I asked Mrs. Kelley, the Landlady, what our bill was but as she was busy she referred me to Mr. Kelley who had left the hotel and did not return until after the boat came. At the boat I sent word back to him to leave the bill at the hotel which I would pay on our way back to Coquille two days later, which I did, paying to Mrs. Kelley the amount in full. I regret that your correspondent's zeal to find ideas, has done us a great injustice and marred an otherwise exceedingly pleasant and profitable time. May I ask you to publish this and thus clear the matter up.

Yours Respectfully,

F. E. COULTER.

New York, Jan. 8.—Two local trains bound for New York, one from South Norwalk, the other from White Plains, crashed together in the smoke-clouded Park-avenue tunnel of the New York Central, early today. Seventeen persons were killed and forty injured. Of the latter 12 were seriously injured.

The engineer and fireman of the White Plains local and a towerman were arrested. District Attorney Jerome visited the wreck and will personally direct an investigation.

New York's new municipal government has taken charge, but visitors to the city do not find it run on Sunday-school ideas, and those hunting for goldbricks can still find them.
