Stewart Lyons returned from his business trip to Portland last week, bringing a fine, large engine for the Lyons sawmill at this place. This is a fine piece of machinery, he selecting the heaviest one of its size he could find. Paxson, the farmer and dairyman near town, thinks he has got onto the chief foot racer for the 4th or even for the fall races as to that matter. He discovered the chap in one of his cherry trees late one evening last week by the dogs barking in the direction of the tree. Mr. Paxson thinking there had some stock broken into the orchard, hissed the dogs in that direction and followed as rapidly as he could. When near the tree the chap in question dropped from the tree and lit out while the dogs gave chase but were unable to keep anywhere near him, and when the fence was reached he went over "all same deer."
