Treasurer's Notice.

NOTICE is hereby given that all County Warrants enclosed prior to Jan. 1st, 1902, will be paid on presentation at my office in Coquille City, Coos County, Oregon. No business will be allowed after Dec. 31, 1901.

This 23d day of Dec. 1901.
J. B. DULLEY,
County Treasurer.

Call For Conventions.

A mass convention of the Socialists of Oregon, is hereby called to meet in the city of Portland, Oregon on Wednesday the 19th day of March, 1902, at the hour of 10 o'clock a. m., for the purpose of nominating a state ticket for the various offices to be filled at the elections to be held in this state on the second day of June of this year; and for the transaction of other business of interest to the Socialist party of the state.

Also on the same day and in the same place, a mass convention of the Socialists of the second congressional district of Oregon, is hereby called for the purpose of making a nomination for congress from said district, to be voted on at the coming June election. This district comprises the counties of Clatsop, Columbia, Multnomah, Baker, Crook, Gilliam, Grant, Harney, Malheur, Morrow, Sherman, Umatilla, Union, Wallowa, Wasco, and Wheeler.

On the following day, March 20th, 1902, a mass convention of the Socialists of the First Congressional district of Oregon, is hereby called to meet in Oregon City, Oregon, at the hour of 1 p. m. for the purpose of making a nomination for congressman from said district to be voted on at the coming June election. This district comprises the counties of Benton, Clackamas, Coos, Curry, Douglas, Jackson, Josephine, Klamath, Lake, Linn, Lane, Marion, Polk, Tillamook, Washington, Yamhill and Lincoln.

It is recommended that the county mass conventions, for the purpose of nominating county tickets, should be held at county seats of the various counties on Wednesday, March 5, 1902, at the hour of 10 o'clock a. m. This will place the county conventions exactly two weeks earlier than the state convention, thus affording opportunity for interchange of opinions and making arrangements for attending the state and congressional conventions.

Because of certain revisions in the Australian ballot law, and because of the further fact that the Socialist party in this state, is an entirely new party in the eyes of the law, the method of precinct election of delegates to county conventions, and delegates elected from these bodies to the state convention, cannot be employed in making our nominations this spring.

While in the principles advocated, the Social-Democratic party and the Socialist party were the same, yet according to the new law, the Socialist party is a new party, and can be represented on the official ballot by either of the two following methods:

1. By calling a mass convention of the electors of any county, district or state, and if one hundred or more electors meet in such convention and form an organized body, they may make the nominations and file them according to law without petition.

2. If the assembly of electors number less than one hundred, they may form their organization and make their nominations in the same manner, but must accompany the certificate of nominations by a petition equal to five per cent of the entire vote of such county, district or state, cast at the last preceding general election, based on the vote for governor or presidential election.

Dated at Albany, Oregon, this 29th day of January, 1902.
C. S. Harnish, Chairman.
W. S. Richards, Sec.
State Committee.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, O. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure very pleasant to take. The little ones like it. R. S. Knowlton.

Rescuing Entombed Miners.

Engle Pass, Tex., Feb. 3.—Eighty-four bodies and 16 men barely alive some of them horribly mangled have been taken from the Hondo mines. Search for the bodies has stopped on account of the stench, but disinfectants arrived this afternoon, and search will be renewed. The shaft had 118 men embodied, and 18 are still inside. The dead bodies have been taken from the shaft. The damage to the property is very great. The company has summoned all the physicians and nurses that can be secured, and is doing everything possible to save any of the miners who are still alive.

The scene at the opening of the mine was horrible. Wives, mothers and children of the dead and mangled were screaming and crying, and refusing to retire.

Of those known to have gone into the mine about 40 are still to be accounted for. They are not likely to be living, for if not killed outright, the deadly carbonic oxide following the explosion would unquestionably have suffocated them. The direct cause of the explosion is not yet known.

Clerk's Wise Suggestion.
"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mead, lending pharmacist of Attleboro, Mass. "I could eat hardly anything without suffering several hours. My clerk suggested I take Kodol Dyspepsia Cure which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodol Dyspepsia Cure heartily." You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodol Dyspepsia Cure digests your food. R. S. Knowlton.

Rainfall is Welcomed.

Sacramento, February 1.—Rain began at 8 o'clock this evening and has been falling ever since. This part of the valley was already in fair condition and the present precipitation insures good crops. San Jose, February 1.—Light rain began to fall here at 9 o'clock tonight, and at 10 the downpour is quite heavy. The rain is timely.

Reduce War Taxes.

Washington, Jan. 29.—The Republican members of the ways and means committee held a private conference tonight, and decided to frame a bill for the reduction of war revenue taxes before proceeding further with the subject of Cuban reciprocity. Chairman Payne at once called a meeting of the committee for 11 o'clock tomorrow morning, when work on the war revenue reduction bill will begin. No draft of bill has been prepared by the Republican member, but it is pretty fully understood that the majority is prepared to favor a measure effecting very large reductions, amounting practically to a repeal of the entire war taxes and aggregating about \$68,000,000.

A Good Deal the Same Everywhere.

The Willamette Valley is by no means the only place where apples can no longer be grown to perfection with as little care as was needed in the good old days. In a plea for apple culture," read by Prof. F. A. Burger, before the Michigan State Horticultural Society, he called attention to the great number of sorry neglected old apple orchards all over Michigan, and said: "Why have our apple orchards become so unproductive? Is it a fault of the grower, or have conditions so changed that we can no longer produce good apples? Conditions have changed, and that is where the trouble is. The grower has not changed with the conditions. Old men tell us that they used to grow apples without spraying or cultivating, but conditions were different then. Then they had the virgin soil that had never been robbed of any of the elements of fertility; insect diseases were unknown. I can remember and so can you, when we did not have to spray our potatoes, but we do now. We as growers have failed to meet the change of conditions.

Too many of us are trying to raise apples as our ancestors did forty or fifty years ago; but conditions have changed, hence we fail."

The Northwest Pacific Farmer.

Oregon will be well represented at the Pacific Wool Association to be held in Helena, Montana. The Baldwin Land & Wool Co., of Hay creek have shipped a carload of their Merino bucks to be shown at that place and time.

Do your cows pay their board bill, or do they make you lose a portion of it? Some cows not only pay their bill promptly, but furnish luxuries for the table, occasionally gives your wife a vacation, and pays the hired man for taking care of them.

The Flax Fiber Company of Seio paid out almost \$15,000 during the past year for wages in that little place which makes the citizens feel very proud of their little factory.

The recent report of the interstate commerce commission in which it says that the big railways defy national laws, and that traffic officials of many of the principal railroad lines deliberately violate the laws should put the American people to thinking. The commission says that these officials destroy receipts and vouchers, and make false entries on their books, and that one road will work with another, to help the large packing house and other large shippers in the way of obtaining rebates. Of course this is something the public have long suspected at least the farmer and small shipper have had every reason to believe it from the way they have fared in the matter of shipment. If the railroads are openly defying the national law, the quicker the nation condemns their property and runs the roads itself the better it will be for the people at large. If the large shippers would pay their just proportion the burdens would not fall so heavily on the shoulders of farmers and small shippers. This matter cannot be stopped any too soon.

The hide of the hog is no longer to go with the tail. An inventor claims that he can split a pig skin to the fineness of a cologne bottle stopper cover and manufacture that article at a ridiculously low price. He can make the finest of imported kid glove stock, can displace oiled paper with a better and cheaper article and do the same with the fine texture of rubber goods now used for waist shields.

Hog cholera has been discovered in the country adjoining Pendleton. A great many animals have died along McKay creek and it is thought that the disease was carried down with the water from the first deaths which were along the creek causing other stock down the river to contract the disease.

FOR SALE OR TRADE—The large and commodious furniture factory near the little church, equipped with good engine, planer, band-saw, two large lathes, edger, sandpapering machine and other articles too numerous to mention. Will sell at a bargain or trade for city property. Inquire of J. W. Krewson, Coquille, Oregon.

The Commoner.
(MR. BRYAN'S PAPER)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is \$1 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the HERALD together for one year for \$2. The regular subscription price of the two papers when subscribed for separately is \$2.50.

For Sale by Tender.
I will receive bids for my house and large plot in Nottley's addition to Coquille City. For particulars apply at the HERALD office. THOMAS TAYLOR, Keswick, Cal.

There are some apples for sale in Portland which have names of well known growers on them, which are pretty small and sell at a low price. Apple dealers frequently scrape off the name of grower from boxes of choice apples and place their own superior character comes along they go through with the grower's name on. The choice apples sell themselves, the poor ones are sometimes worked off on the reputation of the grower.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. This testimony is given upon our experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by R. S. Knowlton.

ANNOUNCEMENT.

In another column of today's issue appears the advertisement of the wonder book of American publications—the achme of the compilers' and printers' art, where mechanical excellence, literary perfection and the zenith of accuracy of detail are combined in a volume of over 60 pages that sells at the popular price of 25 cents.

We refer to the 1902 New York World Almanac and Encyclopedia, better known as "The Standard American Annual."

And so it is. It is more to Americans than is "Whittaker's" to the British.

By special arrangement with the publishers of the World Almanac we offer it in connection with one year's subscription to this paper at \$1.65.

The New Features enumerated in the advertisement published today are alone worth the price of the book. Besides the features announced there are more than 1,000 facts touched upon.

Read the announcement and send in your subscription.

"The killing of men under the name of war," says Andrew Carnegie, "is the foulest blot on humanity today. 'Civilized warfare' is a contradiction in terms. There can be no such thing as 'civilized warfare' There is a favor of truth, to say the least, in this comment. When men are really civilized they will settle disputes without going to war. Yet what would have been the condition of Mr. Carnegie and his race if his ancestors had never gone to war? He would not have been able to make that great fortune—The Evening Telegram.

Dr Gibbon

This old reliable and most successful specialist in San Francisco, still continues to cure all Syphilis and Venereal Diseases, such as Gonorrhoea, Stricture, Syphilis, in all its forms, Skin Diseases, Nervous Debility, Impotency, seminal Weakness and Loss of Manhood, the consequences of self-abuse and excesses producing the following symptoms: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, loss of confidence, dullness in approaching strangers, palpitation of the heart, weakness of the limbs and back, loss of memory, pimples on the face, constipation, etc. DR. J. P. GIBBON, 925 Kearney street, San Francisco, Cal.

ARE YOU DEAF? **ANY HEAD NOISES?**

DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.
HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:
"I was entirely cured of deafness, thanks to your treatment. I will now give you a full history of my case, to be used at your discretion."
About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for several months, without any success, consulted a number of physicians, among others, the most eminent specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the best noise would be the case, but the hearing in the affected ear has been entirely restored. I thank you heartily and beg to remain
Very truly yours,
F. A. WERMAN, 729 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.
Examination and advice free. **YOU CAN CURE YOURSELF AT HOME** at a nominal cost.

The Improved New High-Arm Sewing Machine
NEW HOME STYLE LATEST BEST CHEAPEST

Shipped to anyone on 10 days free trial. In your own home, without making one cent in advance.
10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, in a heavy, durable, and reliable manner. It possesses all modern improvements, and its mechanical construction is such that it is a combined simplicity with great strength, thus insuring ease of running, durability, and making it possible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of cloth and all classes of material. Always ready for use and unrivaled for speed, durability and quality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw, substantial, neat and workable in design, and beautifully ornamented in gold. Red state lock to prevent tampering, and is held in place by a special screw. Highest Arm—Space under the arm is 5 1/2 inches high and 9 inches long. This will admit the largest cuts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle revolves, open and, entirely self-threading. Easy to put in or take out. Lubricator holds a large amount of thread. Stitch Regulator is on the bed of the machine, never fails to regulate, through, never stops at seam movement is neither too fast nor too slow while stitching holds. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, filling the fabric automatically and perfectly smooth without holding the thread. Machine does not run while stitching holds.
