New Postal Regulations.

In addition to carrying the mails to the various pastoffice on the star routes the carrier on each route (except where otherwise specifically stated) will also be required to deliver mail intoall boxes, and hang bags or satchels containing mail on cranes or posts that may be erected along the route under the following condittons: Any persons living on or near a star route herein described, and not within 80 rods of any post office, who desires his mail deposited at a given point on the line of the route by the carrier on said route, may provide and erect a suitable box or crane on the road side, located in such a manner as to be reached as conviently as practicable by the carrier, without dismounting from the vehicle or horse, and such person shall file with the postmaster at the postoffice to which his mail is addressed (which shall be one of the two postoffices on the route on either side of and next to the box or crane) a request in writing for the delivery of his mail to the carrier on the route for deposit at the designated point at the risk of the address.

The mail bag or satchel above described as well as the box or crane, must be provided by the person for whose use it is intended without expense to the department.

It shall be the duty of the postmaster at every postoffice, upon a written order from any person living on or near the star route, to deliver to the proper mail carrier for that route, any mail matter—placing in the respective satchels where such are used, the mail for the peason for whom such satchel belongs—with instructions as to the proper mail box that said mail matter shall be deposited in. Registered mail shall not be so delivered unless expressly requested by the addressee in his written order. No mail matter so delivered to a carrier shall be carried past another postoffice on the route, being deposited into a mail box hung on a crane or post. Carriers are not required to collect mail from these boxes, but there is no objection to his doing so if it does not interfere with hem making the schedule time. The law provides that every carrier of the mail shall receive any mail presented to him if properly prepered by stamps, and deliver the same for mailing at the next postoffieice at which he carries and no fee shall be allowad therefore. These conditions shall be in effect after July 1, 1902.

Means Freedom For Many.

ST. LOUIS, Feb. 10.—Established precedents of the United States Army were overthrown, and the freebom of nearly 200 men now confited in Federal penitentiaries was assured by a decision rendered by the United States Circuit Court of Appeals today in the case of Peter C. Deming, an ex-Captain of Volunteers, against Robert M. McClaughrey, warden of the Federal penitontiary at Fort Leavenworth. Deming was imprisoned on the sentence of a court-marshall composed of nine regular officers, convened by General O. R. Lhafter on March 29, 1900,

The opinion of the Circuit Court, written by Judge Walter S. Sanborn is that the court-martial which sentenced Deming acted in violation of article 77 of the articles of war, which provides that officers of the regular Army shall not be competent to sit on courts-martial for the trial of officers and soldiers of other forces. The essential question, as stated in Judge Sanbarn's opioion, is whether the Volunteer Army is the same as the regular Army, or whether it is one of the "other forces" mentioned in articte 77. The fact that the volunteer Army is at all times distinct from the regular Army.

Deming will be released from the Fort Leavenworth penitentiary within 60 days, and all other former members of the volunteer Army who are confined in the Federal prisons on sentences inflicted by courts-martial of regular officerr will also be liberated as the result of today's decision. It is stated E. A. Rosier, United States District Attorney, estimates the number of such cases at 200.

Paterson, N. J., Has Ten-Million-Dollar Fire.

Paterson, N. J., Feb. 9.—A great fire swept through Paterson today and in its desolate wake are the embers and ashes of property valued at $10,000,000. It burned its way through the business section of the city and claimed as its own a majority of the gner structures devoted to commercial civic, educational and religious use, as well as scores of houses. There was put small tribute of life and injury to the conflagration, but thousands were left homeless and many thousanbs without employment.

Oldest Inhabitant of State Deau Aged 109

Sherwood, Feb. 10.—Mrs. Nancy Jane Roberts, who was undonbtedly the oldest woman in Oregon, died recently at the home of Matt Baker near Hood View, three miles from Sherwood, at the advanced age of 109 years. She was in what is now the state of Misouri in 1793.

Mrs. Roberts was born in the year of the great revolution in France, and while Washington was serving the first year of his term as president of the United States, and six years prior to his death.

She emigrated to Oregon, with her family in the year 1852, and settled in tne Willamette Valley, where she has resided ever since.

Her husband died about 30 years ago at a very old age, since which time she has made her home with her married sons and haughters residing in this vicinity. She was a great-great-grandmother and at her death, her eldest son now living (an older son having died a number of yoars ago), was a hale, hearty old gentleman, with a large family and 71 years of age.

Mrs. Roberts has been totally blind, partially deaf and helpless for a number of years past, and owing to her personal appearance has avoided coming in contact with strangers, perferring the privacy of her own apartments. The gradual failure of her mental and physical powers has been apparent for a number of years, however, up to the time of her death she wasable to converse intelligently for one of her impaired capacity.

Her death terminates the career of probably the last of the contemporaries of Washington and the founders of the Republic. The body was buried at the beautiful Pleasant Hill Cemetery in Clackamas County.

Those Who Want Chinese.

The great majority of the Chinese dumped on our shores are not voluntary immigrants, seeking a place to found a home and better their condition. They are brougnt here by slave-dealing pirates, as the black slaves were once brought from Africa—shipped like cattle, and worked like cattle.

They are wanted by the Chamber of Commere and the merchants' exchange, by the monopolists and trusts, as an easier wry to break down organizations of labor for fair hours and fair pay.

They are wanted by philanthropists like William Lloyd Garrison, who never seem able to learn that because the nation sacrificed tens of thousands of lives and hundreds of millions of treasure to free the black slave is no good reason why chattel slavery should be fastened upon us again, that we may once more have a bloody war, if need be, to set the alave free.

They are not wanted by the people of the Pacific Coast, who know the evils that follow in their train, such as the communication of the opium and other vicious habits, loathsome diseases, and other vcious habits, loathsome diseases, and unspeakable oriental immoralities to the youth who are brought into association with them, and the demoralizing and degrading influence of their presence upon all.—The Star.

Petition For Suspension Of Philippine War.

Washington, Februay 4.—Senator Hoar to-day presented a petition signed by a number of distinguishsd citizens of this country for the suspension of hostilities in the Philippine Islands, and asking that an opportunity be given for a discussion of the situation between the Government and the Filipino leaders.

"The reader may make up his mind to pe pleasantly overwhelmed by the opulence and vivacity or "Around the Pan" published by the Nutshell Publishing Compano, 1059 Third Avenue, New York.

The wonders begin with the froetispiece picture President McKinley, draw in a single line beginning at a point on the cheek bone and going round in a constantly widening circle, which waverings and downbearings or the pen in the proper places to secure detachment and shading. We are told that this portrait "is considered the most unique work of its kind in the world", and if there are degrees of uniqueness we are willing to believe that this is most the thing of which there are know duplicates, Of course there is text in addition to the pictures, and we should be surprised indeed to here from any purchaser the opinion that he had not got his money's worth ($2.00)."

Dishonest Creamerymen.

The Minnesota Dairy and Food Commissioner has entered upon a most worthy work in the way of preventing those creamery proprietors who make a practice of underreading the milk test. One case is that of the Secretary of the Delavan creamery, who has been arrested and fined for instructing his buttermaker to short-cut the test of milk and cream that came to the creamery. The St. Paul Globe in commenting on the fact very truthfully, says: Where there are several creameries within easy distance of a farmer he will naturally go to the creamery that will pay him the most for his cream. If one of the creameries under-reads the test of butter fat, it can offer a larger price than is offered by the creameries where the test is properly recorded. In this way the creamery gets a greater patronage than the other creameries, by fradulent means. It creates an unfair competition, and not only do the other creomeries suffer, but in the long run the farmer also loses, because he is not actually getting the same retura as he would get from the other caeameries were his own cream correctly tested.

If this practice is allowed to go on the natural result would be that in a short time the few cresmeries which are not overscrupulous as to their methods, would have driven the honest competitors out of business, and would have a well organized monopoly. It would give a few men practical control of the cream butter industry, and, in effect, create a gigantic butter trust in Minnesota. Although the department is already overcrowded with other work, a vigorons warfare cn this kind of thing will be instituted at once, and a general investigation of the creameries of the state is likely to be made. How common the practice is cannot be known at present, but it would be peculiar if there were not some unscrupulous man engaged in this business as in all others.

Died on the train.

A death under very peculiar conditions occurred on the north bound overland, 16, at 10 o'clock last night at Merlin. J. T. Howe of Eugene, recently went to Oakland on receipt of the sad intelligence announcing the death of his brother, and was returing to Eugene with the body where the remains were to be laid to their final rest, when on approaching Merlin, Mr. Howe was taken seriously ill and died. The bodies of the two brothers passed through Roseburg at three o'clock this afternoon on the overland which was sixteen hours late, cause by a slide or a washout near Leland. The double death will be a very severe and painful blow to the relatives and friends of the two brothers at Eugene.

"My little boy took the croup one night and soon grew so bad you could hear him breath all over the house," says F. D. Reynolds, Mansfield, O., "We feared he would die, but a few doses of One Minute Cough Cure quickly relived him and he went to sleep. That's the the last we heard of the croup Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediatly. For coughs, coles, croup grip, bronchitis and all other throat and lung taoubles it is a certain cure very pleasent to take. The little ones like it. R. S. Knowlton.

The Commoner.

(MR. BRYAN'S PAPER)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the HERALD together for one year for $2. The regular subscription price of the two papers when subscribed for separately is $2.50.

For Sale by Tender.

I will receive bids for my house and ¼-acre plat in Notley's addition to Coquille City. For particulars apply at the HERALD office.

Something That Will Do you Good

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a houshold necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. Thes testimony is given upon our experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by R. S. Knowlton.

ANNOUNCEMENT.

In another column of today's issue appears the advertisement of the wonder book of American publications—of the achme of the compilers' and printers' art, where mechanical excellence, literary perfection and the zenith of accuracy of detail are combined in a volume of over 60 pages that sells at the popular price of 25 cents.

We refer to the 1902 New York World Almanac and Encyclopedia, better known as "The Standard American Annual."

And so it is. It is more to Americans than is "Whittaker's" to the British

By special arrangement with the publishers of the World Almanac we offer it in connection with one year's subscription to this paper at $1.65.

The New Features enumerated in the advertisement published today are alone worth the price of the book. Besides the features announced there are more than 1,000 facts touched upon.

Read the announcement and send in your subscription.

ARE YOU DEAF?

ANY HEAD NOISES?

ALL CASES OF
DEAFNESS OR HARD HEARING ARE NOW CURABLE
by our new invention. Only those born deaf are incurable.
HEAD NOISES CEASE IMMEDIATELY.
F. A. WERMAN, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 30, 1901.

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

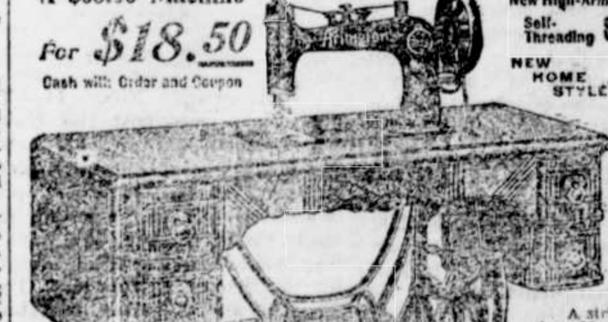
A $65.00 Machine For $18.50
Cash with Order and Coupon

The Improved New High-Arm "Arlington" Self-Threading Sewing Machine
NEW HOME STYLE
LATEST BEST CHEAPEST



$18.50 AND Coupon, if sent C. O. D. or on trial

STYLE No. 55. "ARLINGTON."

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.

10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. Highest Arm—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the bed of the machine beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. Feed is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. The Needle is a straight, self-setting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ⅞ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.
