Big Real Estate Transaction.

Rumors of a big real estate deal in connection with the Great Central R. R. project have been rife for several days in Marshfield, and it can now be definitely stated that such a deal has been consummated.

Nearly 800 acres of land in one body, with a good water frontage on the bay has been bought by the Great Central Land Co., the corporation through which the Great Central R. R. Co., does its land business.

The purchase includes one hundred and thirty acres lying on the waterfront between the stave mill and the Porter mill, taking in the old slaughter house property, and situated about a mile from the business part of Marshfield belonging to the Flanagan estate; a string of six hundred acres just west of this city owned by C. H. Merchant; and a five hundred acre tract joining the Merchant land on the west and extending over to Pony slough, and belonging to the Flanagan estate. The price paid for the Flanagan land is \$50,000 and for the Merchant land \$12,000.

It can be stated positively that this is not a paper deal nor an option proposition, but a bona fide purchase, and indicates that there is something quite different from wind behind this railroad proposition.

Another project, which is not a vital part of the larger scheme, is the Belt Line Railroad, to start at Empire City and skirt nearly the entire circumference of the bay. The Belt Line Company has purchased two blocks in Empire City, taking in the old stave mill and the Cannon property, with the water frontage, and will go ahead with the construction of a wharf there. This line, as we have said, is distinct from the larger railroad project. If the latter is carried out the former will undoubtedly materialize, though perhaps not in its entirety at present.

It is understood that the options secured by Mr. Garrigus on land across the bay have not been taken by the railroad people.

The Mail has been charged of devoting much space to this railroad talk. It had and has no desire to get in and whoop up a paper boom; but on the other hand, it is glad to chronicle any indications that the big things in the air are likely to materialize.

The expenditure of the tidy sum of \$62,000 for one tract of land is certainly an evidence that there is something in the business. As to who is behind the proposition it is useless to inquire. That is a matter which, for obvious reasons, is kept from the public.

Of one thing the editor of the Mail can speak from personal acquaintance. Mr. J. W. Cook, president of the Great Central Land Co., who is now here representing that corporation, is a solid business man, not a boomer. For a number of years a resident of Los Angeles, he was a prominent member of the city council and made a record for business ability, energy and integrity. Later on business interests in the Bohemia mining district called for his presence there and he pulled a large mining proposition out of the hole it had got into. Disposing of his interest there, he has since resided in Portland, and he is now here as the representative of President Ross, who in turn represents the Eastern interests that are behind the Great Central R. R. Co. He has charge, as president of the Land Company, of that branch of the Railroad Company's business just now, during Major Kinney's absence, he also represents that gentleman, giving him charge of the entire railroad interests here.

It is difficult to write of this matter without making the article read like boom literature, which it is not. A cold statement of the facts in regard to this harbor make it plain that there is nothing unreasonable in the idea that one of the great railroad companies has fixed upon Coos Bay as the terminus of a trans-continental railroad. The simple, undeniable fact is that this is the best harbor between San Francisco and Puget Sound. Coos Bay or has a greater depth of water today than that of the Columbia River, and between the bars otherwise there is no comparison. Anyone who has ever crossed the Columbia bar will remember with dread the miles of broken water through which they passed with ugly shoals and breakers on every hand. No amount of money can ever make the mouth of the Columbia a good entrance.

On the other hand the Coos Bay is a short, straight shoot. From deep water on the outside to deep water and safety on the inside, a vessel passes in a few minutes. Further, the deepening of the channel to any required depth is an easy matter. The construction of the north jetty has given and maintained

a depth of about 26 feet. The building of the projected south jetty would doubtless increase this to 40 feet.

The harbor inside has ample room and good anchorage. The few shoal places toward the upper bay are simply "hogbacks," easily dredged. The dredging required each year on the Columbia between Portland and the sea would give better water in Coos Bay for twenty years. There is no large river emptying its sediment into the bay. The dredging done by the government several years ago has been a permanent improvement.

This only touches the matter. These facts are familiar to our people, so familiar that they form an old story, and we do not fully realize the importance of it. Yet it is a story of vital significance in connection with this railroad matter.

The fact is that while we have such a harbor, the idea of Coos Bay blooming out as the terminus of one or more trans-continental railroads, and one of the world's important harbors, from the standpoint of its shipping, is such a big one that we are slow to seriously admit it.

The experience of a former boom has its influence now, and it is just as well that it has. No matter what transpires, excitement or town-land madness is the last thing we want. Granting that big things are on the way, they may be a long time reaching us. If the present prosperous times continue events are likely to follow each other more rapidly than many now suspect. But we have no guarantee that a year or two years from now may not see a wave of reaction or depression sweeping over the country that would put a stop to all new projects of such magnitude as the one under consideration. Conditions never were so favorable as now for the carrying out of such a project, but how long will these conditions last?

As the Mail remarked the other day, however, these people have asked nothing from us. They have come here quietly gone about their business without asking any bonuses or other favors. They are spending some money here, which is certainly not a detriment, and now they are investing in a way that looks like business.

The Mail will endeavor to give reliable news as fast as it is available.—Coast Mail.

A YOUNG LADY'S LIFE SAVED.

At Panama, Columbia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter a prominent physician, of Panama, Columbia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by R. S. Knowlton.

Tactics of Trasy Used by Three Hobbes.

OGDEN, Utah, July 30.—Three hobbes coolly held up and robbed a passenger on the Rio Grande Western train who had stepped out on the platform of the Union Station here last night. A detective who went in pursuit of the robbers was in turn held up and relieved of his revolver, handcuffs and other paraphernalia and told to hurry away, which he did. A posse headed by several policemen took up the pursuit of the robbers. They came, up with them, and in the exchange of shots which followed P. H. Porter was severely wounded. The robbers then fled toward the hills north of the city. Bloodhounds from the state penitentiary at Salt Lake were telegraphed for and were put on the track of the robbers this morning.

Big Railroad Deal.

NEW YORK, July 30 Reports from San Francisco received here this afternoon state that the St. Louis & San Francisco has acquired control of the Chicago & Eastern Illinois. The directors of the Erie road, who were seen, refused to confirm or deny the report. H. H. Porter, who represents the controlling interests in Chicago & Eastern Illinois declines to discuss the matter. The San Francisco dispatches also stated that control of the St. Louis & San Francisco road now rested with the Southern Railway. A representative of J. P. Morgan & Co. denied this report.

Indian War Pensions.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the provisions, limitations, and benefits of the Act entitled "An Act granting pensions to survivors of the Indian wars of 1832 to 1842, inclusive, known as the Black Hawk war, Creek war, Cherokee disturbances, and the Seminole war," approved July 27, 1892, be, and the same are hereby, extended, from the date of the passage of this act, to the surviving officers and enlisted men, including marines, militia, and volunteers of the military and naval service of the United States who served for thirty days or more and were honorably discharged under the United States military, State, Territorial, or provisional authorities in the Florida and Georgia Seminole Indian war of 1817 and 1818; the Peche River Indian war of Illinois of 1827; the Sac and Fox Indian war of 1831; the Sable Indian disturbances of 1836, and 1837; the Cayuse Indian war of 1847 and 1848, on the Pacific coast; the Florida wars with the Seminole Indians, from 1842 to 1858, inclusive; the Texas and New Mexico Indian war of 1849 to 1856; the California Indian disturbance of 1851 and 1852; the Utah Indian disturbances of 1850 to 1853, inclusive, and the Oregon and Washington Territory Indian wars from 1851 to 1856, inclusive; and also to include the surviving widows of such officers and enlisted men: Provided, That such widows have not remarried: And provided further, That where there is no record of enlistment or muster into the service of the United States in any of the wars mentioned in this Act the record of pay by the United States shall be accepted as full and satisfactory proof of such enlistment and service: And provided further, That all contracts heretofore made between the beneficiaries under this Act and pension attorneys and claim agents are hereby declared null and void.

Approved June 27, 1902.

The Secretary of the Interior has issued an emphatic denial of the statement that politics will have any effect on the selection of sites for the irrigation reservoirs to be established under the recently passed irrigation law.

Miss Alice Roosevelt, who has been spending some time in the Adirondacks, near the point from which her father started on his rapid trip to Buffalo, after President McKinley's death, has been presented with one of the horseshoes worn by the team driven by Mr. Roosevelt on his way to the railroad station.

Cripple Creek, Colo., is to be the scene of one of the largest mining undertakings ever inaugurated. It will consist of a tunnel fourteen miles in length through mountains believed to bear the richest ore and will tap a number of mines already in operation.

Few people realize that Alaska sends to the United States products valued at \$15,000,000 per annum. They consist of gold to the amount of \$8,000,000, fish to the amount of \$6,000,000, and furs to the amount of \$1,000,000. The total value of the products brought from Alaska to the United States since its purchase, according to the Bureau of Statistics, will exceed \$150,000,000.

It is related that Edmund Burke was once taken to task by one of the supporters of the government, one George Onslow, who charged that in attacking the ministry Burke had insulted the king, to be which replied: "The honorable member has exhibited much energy but little discretion. He should know while I honor the King I am not at all bound to honor his ministers. I may honor his majesty but, sir, I see no possible reason for honoring his majesty's man servant and maid servant, his ox or—(looking at Onslow) his ass."

To My Friend.
It is with joy I tell you what Kodol did for me. I was troubled with my stomach for several months. Upon being advised to use Kodol, I did so and words cannot tell the good it has done for me. A neighbor had dyspepsia so that he had tried most everything. I told him to use Kodol. Words of gratitude have come to me from him because I recommended it.—Geo. W. Fry, Viola, Iowa. Health and strength of mind and body depend on the stomach, and normal activity of the digestive organs. Kodol, the great reconstructive tonic, cures all stomach and bowel troubles, indigestion, dyspepsia. Kodol digests any good food you eat. Take a dose after meals. R. S. Knowlton.

No White Butter.

Charles Y. Knight, secretary of the National Dairy Union, writes the Homestead as follows, under the date of July 12, 1902:

"The new oleomargarine law went into effect July 1st. Oleomargarine is now the color of white tallow. A great deal of farm butter has come to this market so white in color as to be mistaken by consumers for oleomargarine.

"Kindly advise your readers that unless they want their butter sold as packing stock they must color it as to resemble June butter. Otherwise consumers in the cities because of repeated misrepresentations made to them, will believe it to be oleomargarine and refuse to buy it.

"If uncolored or white butter is made in the future it will entirely counteract the effects of the new law, because if people become accustomed to eating white butter they will easily be deceived by oleomargarine swindlers. The salvation of the butter business depends upon keeping up the standard color of butter to distinguish it from oleomargarine."

Now we are simply up against it. Mr. Knight says we must color butter—that is farm butter that is white—to represent June butter—white yellow butter—or some dealers will represent to their customers that it is oleomargarine, and they will refuse to buy it. The pure food men, or most of them, tell us that it is dangerous to color any food because some coloring matter is poisonous and chemists cannot tell, by analysis, the poisonous from the non-poisonous, and some unscrupulous manufacturers use poisonous coloring matter because it is cheaper and a little poison "won't hurt." Where are we?—Pacific Homestead.

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by R. S. Knowlton.

A St. Louis judge has rendered a most sensible decision in which he says: "Any dog has a legal and undeniable right to bite any man, woman or child who purposefully and with intent to disturb said dog's tranquility in a peaceful and quiet place, or cause to be attached to said dog's tail a tin can or other weight which will impede the progress of said animal."

The Sault Ste. Marie Canal, popularly known as the "Soo," contains the largest lock of any canal in the world. In passing through the canal vessels practically ascend or descend an 18-foot stairway and 25,000,000 tons of freight have passed through the canal in a single year.

ALL WOMEN

Wine of Cardui is the guardian of a woman's health and happiness from youth to old age. It helps her safely into womanhood. It sustains her during the trials of pregnancy, childbirth and motherhood, making labor easy and preventing flooding and miscarriage. It gently leads her through the dangerous period known as the change of life.

WINE OF CARDUI

cures leucorrhoea, falling of the womb, and menstrual irregularity in every form. It is valuable in every trying period of a woman's life. It reinforces the nervous system, sets directly on the genital organs and is the finest tonic for women known. Ask your druggist for a \$1.00 bottle of Wine of Cardui.

Batesville, Ala., July 11, 1900. I am using Wine of Cardui and I feel like a different woman already. Several ladies here have been the medicine in their homes all the time. I have three girls and they are using it with me.
Mrs. KATE BROWDER.

ARE YOU DEAF? **ANY HEAD NOISES?**
ALL CASES OF
DEAFNESS OR HARD HEARING ARE NOW CURABLE
by our new invention. Only those born deaf are incurable.
HEAD NOISES CEASE IMMEDIATELY.
F. A. WERMAN, OF BALTIMORE, MARYLAND.

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.
About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.
Then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain
Very truly yours,
F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.
Examination and **YOU CAN CURE YOURSELF AT HOME** at a nominal cost.
advice free.
INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL.

A \$65.00 Machine for \$18.50
Cash with Order and Coupon

The Improved "Arlington" Sewing Machine
NEW HOME STYLE
LATEST BEST CHEAPEST
Shipped to anyone, anywhere, on 10 days' free trial, in your own name, without asking one cent in advance.
10 years' written warranty with each machine.

A strictly high-grade Sewing Machine is furnished throughout the world in the best possible manner. It possesses all modern improvements, and its construction is such that it is combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast, and makes a perfect finish with all kinds of thread and all classes of material. Always ready to wear and unrivaled for speed, durability and quality of work. Notice the following points of superiority:

The head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bell plate has rounded corners and is inset or counter sunk, making it flush with top of table. Highest Arm—sews under the arm in 3 1/2 inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle in cylinder, opens an end, entirely self-threading, may be put in or take out; bobbin holds a large amount of thread. Stitch-Regulator is on the back of the machine. Beneath the bobbin winder, and has a scale showing the movement of spools; never fails to take spools through; never stops at seams; movement is positive; no spring to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—fills the bobbin automatically and perfectly without holding the thread. Machine does not run while winding bobbin. Light Perfecting—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not unravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit threads from 12 to 30 good cottons without changing. Needle is a straight, self-setting needle, flat on one side, and cannot be put in wrong. Needle bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened, steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruler and gatherer, one binder, one shirring plate, one set of four hemmers, different width attachments—each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruler and gatherer, one binder, one shirring plate, one set of four hemmers, different width attachments—each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruler and gatherer, one binder, one shirring plate, one set of four hemmers, different width attachments—each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet
