Warren" is ready for inspection, and it is expected that they will be here in a few days and that this little craft can take her place among our river fleet, becoming an important factor in the commercial interests of our valley. The North Fork section may be congratulated on possessing a man who is willing to venture into an enterprise of this kind, but we feel sure these good people will show their appreciation of his efforts in such a manner as to cause him not to regret taking this step.

A Cure for Lumbago. W. C. Williamson, of Amherst, Va., says: "For more than a year I suffered from lumbago. I finally tried Chamberlain's Pain Balm and it gave me entire relief, which all other remedies had failed to do." Sold by R. S. Knowlton.

Coal Mine Expansion. John Peart who has been at work for several months past doing development work on a coal vein on the Sanford place north of town, has made arrangements by which his output will be handled by the railroad company, and two rafts of lumber and timbers have been taken to the mouth of Cunningham creek to be used in the construction of a tramway from the railroad at that point where a siding will be put in, to the mine. This will give him shipping facilities adequate for all demands at all seasons of the year, as well as a permanent market for all the coal he will be able to put out. This town will be supplied, and the balance taken to the bay for shipment. Mr. Peart is a practical coal miner, and is going at this enterprise in a workman-like manner, and success is bound to follow.

Two More Business Buildings. John Golden, of Marshfield, purchased from C. M. Skeels last week the lot Mr. Skeels had recently bought of Capt. George Leneve which lies between the large store of N. Loreuz and Long's harness shop, and has let a contract for the erection of two business houses thereon. The combined frontage of the two buildings will be forty-seven feet and their lengths sixty-eight feet each. Beside a small store room at the back, and two stories high. Thomas Heaton, who is just completing the building recently erected for Golden on the lot adjoining the Dr. Leneve property, has this contract also, and work on them will be begun in the very near future. Thus it will be observed that Coquille City is not lagging in the march to the front in way of building, even in mid winter. We have reason to believe that the coming summer will witness the greatest growth it has ever experienced in its whole history, and Mr. Golden fully realizes the advantages to be gained by securing good property while it is in the market.

In our last communication we made a certain statement concerning the financial proclivities of Rev. F. Couler. In that communication we stated nothing but truthful facts. Yet a man can state facts and still the truth will not be known, inasmuch as we did not state all the facts, because we did not learn them ourselves. The case is this: Messrs. Couler and Pettys left Riverton for the lower river, and in no wise mentioned the boardbill to the proprietor of the hotel, but returned some time afterward and paid Mrs. Kelly, of which fact we were ignorant for several days. We deeply regret that such a misunderstanding should become public, and we now make this statement that these gentlemen shall receive justice in the minds of the people of Coos county.

The steamer Argo brought in considerable freight for our town. DOBNA ANNA.

Probably 300 Dead. City of Mexico, Jan. 18.—One of the most terrible catastrophes in the history of the State of Guerrero to have occurred late Thursday afternoon, when an extremely violent earthquake shock was felt at Chilpancingo, causing a great loss of life and injuring many persons. Details from the stricken district are very meager, but scattering reports received here indicate that probably 300 people were killed and as many more injured. It is known that the State Capitol, the parish church and many business houses and residences are in ruins, and that there is much suffering as a result of the awful disturbances. One of the edifices that suffered most was the federal office, which explains the paucity of news that has so far reached this city.

The great Northern R. R. is contemplating the construction of a line of road to run from Ferrie, B. C. to connect with the Northern Pacific at a point near Missoula. This branch of road will not only open the way for an unlimited market for the Crows Nest coal fields, but will afford transportation facilities for the Flathead oil fields which are attracting so much attention at the present time. The distance from transportation has prevented a close settlement of the rich grazing and agricultural lands in the vicinity of the Flathead Reservation. Altogether the road will pass through a very promising section of country in which there are very many opportunities for the stockmen, miner and farmer.

Gen. Fuller seems to be playing the same role in Great Britain that Admiral Schley is playing in the U.S.

From Libby.

Business is as brisk as ever in this little mining town.

Through the efforts of members of the band, assisted by a few of their friends, there was a Christmas entertainment at the school-house for little and big folks. Of course there was a tree loaded with presents of various kinds. Music by the band, and some vocal selections were listened to with pleasure and appreciation by the audience.

On Monday following Christmas Mr. Alfred C. Curtis returned from Bandon to Libby bringing his bride to his little home. The happy young couple were accompanied by Mrs. F. Adelle Curtis, mother of Mr. Curtis. On New Year's Day and evening the Curtis household set open house extending greetings and dispensing wed-cake to all who called. A large number came with smiling faces and friendly congratulations, and after a little chatting, and a little music, took their departure. An especial event of the early evening was the fence-picket and oil-can-serenade by most of the small boys of the town, which was duly appreciated and applauded by those for whom it was intended, then, in response to an invitation, in came the little men, hat in hand, and did full justice to the wedding cake which was passed to them by the bride. After a little call away they went after a polite good-night to those who entertained them.

Little Ringuo, the boy who was hurt some time ago in the mine is out around town on crutches.

Mr. Davenport, who was burned some time ago, by powder explosion has entirely recovered. Mr. D. brought to his home here in Libby, a few days ago, the bride to whom he was lately married. Mr. and Mrs. Davenport received due attention from serenaders.

The new side-track for empties in the counter of the Libby mine, is about completed, and will greatly facilitate matters for the handling of cars.

Quite a number of families here have been visited by the disease that seems so prevalent everywhere but all of those afflicted seem to recover with no bad after effects.

Miss Allie Jenkins has been quite sick with the ailment, but is now convalescent.

All of the family of Mr. — Elliott were sick with the epidemic at once.

The Sunday School established here by the Rev. M. McClellan some months ago, is still in session and quite well attended, only there are too few teachers.

The day school is still having vacation.

Libby is very beautiful during the late days of sunshine. DEL.
