MARSHFIELD - OREGO

Oregon Dairymen's Association.

Ed Hoard's Dairyman:—The tenth annual meeting of the Oregon Drirymen's Association convened at Salem, on Jan. 6, 7, and 8, 1902, in conjunction with the Oregon Farmers' Congress. The attendance was very satisfactory through out the meeting, but as has been the case in former years, the creamery and cheese factory men were not nearly so much in evidence, as the milk producers. The difficulty of winter transportation prevents attendance from the coast regions, which produce about one-half of the dairy products of the state. Mr. Henry B. Thielsen, president of the Salem Commercial Club, warmly welcomed the visitors, reviewing briefly some of the recent advances in dairying in the state, and highly commending Mr. C. H. Markham, recently general freight and passenger agent for the Southern Pacific Co., and his successor, Mr. R. B. Miller, for the valuable work they have done in the advancement of the dairy industry.

Mr. Richard Scott, president of the Association, responded, combining, therewith, his annual address. Mr. Scott has been an Oregon dairyman for thirty years, and has been quite successful, as his broad acres and fine herd abundantly testify. He urged the necessity for the passage, by Congress, of the Grout bill, and the loyal support by dairymen of the Oregon Pure Food Law.

Food and Dairy Commissioner, J. W. Bailey, briefly outlined the duties of his office. He related his successful efforts in driving oleomargarine out of the state, and some of his unsuccessful efforts in prosecuting violations of some other features of the law. He took occasion to denounce a dishonest practice of some creamery proprietors, when he said that some creamery men are so blind to their own interests, as to violate the law by selling short weight "rolls", but he intends to continue his fight against such unscrupulous creamerymen, until they are forced to follow honest methods.

The first session closed with an able address on "Dairy Markets" by Mr. W. H. Chapin of the firm of Glafke & Co. Commission merchants, Portland, Mr. Chapin said in part: "Our butter is made with the idea that it is to be used immediately. This is a great mistake. Butter should be made in the flood months—April, May, June and July—with the idea of its being kept. That is the time of year when we fill our contracts with the government for their army and navy supply; it is the time of year when we can do our exporting, and the time when prices are slow, hence, it should be made for long keeping.

"When butter is plentiful, we ship large amounts to Puget Sound and the demand there is for butter in tubs, yet we have great difficulty getting creamerymen to put it up that way. They think we want to put it in storage, or work some sort of flim-flam game on them, by which they will be the losers. I am inclined to think butter shrinks less in tubs than in rolls packed in boxes. At any rate, we should be willing to put up the butter in the manner demanded by the trade.

Mr. Geo. W. Weeks discussed "Making and Feeding of Ensilage." Mr. Weeks has been feeding silage for the past twelve years, and considers it an essential to profitable milk production.

He considered that "corn is king" of silage crops, and recommended the variety known as Pride of the North, as best adapted to the climatic conditions of the Willamette valley. Mr. Weeks said his present ration consisted of an average, per cow, per day, of, 40 pounds of ensilage, 8 pounds of bran, 2 pounds of oil meal, with some roughness in the shape of oat straw and vetch, or clover hay.

Mr. S. M. Douglass one of the largest dairymen in the state, gave his experience in grading up a herd. He said when he began dairying, he purchased the best cows he could select. The second year he milked fifty head, but the returns were not satisfactory. The next year, records were kept and the fact developed that the average butter product was but 120 pounds per cow. About half the herd was disposed of, some new ones purchased and at the end of the fourth year showed an average of 200 pounds per cow. Further weeding out resulted in an avrage butter yield for the fifth year of 290 pounds, and a continuation of the process for the sixth year secured an average yield of 329 pounds per cow. Most of the cows in the herd at present are of Mr. Douglass' own raising.

Mr. Schulmerich, of Farmington, discussed The Proper Kind of Dairy Cow. He did not declare himself in favor of any particular breed, but said that for dairy purposes one of the recognized dairy breeds should be selected. A dairyman should not try to keep the general-purpose cow, for such animals were often a no-purpose cow, and in any case the dairy herd should be headed by a pure-bred bull. The speaker also explained by diagrams what he considered the proper thing in the line of cow stalls.

Mr. E. F. Rice, of Albany, whose butter scored 99½ points at the last Oregon state fair, discussed Prize Butter from Hand Separator Cream. At the creamery where Mr. Rice is employed hand separator cream only is used in the making of butter, the plant having been in operation but little over a year. He said he had misgivings as to the quality of butter he would be able to produce under the system at first, but after a year's experience was satisfied that the butter was fully equal to what he had formerly produced under the whole-milk system, and thought the hand separator had come to stay.

Mr. Geo D Goodnue, of Salem, discussed The Hand Separator Creamery, calling particular attention to the ability to ship long distances under this system, which he said could be done very cheaply, owing to the very favorable rate made by the Wells-Fargo Express Co. Mr. Goodnue thought the whole milk plan was entirely out of the question in many localities where a gathered cream concern could be made profitable, but he did not favor the handling of anything but separator cream, except perhaps as a means of getting cow owners interested in the project, with the exception that they would later procure separators.

A very able paper on Channel Island Cattle was presented by Mr. & Mr. Thos. Withycombe, of Scholls. He stated that in their island home these cattle were remarkably hardy, and attributed the lack of vigor in some of the herds of this country to in and-in breeding, and to the development of the solid-color fad, at the expense of constitution and milking ability. He thought we had just as good Jerseys in this country as can be found in the Channel Islanys, for our breeders are continually bringing over the best animals they can secure, and are more skilled in the art of breeding than the Channel Island people.

Prof. F. L. Kent discussed Variation in Milk Tests. Among other cases of variation attention was called to the daily tests at the Corvallis Creamery for the first half of the month of May, the milk of the largest patrons, which would be the least susceptible to variation from the effect of a single cow's variation, showed a variation during the fifteen days of from .3 to .8 of one per cent; the average for the ten patrons sending the largest amounts of milk being .5 of one per cent. These results indicated that the tests of a single milking or of a single day could hardly be regarded as authentic.

Dairying from a Railroad Standpoint was the topic discussed by Mr. H. E. Lounsbury of the S. P. R. R. Co. He said in part: "Localities which have secured creameries in the past few years, show that by means of the regular monthly income from daily products mortgages have been paid off, and the farms improved. This improvement in financial conditions among the farmes leads to more extensive freight and passenger business for the railroads

Appreciating the value of these improved conditions the railroads have tried to do their share toward building up the dairy business."

After several brilliant speeches by members from the towns of Albany, Salem and Hillsboro, the latter was selected as the place for holding the next annual meeting of the association.

The election of officers resulted as follows:

President, Thos. Froman, Albany; 1st Vice President, G. W Weeks, Salem; 2nd Vice President, S. M. Douglass, Eugene; Sec. and Treas., F. L Kent, Corvallis. Committee on exhibits for next annual meeting: Geo. W. Weeks' Salem; Thos. Paulsen, Garden Home; A. C. Miller, Albany, Corvallis, Ore. F. L. KENT.

A Printer Greatly Surprised.

"I never was so much surprised in my life, as I was with the result of using Chamberlain's Pain Balm," says Henry T. Crook, pressman of the Asheville (N. C.) Gazette. "I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit, One day while looking over the Gazette, I noticed that Pain Balm was positivly guaranteed to cure rheumatism so bought a bottle of it and before using two thirds of it my rheumatism had taken its flight and I have not had a rheumatic pain since." Sold by R. S. Knowlton.

A full supply of the leading varieties garden and flower seeds at Knowlton's Drug store.

Roseburg Review

The Angora goat show at Dallas this week was a decided success, there being over 100 entries A poultry show of over 40 coops was also held at the same time.

H. L. Marsters and family are improving nicely from their attack of alleged smallpox, and Ed. Marsters and Family have entirely recovered. One new case of the disease is reported, but it is in the usual mild form. The conclusion is rapidly gaining ground that this disease is not smallpox, but some new ailment of much less importance and severity than measles.

Mr. F. S. Barzee, brother of Attorney Louis Barzee, has accepted a position with The Review, taking the place left vacant by the departure of Mr. J. W. Veatch. Mr. Barzee is an active newspaper man of many years experience, and will doubtless merit from our many patrons the same generous measure of consideration with which our former solicitors have been favored. He will visit the various parts of the county at an early date, and will be pleased to attend to all your wants in the newspaper and printing lines.

For the Complexion.

The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruption. De Witt's Little Early Risers keep the liver and bowels in healthy conditions and remove the cause of such troubles. C. E. Hooper, Albany, Ga., "I took De Witt's Little Early Risers for billiousness They were just what I needed. I am feeling better now than in years." Never gripe or distress Safe thorough and gentle. The very best pills. R. S. Knowlton.

Port Orford Tribune.

Born—To Mr. and Mrs. Thrift, of Langlois, Or., on Feb. 23, 1902, a girl.

Dr. Green was called Saturday from Langlois, to visit Mrs. A. J. Hamlin, of Coos county, who is very low.

Jesse W. Carey, a former highly esteemed citizen of Curry county, but a resident of Tillamook county during the past two years, died at some point on the Southern Pacific railroad in Southern Oregon last week, while en route to Southern California for the benefit of his health. Deceased leaves a widow and two children in Tillamook Co., and a number of relatives in Curry and Coos counties.

Could not Breathe.

Coughs, colds, grip, bronchitis, other throat and lung troubles are quickly cured by One Minute Cough Cure. One Minute Cough Cure is not a mere expectorant, which gives only temporary relief. It softens and liquifies the mucous, draws out the inflamation and removes the cause of the disease. Absolutely safe Acts at once. "One Minute Cough Cure will do all that is claimed for it." says Justice of the Peace. J. Q. Hood, Crosby, Miss. "My wife could not get her breath and was relieved by the first dose. It has been a benefit to all my family" R. S. Knowlton.

The Commoner.

(MR. BRYAN'S PAPER)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the HERALD together for one year for $2 The regular subscription price of the two papers when subscribed for separately is $2.50.

The Chinese Monister was talking in accordance with the opinion held by Sam Gompers, and thousands of others, when he said: "The Chinese in America are a bigoted and ignorant class, and I am disgusted with them all.

Anyone having a ranch to rent should advise the HERALD. We have several applications.

For Sale by Tender.

I will receive bids for my house and ½-acre plat in Notley's addition to Coquille City. For particulars apply at the HERALD office.
THOMAS TAYLOR.
Keswick, Cal

Having a Run on Chamberlain's Cough Remedy.

Between the hours of eleven o'clock a. m. and closing time at night on Jan. 25th, 1901, A. F. Clark, druggist, Grade Springs, Va, sold twelve bottles of Chamberlain's Cough Remedy. He says, "I never handled a medicine that sold better or gave better satisfaction to my customers." This Remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a good, reliable medicine for a cough or cold or attack of the grip, use Chamberlain's Cough Remedy and you are certain to be more than pleased with the quick cure which it affords. For sale by R. S. Knowlton.

ANNOUNCEMENT.

In another column of today's issue appears the advertisement of the wonder book of American publications—of the achme of the compilers' and printers' art, where mechanical excellence, literary perfection and the zenith of accuracy of detail are combined in a volume of over 60 pages that sells at the popular price of 25 cents.

We refer to the 1902 New York World Almanac and Encyclopedia, better known as "The Standard American Annual."

And so it is. It is more to Americans than is "Whittaker's" to the British

By special arrangement with the publishers of the World Almanac we offer it in connection with one year's subscription to this paper at $1.65.

The New Features enumerated in the advertisement published today are alone worth the price of the book. Besides the features announced there are more than 1,000 facts touched upon.

Read the announcement and send in your subscription.

Practically Starving.

"After using a few bottles of Kodol Dyspepsia Cure my wife received perfect and permanent relief from a severe and chronic case of stomach trouble," says J. R. Holly, real estate insurance and loan agent, of Macomb, Ill. "Before using Kodol Dyspepsia Cure she could not eat an ordinary meal without intense suffering. She is now entirely cured. Several physicians and many remedies had failed to give relief.', You don't have to diet. Eat any good food you want, but don't overload the stomach. Kodol Dyspepsia Cure will always digest it for you. R. S. Knowlton.

Treasurer's Notice.

NOTICE is hereby given that all County Warrants endorsed prior to Jan. 1st, 1900, will be paid on presentation at my office in Coquille City, Coos county, Oregon. No interest will be allowed after Dec. 31, 1901.
This 23d day of Dec. 1901.
J. B. DULLEY,
County Treasurer.

ARE YOU DEAF? ANY HEAD NOISES?
ALL CASES OF
DEAFNESS OR HARD HEARING ARE NOW CURABLE
by our new invention. Only those born deaf are incurable.
HEAD NOISES CEASE IMMEDIATELY.
F. A. WERMAN, OF BALTIMORE, SAYS:
BALTIMORE, Md., March 30, 1901.
Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.
About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,
F. A. WERMAN, 730 S. Broadway, Baltimore, Md.
Our treatment does not interfere with your usual occupation.
Examination and advice free. YOU CAN CURE YOURSELF AT HOME at a nominal cost.

A $65.00 Machine For $18.50 Cash with Order and Coupon
The Improved New High-Arm Self-Threading "Arlington" Sewing Machine
NEW HOME STYLE LATEST BEST CHEAPEST

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.
10 years' written warranty with each machine.
$19.50 and Coupon, if sent C. O. D. or on trial
STYLE No. 55. "ARLINGTON."
A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:
The Head of the "Arlington" swings on patent rocket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. **Highest Arm**—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. **It is Self-Threading**—Absolutely no holes to put thread through except eye of needle. **Shuttle** is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. **Stitch Regulator** is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. **Feed** is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. **Automatic Bobbin Winder**—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. **Light Running**—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. **Stitch** is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. **Tension** is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. **The Needle** is a straight, self-setting needle, flat on one side, and cannot be put in wrong. **Needle Bar** is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. **Adjustable Bearings**—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. **Attachments**—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ½ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. **Woodwork** of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.
DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS
OUR GREAT OFFER. $23.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guarantee safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' test trial. We will ship C. O. D. for $19.50 with privilege of twenty days' trial on receipt of $5.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to any one at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.
Coupon No. 2970 Good for $5.00 If sent with order for Arlington Sewing Machine No. 55
Or make your order through the Herald, without extra cost
