The little theatre occupies the upper story of the handsome residence of Mr. Thomas Walsh who built it for the accommodation of the "Drury Lane Club," of which his young son is leader and organizer.

During a sudden and terrible attack of croup, our little girl was unconscious from strangulation, says A. L. Spafford, postmaster, Chester Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and soon the child was resting easy and speedily recovered. It cures coughs, colds, lagrippe, and all throat and lung troubles. One Minute Cough Cure lingers in the throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. R. S. Knowlton.

Mr. Alexander C. Hutchinson, of New Orleans, died recently and a very pretty story has come to light. Mr. Hutchinson was a capitalist, a railway president, a captain of industry; his manners were harsh and repellent to all who appealed to him for charity, but after rebuffing the applicant he would secretly investigate the case, and if found worthy immediate and generous relief came from an unknown source. He never let his right hand know what his left was doing.

Messrs. Cox, Grimes and J. W. Leneve made our town a business call on Sunday last.

It is becoming quite popular to meet with some accident. Now, you will always find us in the swim trying to "ape" the popularity of others. On Friday of last week at about 4 o'clock p. m., while cleaning away some logs on a steep hill side we were caught in a genuine mantrap. By cutting a small sliver a log 24 inches in diameter and about 24 feet long, which was lying above us was loosened and came crashing down upon us. There was no way of escaping, therefore we laid down on the ground under the approaching log and bade farewell to earth and earthly things. The crash came and we were badly crushed, yet for some unknown cause God saw fit that we should live. Aside from the many external bruises we are yet suffering from internal injuries. How severe they are is yet to be seen. We are able to move around the house by aid of DOXA ANSA.

Croup. The peculiar cough which indicates croup, is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by R. S. Knowlton.

Most people regard water as a mere solvent food, but the better opinion of the scientists seems to be that water is itself a food, and that its natural combinations in plants and vegetables are needed by the stomach.

Mr. Bryan's Paper.

The Commoner, Mr. Bryan's paper, will be especially interesting and instructive during the present session of congress. The action of this congress will probably determine the issue upon which the next presidential campaign will be fought. The Commoner proposes to carry on a campaign of education and organization to the end that Democratic principles may triumph.

In addition to the editorial department, which receives Mr. Bryan's personal attention, The Commoner contains a Current Topic department, wherein a non-partisan discussion of topics of timely interest and other valuable information will be found. The Home Department is conducted by an experienced woman who is widely known as a writer of household topics and who is an authority on the art of cooking in all that the term implies. This department alone is worth the subscription price. The other departments of the paper are all interesting and ably conducted, among which is a summary of the world's news told in narrative style, and Mr Meppin's department—Whether Common or Not—contains original anecdote and wit, moral lessons in homely phrase and verse, and appeals to old and young alike.

The Commoner as a whole is clean, entertaining and instructive, and its rapid increase in circulation—now amounting to 140,000—is proof of the paper's strength and influence.

Arrangements have been made with Mr. Bryan where by The Commoner can be supplied at a very low rate with the HERALD both papers for one year for \$2.15. This offer applies to both new and renewal subscriptions, and should be taken advantage of without delay. All orders should be sent to the HERALD office, Coquille, Or.

A Scientific Discovery. Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. R. S. Knowlton.

The receipts of the Boys' and Girls' Aid Society for the two years ending January 10, were, in aggregate, \$13,633.75; its disbursements were \$615.44 less. During this period 361 children in need of care or requiring restraint have been taken in charge. The work of the managers and the superintendent has been carefully and conscientiously performed. Its written records are open to public inspection. Its unwritten record is held in trust by those who can understand its subtle meaning in good citizens and happy home-makers, evolved from wayward or neglected boys and girls who were the recipients of its care and discipline.—Oregonian.
