Some Twentieth Century Work.

Dr. Edward Everett Hale, one of
the grand old men of the time, who
recently celebrated his 80th birth-
day, delivered a lecture recently in
which he mentioned five paramount
duties of the twentieth century as
following: First, the construction
of a four-track railroad from Salva-
dor to Patagonia, its main object
being to keep the human family
from being squeezed together too
much; second, the construction of a
similar line across Europe and Asia
opening up Siberia, giving a new
outlet to the "squeezed" people of
Europe, and allowing 100,000
Russian Jews to settle in the land
of their ancestors; third, the con-
struction of another road in pursu-
ance of Cecil Rhodes' great scheme,
from the Mediterranean to the Cape
of good Hope, fourth, the faithful
philanthropic treatment of the race
question, as presented by the negro,
the Indian, the Chinese and the
Malay; and, fifth, the advocacy and
bringing about of universal
peace.

All this may not be accomplished
during this century, but that long
steps will be made in these direc-
tions is probably not certain. Dr.
Hale must, in the course of nature,
soon pass away, but he speaks, as
he has for half a century, with the
voice of one who has the vision of a
seer.—Evening Telegram.

Skim Milk

Dairying is today, when intelli-
gently followed, the most profitable
line of business left to the farmer
in nearly every part of the country.
Yet in order to secure its greatest
return it is not only necessary to
have the dairy fitted out with the
most approved up-to-date appli-
ances for making butter, but also
to turn to the best account what are
properly called by-products, says
an experienced dairy man.

The user of a separator has a
very decided advantage over the
non-user. His milk is always
warm and fresh, besides being
thoroughly cleaned. Great care
should be taken to have the milk
reach the stock in this shape, as
therein lies at least twenty-five
per cent of the strength.

The Stock Farm and Home says:
"The value of skim milk for feed-
ing purposes is not fully understood,
and if one should state that it is
equal to whole milk it would be
taken by most people as a very
bold statement, and if it were said
that skim milk is superior to whole
milk for growing dairy calves, it
would be taken as conclusive
evidence that the speaker's mind
was getting the worst of wear, so
we will be content with simply
expressing a preference for separa-
tor skim milk. During the past
fifteen years we have raised an
average of twenty calves a year, and
may therefore be pardoned if we
think we know something about
calf rearing. They have been reared
expressly for the dairy and good
healthy growth, and not flesh mak-
ing, has been the object. A good
dairy calf will make growth at the
rate of one to one and a third
pounds per day."—Honestead.

Twenty-one Dead; Fifty More Dying.

Pittsburg, May 13.—Twenty-one
are dead and not less than 300 in-
jured as the result of the terrible
catastrophe at Sheriden last evening.
Of the 300 injured, the physicians
say at least 50 will die.

Spectators at a fire in railway
yards pressed too close, and when
three cars of oil exploded there was
no escape for them. Men, women and
children were wrapped in flames
and fatally burned. Before the ex-
plosion many were rendered uncon-
scious by the extreme heat and
gaseous fumes, and were being car-
ried away when the torrent of fire
burst upon them. A stream of the
escaping naphtha caused an explo-
sion at a point a mile and a half
away, wrecking three houses and
injuring many persons.

Don't Start Wrong

Don't start the summer with alin-
gering cough or cold. We all know
what a "summer cold" is. It's the
hardest kind to cure. Often it "barg-
ons" through the entire season. Take
it in hand right now. A few doses
of One Minute Cough Cure will set
you right. Sure cure for coughs,
colds, croup, grip, bronchitis, all
throat and lung troubles. Absolu-
tely safe. Acts at once. Children like
it. "One Minute Cough Cure" is the
best cough medicine I ever used,"
says J. H. Bowles, Groveton, N. H.
"I never found anything else that
acted so safely and quickly." R. S.
Knowlton.

A New York man has planted a
vegetable garden on the roof of his
five-story house, and the metal roof
instead of being exposed to the hot
sun is covered with green growth.
He not only raises all the produce
he needs but the layer of earth
makes the house remarkably cool.

Like a Drowning Man

"Five years ago a disease the
doctors called dyspepsia took such
hold of me that I could scarcely go,"
writes Geo. S. Marsh, well-known
attorney of Nacoma, Tex. "I took
quantities of pepsin and other medi-
cines but nothing helped me. As
a drowning man grasps at a straw I
grabbed at Kodol. I felt an im-
provement at once and after a few
bottles an sound well." Kodol is
the only preparation which exact-
ly reproduces the natural digestive
juices and consequently is the only
one which digests any good food
and cures any form of stomach
trouble. R. S. Knowlton,
The New Porto Rico.

Already in less than four years,
according to Mr. W. H. Elliott, Com-
missioner of the Interior for Porto
Rico, the Americans have built as
many miles of good roads in that
island as the Spaniards did in four
centuries. All the principal towns
have been connected by good roads
stone for surfacing, them being
abundant and convenient. Wages
of common laborers, he says, have
gone up, in consequence of public
improvements, from 18 to 50 cents
a day, in gold. The cost of trans-
portation has dropped, in some cases
several hundred per cent; automob-
iles are coming into fashion; and a
good deal of capital is being invest-
ed in sugar and tobacco lands, and
fruits, especially of the citrus vari-
eties, promise to be profitable crops.
Railroads are also being projected,
and in many ways the sleepy, in-
dolent, poverty-stricken island, as
it was under Spanish domination,
has awakened to a new life, and begun
a new era industrially and commer-
cially, as well as politically. Will
this transformation also be worked
in Cuba, under their semi-inde-
pendent government? And might
it not be worked, gradually, in the
Philippines, if the inhabitants would
accept the sovereignty of the United
States, as the Porto Ricans wisely
did?—Evening Telegram.

Most Again in Trouble.

John Most, editor of the anarch-
ist paper, the Freiheit, is again in
the toils of the law. So is William Mc
Queen, another fire-eating editor,
who publishes Liberty, a paper of
the same stripe as the Freiheit.
Both men were arrested Sunday
night at New Irving Hall, New York
City, where they had delivered fiery
addresses to overflow ng meeting of
four thousand. Captain Walsh, of
the New York police force, heard
Saturday morning that an anarchist
meeting was to be held in New
Irving Hall. Most, who is already
under conviction for publishing an
anarchist editorial, was named as
the principal speaker. He was ar-
rested by the Captain after his
speech.—Newspaper.

A Pioneer.

A. B. Collier, who died May 7,
at Independence, Or., from a stroke
of paralysis sustained two days be-
fore, was one of the old pioneers of
Coos Bay, and was well known by
all the old settlers. He was a native
of Iowa, and was 82 years of age.
He came to Coos Bay in 1857 and
settled on a farm on Coos river,
where he resided until 1881. There
he planted a large orchard and for
many of the earlier years this or-
chard was the main source of the
fruit supply for the bay. In 1881
Mr. Collier moved to South slough,
where he has since resided. For
several years he has been afflicted
with a cancer on the lip, and it was
to have this attended that he recent-
ly went to Independence, where
death overtook him. He was buried
at Buena Vista, in compliance
with his request.

Besides the widow, two daughters
and six sons survive him: Henrietta
Ansel M. W. A., John T. A. H. and
T. M. of this county; Orace G. of
Culver, Or.; Mrs. L. J. Powell, of
Wasco county; Andrew F. of Yaqui
Life Saving station.—Daily

who had little sympathy with it a
few years ago. The people going

ANNOUNCEMENT.

In another column of today's
issue appears the advertisement of
the wonder book of American pub-
lications—of the acme of the com-
pilers' and printers' art, where me-
chanical excellence, literary per-
fection and the zenith of accuracy of
detail are combined in a volume of
over 60 pages that sells at the pop-
ular price of 25 cents.

We refer to the 1902 New
York World Almanac and Encyclo-
pedia, better known as "The Stand-
ard American Annual."

And so it is. It is more to Amer-
icans than is "Whittaker's" to the
British.

By special arrangement with the
publishers of the World Almanac
we offer it in connection with one
year's subscription to this paper at
\$1.65.

The New Features enumerated
in the advertisement published to-
day are alone worth the price of the
book. Besides the features an-
nounced there are more than 1,000
facts touched upon.

Read the announcement and send
in your subscription.

ALL WOMEN

Wine of Cardui is the guardian
of a woman's health and happi-
ness from youth to old age. It
helps her safely into womanhood.
It sustains her during the trials
of pregnancy, childbirth and
motherhood, making labor easy
and preventing flooding and mis-
carriage. It gently leads her
through the dangerous period
known as the change of life.

WINE OF CARDUI

cures leucorrhoea, falling of the
womb, and menstrual irregularity
in every form. It is valuable in
every trying period of a woman's
life. It reinforces the nervous
system, acts directly on the gen-
ital organs, and is the finest tonic
for women known. Ask your
druggist for a \$1.00 bottle of
Wine of Cardui.

ALL CASES OF
DEAFNESS OR HARD HEARING
ARE NOW CURABLE
by our new invention. Only those born deaf are incurable.
HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:
Gentlemen—Being entirely cured of deafness, thanks to your treatment, I will now give you
a full history of my case, as to be used at your discretion.
About five years ago my right ear began to ring, and this kept on getting worse, until I lost
my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number
of physicians, among others, the most eminent ear specialist of this city, who told me that
only an operation could help me, and even that only temporarily, that the head noises would
then cease, but the hearing would be lost forever.
I then saw your advertisement accidentally in a New York paper, and ordered your treat-
ment. After I had used it only a few days, according to your directions, the noises ceased, and
today, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you
heartily and beg to remain
Very truly yours,
