This 23d day of Dec. 1901.
J. H. DULLEY,
County Treasurer.

MORE ABOUT GOOD ROADS.

Vast Benefits Accrue From Their Construction In Each Community.

EDITOR REVIEW: I saw in the Plaindealer, issue of Jan. 6th, a communication signed Taxpayer, on the very important subject of good roads in Douglas county. It is a subject that must interest every one, even the pedestrians who have no other use for roads than to pass over them afoot.

To discuss the question in all its features, its benefits, its cost, etc., would require too much space and is unnecessary at the present time. The first consideration is to educate the citizens to a realization of its resultant benefits. If you can convince him that it is money in his pocket he will be apt to accept the proposition. As to the comfort and convenience of good roads, even the native Oregonian, who was born in the mud and paddled in it all his life, knows the difference between good roads and bad ones.

I agree with this modest taxpayer (although I see no reason why he should be so modest. He certainly is not ashamed of his subject, and ought not to be of his letter, for it is able and well written). The county board is not to blame for this matter, for you ought not to expect them too keep to far in advance of the people and it would not be good for their aspiration, if they have any political ones, for them to do so. The safe and only pratical plan is to educate the people to a willingness to bear the burden of a tax levy for that purpose for a few years, confident that in the end he will be more than compensated for the outlay. I have waded in the mud for the last twenty years myself -but prvious to coming to Oregon I had lived in a portion of California that had heavy rains and as a consequence bad roads. I saw the evolution from bad road to good ones. I saw the appreciation of the land values from five and ten dollars an acre to one boundred dollars an acre. Saw the impetus it gave business of all kinds. Saw five or six and in places even a dozen families make pleasant homes, where one person under more adverse conditions, could hardly keep out of debt.

I have seen towns grow to the proportions of cities that a few years before were small hamlets, and business increased a hundred fold. If you would investigate for the cause of this magical transformation you would find it good roads. All the latest conditions were there long before for a prosperous comunity but it lay dormant until good roads gave them facilities for local transportation. There are many instances of this kind in California and there are no doubt persons living in Douglas county that can corroborate what I say. I know a great many persons think it would be almost impossible to make good roads over our mountainous thoroughfares, but in that I believe they are mistaken. There are always better chances for drainage on such roads and as a rule rock can be had much easier. If proper attention is paid to drainage, such roads will require less rock and I believe it a reasonable conclusion that road beds can be made good as cheap or cheaper here than they can in leveler countries, if the work is applied systematically. I am glad to see the gradual development of an interest on this subject and hope it will grow. The papers of both political parties seem to be willing to give space for the discussion of the question, and it is right they should, for it is non-political and purely local. Besides the people themselves will have to mould the public sentiment that will force the issue, and there is no better way than through the press. I hope we will near from others.

The politican can make his slate, but the people will have to make the roads if they are ever made, and pay for them too, but the money spent on roads will increase the price of your farm, enhance the value of your town property, stimulate your business and add to the general prosperity as nothing else will do. —R In Coseburg Review.

Information just recived from John Day, Oregon, is to the effect that the Hoosierboy Gold Mining Company, controling the Prairie Diggings Mines, is tbout ready to start the 15-stamp mill which was recently purchased by the company from the Hammond Manufacturing company, of Portland. The property has some very large bodies of fair grade of ore, and some extremely rich ore. It is the purpose to mill and concentrate the ore, it having been demonstrated that by close concentration a product worth $40 per ton can be saved in addition to what is saved on the batteries. M. D Winde rand J. W. Messner, both heavy stockholders, are at the mine, and with a large force of men are pushing development.—Mining

A Shocking Accident.

A most shocking and fatal accident occurred at the Leona sawmills Tuesday afternoon at 4 o'clock. Thomas R. Williams, employed in running the edger saws, was engaged in his usual work when a board "buck," as it is termed, and hurled a splinter six feet in length back against Williams point foremost, it striking him between the second and third ribs, entering the left breast, passing entirly through the left breast piercing the right and lodging against the right shoulder blade, where the splinter broke off thirteen inches from the point piercing the body.

The wounded man was at once removed to comfortable quarters, and Dr. Wade, of Drain, summoned The doctor went to Leona on a handcar, and arrived there in eight minutes time from the moment he received the telephone call.

On arrival he found the patient in a semi-unconscious state, administered ether and proceeded to attempt to remove the splinter from the body but was unable to do so. He called to his aid the assistance of another gentleman, and their combined strength and pulling proved unavailing. Finally by prying the ribs apart the splnter was removed and with it came a spirt of blood which hit a mirror several feet away. Dr. Wade instantly his hand upon the opening in the breast, which was fully four inches in circumference, and proceeded to staunch the flow of blood which was pounding away in fast and heavy throbbings beneath his pressing palm. This he succeded in shortly accomplishing, and the sufferer appeared to rest easier. The splinter prased upon the windpipe and caused partial suffocation. Until it was removed the patient moaned and kept calling for the physician in attendance in his faintly lucid intervals. The piece of wood was thirteen inches, about an inch square, jagged at the point, and eleven inches of it entered the breast.

The doctor remained with his patient until 10 o'clock Wednesday. Williams regained full consciousness about 3.30, and is quite cheerful under the circumstances, expressing the opinion that he will soon recover. Doctor Wade, however, is fearful of the result.

The members of Drain Camp No. 259, W. O. W., which Williams is a social member, are with his wife (they have no children) very active in careing for him, and doing everthing for his care and comfort lovig hearts and tender hands can suggest.—Drain Nonpareil.

Mr. Williams, who has a number of friends in this section, has since died of the injuries described above.

Palma Gives Us Credit.

Poughkeepsie, N. Y., Jan. 21.—General Thomas Estrada Palma, President-elect of the Cuban Republic, has just visited New Paltz, to meet the 50 Cuban girls who are being educated as teachers at the State Normal School. General Palma was welcomed by Miss Mercedes Torrensa, of Matanzas who spoke in Spanish, and the President-elect replied in that tongue, after which he addressed a few words in English to the Americans present, saying:

"The Union that has been formed between the people of the two countries is not for the present alone, but it will remain forever. My countrymen are about to show the world that we can make a republic a success, but we owe the opportunity, we owe all that we have and all that we expect to be, to the American Government."

Children Especially Liable.

Burns, bruises and cuts are extremely painful and if neglected often result in blood poisoning. Children are especially liable to such mishaps because not so careful. As a remedy DeWitt's Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeits. Sure cure for piles. "DeWitt's Witch Hazel Salve cured my baby of eczema after two physicians gave her up," writes James Mock, N. Webster, Ind. "The sores were so bad she soiled two or five dresses a day." R. S. Knowlton.

The National Irrigation Bill is being framed by the seventeen Senators and Represenatives from the western States who have been appointed for that purpose. The chief features of the bill are that the proceeds from the sale of public lands are to be devoted to the reclamation of arid lands. The price of lands reclaimed is to be increased to be increased to five dollars per acre, and each entryman restricted to eighty acres. All of the moneys received from the sale of public lands in the arid land States are to be set aside as a reclamtion fund; examinatons and surveys of reservoir sites and tunnel sites for the diversion of watter and irrigation canals to be connected with them shall be made; the Secretary of the Interior may withdraw from entry any public land lying under the proposed work. Whenever any of the irrigation projects are found to be feasible and can be built for a sum which will not exceed ten dollars per acre for the land irrigated, contracts are to be let for their construction. After the canals are completed the land may be entered in eighty acre tracts, or less by qualified entryman who must pay five dollars per acre into the reclamation fund besides certain fees, to the local land officers. The fund so created is to be used for maintaining and operating the canals and reservois until the land is all settled when it is to be turned over to the settlers who must operate and maintain them. If it is found that there is more than sufficient water to irrigate the public lands, water rights may be sold for the irrigation of private lands at the rate of dollars per acre. The Secretary of the Interior is instructed to make all necessary rules and regulations for carrying the proposed law into effect, as well as to institute condemnation proceedings for lands needed in the construction of reservoirs, dams and canals.—Public Land.

Remarkable Cure of Croup---A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I Got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—Joel Demont, Inwood, Iowa. For sale by R. S. Knowlton.

Why She was Silent.

A very silent old woman was once asked why it was she had so little to say. She replied that when she was a young girl she was very ill and could not talk for a long time, whereupon she made a vow that if speech were given her once more she would never again say anything unkind of anybody. And thus she was as they found her.

The Commoner.

(MR. BRYAN'S PAPER)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the HERALD together for one year for $2. The regular subscription price of the two papers when subscribed for separately is $2.50.

For Sale by Tender.

I will receive bids for my house and ½-acre plat in Notley's addition to Coquille City. For particulars apply at the HERALD office.
THOMAS TAYLOR.
Keswick, Cal

FOR SALE OR TRADE—The large and commodious furniture factory near the little church, equipped with good engine, planer, band saw, two large lathes, edger, sandpapering machine and other articles too numerous to mention. Will sell at a bargain or trade for city property. Inqire of J.W. Krewson, Coquille, Oregon.

Naval Battle is Raging.

Colon, Colombia, Jan. 20—Via Galveston.—A naval battle which began at 6 o'clock this morning is in progress in the harbor of Panamr. The revolutionary fleet consists of the steamers Padilla, Darien and Gatien. They are trying to force a landing off Saoana.

The Government ships are the Chilean line steamer Lautaro, the Pacific Steam Navigation Company's steamer Chicuito and the Panama Canal Company's steamer Boyaca, the first named steamer was seized by General Alban and the other two have been chartered by the Colombian Government. As this dispatch is being sent three shots have just passed over the Chicuito and she has answered with several shots. They fell close to the Padilla, which seem to be retiring. The guns at Las Bovedas are also firing at the rebel ships.

The Government forces are throwing up entrenchments. The United States cruiser Philadelphia is close to the scene of the fighting.

ANNOUNCEMENT.

In another column of today's issue appears the advertisement of the wonder book of American publications—of the achme of the compilers' and printers' art, where mechanical excellence, literary perfection and the zenith of accuracy of detail are combined in a volume of over 60 pages that sells at the popular price of 25 cents.

We refer to the 1902 New York World Almanac and Encyclopedia, better known as "The Standard American Annual."

And so it is. It is more to Americans than is "Whittaker's" to the British

By special arrangement with the publishers of the World Almanac we offer it in connection with one year's subscription to this paper at $1.65.

The New Features enumerated in the advertisement published today are alone worth the price of the book. Besides the features announced there are more than 1,000 facts touched upon.

Read the announcement and send in your subscription.

Teaching the young idea how to lynch is the latest fad in Kentucky, where a mob lynched a negro in the yard of a high school.

New York dives which were run behind red leghts are now run behind darkened dooways. A diveless NewYork is an irridescent dream of the viceless reformer.

FOR SALE—A first-class, fireproof safe, of the Hall pattern with two sets of double doors, weighing 5,000 pounds, as good as new, for $150. Inquire at the HERALD office.

ARE YOU DEAF?

ANY HEAD NOISES?
ALL CASES OF
DEAFNESS OR HARD HEARING
ARE NOW CURABLE
by our new invention. Only those born deaf are incurable.
HEAD NOISES CEASE IMMEDIATELY.
F. A. WERMAN, OF BALTIMORE, SAYS:
BALTIMORE, Md., March 30, 1901.
Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.
About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear could be lost forever.
I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,
F. A. WERMAN, 730 S. Broadway, Baltimore, Md.
Our treatment does not interfere with your usual occupation.
Examination and advice free. YOU CAN CURE YOURSELF AT HOME at a nominal cost.

The Improved New High-Arm "Arlington" Self-Threading Sewing Machine
NEW HOME STYLE
LATEST BEST CHEAPEST

Shipped to any one anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.
10 years' written warranty with each machine.
$19.50 AND Coupon, if sent C. O. D. or on trial
STYLE No. 55. "ARLINGTON."
A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to get out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority
The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw; strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. Highest Arm—Space under the arm is 6¾ inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self Threading—Absolutely no holes to put thread through, except eye of needle. Shuttle is cylinder, open on end, entirely self-threading; easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the front of the machine beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. Feed is double and extends on both sides of needle; never fails to take evenly through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. The Needle is a straight, self-setting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments to a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ¾ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, golden cover and drawers, nickel-plated rings to drawers, three guards to wheel, and device for replacing belt.
DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS
OUR GREAT OFFER. $24.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guarantee safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' test trial. We will ship C. O. D. for $19.50 with privilege of twenty days' trial on receipt of $5.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to anyone at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.
Coupon No. 2070 good for $5.00 If sent with order for Arlington Sewing Machine No. 55
Or make your order through the Herald, without extra cost
