We wish to announce to the dairymen that we will pay 28 cents per pound for butter fat for January and February. S. M. NOSLER, Prop. Rev. Adolph Haberly, of this place, returned the latter part of last week from a trip to Medford, his former residence, whither he had gone to make final proof on a timber claim. He was fortunate enough to be there at the reception given the minister who came in to take his place. He enjoyed a visit among old friends very much. The Fisher Company, which has been occupying the boards at Marshfield for a week, will go to Bandon today where they will appear for several nights, and next Monday, February 2nd they will begin here for a week's run. This is said to be far the best company that has ever struck this county, and should receive a good house every evening. W. A. Barnett, of Arago, who has spent the past year in Washington and eastern Oregon, came in to see us yesterday, having arrived three weeks ago. He visited Rook Robinson as he came through the Dallas. Rook's folks are well and enjoying themselves. Mr. Barnett expects to return to that section next season, having interested himself in land matters while there. He expects to engage in grain raising when he gets located.

BORN.—In Coquille City, January 27, 1903, to Mr. and Mrs. Aaron Wilson, a bouncing baby boy. Miss Doll Fox, of the Daily Coast Mail, was over to see her folks and friends the latter part of the week. The Enterprise is advertising a good roads meeting to take place at Johnson's hall in Myrtle Point next Friday. A car load of brand new furniture for C. M. Skeels, this week to go in his new store in the Odd Fellows building. New music and music books constantly received at the music store of Chas. Grissen, Music Co., Odd Fellow's building, Marshfield, Ore. For International Stock and Poultry Food, the best preparation to keep your herds and flocks in fine condition, see R. S. Knowlton, the druggist. McDonald, the barber, has just received a full stock of barbers' supplies of the finest quality which he sells at bottom prices, as well as a big supply of Newbro's Herpicide. STRAY HORSES.—Two bay mares, one about 10 and the other 4 years old, have been about the place of Chas. H. Banel, on Kinck creek for several weeks and should be looked after by their owner. Our city wharf is somewhat disarranged by the late flood and will require some attention at once. There should be quite a number of large piles driven deeply to give it stability during high water. S. J. Tattle, of this place, who has been very low for several weeks took a turn for the better last week and rested quite well for several days, but yesterday and today he is not feeling so well. J. R. Stillwell, of Arago, was in town yesterday. He informs us he is again launching out in the fine fowl business. He has a flock of thoroughbred Buff Plymouth Rocks and will fill orders for eggs at \$1 per setting. The crowned heads of every nation, the rich men, poor men and misers, all join in paying tribute to Dewitt's Little Early Biscuits. H. Williams, San Antonio, Tex., writes: Little Early Biscuits are the best I ever used in my family. I unhesitatingly recommend them to everybody. R. S. Knowlton. Owing to heavy weather at sea and the large tide at the bay, water comes up so high that some of the lowest business houses on the water front in Marshfield had several inches of water in them yesterday morning, being the highest the water ever known to be there in the history of the town. Mrs. D. Donovan and daughter, of Coaledo, were in to see us one day last week and told us of the success of Mr. Donovan and son George in killing a large wildcat over on the isthmus lately. It was an extremely large animal of the kind—in fact, the largest, ever seen by all those who saw it. The boy shot the varmint with a shotgun and it came near getting away with a good dog before they dispatched his catship. A. B. Dean had rather a singular experience while out near the Odd Fellows' cemetery with his team. It seems that one of the horses got over an underground channel, cave or something of the sort and broke through, and before the animal could clear himself he went down head first and in a moment there was nothing to be seen of the creature except his ears. A boy hurried to town and got a couple of men to assist and they succeeded in rescuing the animal alive, but somewhat bruised and hurt and possibly seriously injured.

Ed White Escapes at Salem. Salem, Or., Jan. 21.—Ed White, a trusty convict in the penitentiary, ran away this afternoon. He was serving a term for burglary in Coos county. He was received about five years ago and had about four years yet to serve. By his good conduct he had earned the privileges of a trusty, and was employed as assistant druggist. He was of middle age, 5 feet 11 1/2 inches tall, weight 165, dark-brown hair and mustache, blue eyes, medium complexion and regular features. When he left the prison he wore the convict stripes, with No. 4152 on each garment. He is very deliberate in speech and pleasing in manner. He has cut scars on the first and third fingers of the right hand. The escape is not due to any negligence, as an escape is possible at all times under the trusty system. Our Late Storm. The heavy rainfall of Thursday, Friday and Saturday gave us the highest water on Sunday we have had since 1890. Our mails are a day behind, and our railroad is unable to run trains farther this way from Marshfield than Coaledo, the track being mostly under water from here to that place, and, we are informed, very badly washed out of position in many places. About all the damages done in this part of the valley is done to the railroad. On the upper river the railroad has suffered even more than in the past, and the farmers have lost considerable fencing. The long trestle approaching the railroad bridge near the mouth of the North Fork is considerably wrecked and damaged. The trestle at Cedar Point is also removed from its foundation, and near the McAdams place there are two or three slides onto the track, while near Coaledo a large tree fell across a bridge cutting in two. The long trestle on which the track from John Peart's coal mine runs from the hill to the main track was taken a half mile down the river which will be a big drawback to Mr. Peart just as he was getting his mine in good working order, and will cause him much delay. We have heard of no stock being drowned, but there must have been some at least. However, the rains came on slowly and with plenty of warning, giving the people a good chance to look after all live stock. In short, outside of the railroad and Mr. Peart there has been much more good than harm done by the high water. Academy Notes. Little has happened at the Academy this week out of the usual order. Several subjects are being furnished and tests are being given. The five young ladies of the Normal class are preparing for the February examination. We have in this class some excellent teaching material. The school has commenced preparation for an entertainment to be given in a month or six weeks. More about this later on. We still have several in the Commercial class and they are doing some excellent work. The coal famine has been raised and we have coal now to supply our wants. Our new black boards are in position and will soon be ready for use. Allen Dodge, the efficient railroad station agent at Myrtle Point, accompanied by his estimable wife, were in town today. The special school meeting held last Friday for the purpose of voting a special tax for school purposes carried by a vote of 80 to 3. This means that the present term of school under the successful management of Prof. Hawkins will continue for several months. There is nothing which speaks in louder and stronger terms for a section than good school advantages, and we are not behind on that this year. With the Academy accommodating about 40, some outsiders and some of our town's children, the public school building has been able to hold all pupils of this district and a few outsiders who applied before the Academy started, but it is full enough for good service and the work being done is fully up to the standard in all points. Following is a testimonial from a person who has tried the Co-ro-mu medicator thoroughly and knows its merits. All sufferers from otarrh should investigate: Oak Creek, Ore., Jan. 13, 1903. Mr. Wm. Oddy, Camas Valley, Ore. Dear Sir:—Enclosed find 50 cts. for which please send me another bottle of medicine for my Mediator. I have been using it three months and I believe that it is going to cure me of my deafness. I have so deaf for many years that I could not hear the clock strike right over my head. Now I can hear the clock tick at times. Yours truly, FRED PRICE, Oak Creek, Ore.

(Myrtle Point Enterprise.) There will be a meeting of the farmers and others interested in good roads at Johnson's hall, Friday, January 23, 1903, at 1:30 p. m. Everyone should attend. Frank VanBebber, of Nemo City, has bonded the Jamieson mine on Sixes river. Mr. VanBebber will operate the mine on a large scale and things will be more active this year in the Sixes than ever before. Much development work will be done and quite a rush to the Sixes is expected when springtime comes. It is also reported that coarse gold diggings have been discovered in Elk river and this will add to the excitement. Many years ago Chinese miners took out considerable gold from the Elk river country, but of late years that region has been neglected. There are many who believe the country very rich and it will now be thoroughly prospected. The farmers connected with telephone line down the river met at H. L. Carl's Monday evening and formed an association which will be known as the Farmers' Telephone Co. No. 1. H. L. Carl was elected manager and treasurer. The line will be completed to W. H. Schroeder by next Monday, and the following subscribers have been secured already: Carl Bros., the Joe Root place, J. T. Dunlap, J. H. Barklow, J. C. Lett, J. S. Lafferty, W. H. Schroeder and J. W. Clinton. This will give the farmers free communication with the Myrtle Point exchange and will be a great convenience to this town and that section. The farmers deserve much credit for the interest they have taken in the matter and are to be commended on this marked degree of enterprise. Bandon Records. Miss Elma Nelson has been suffering from pneumonia for from pneumonia for some days past, but has been improving the last three days. John Mierana, of Portland, was looking after his interests in connection with the jetty improvement for which he has the contract. He left yesterday on his return home. Dairyville is coming. That is, the Dairyville Cornet Band will do Bandon on St. Valentine's day, Feb. 14. The band will give a dance here on Saturday evening the 14th, and one of the features of the occasion will be a street concert. Brick and Tile. C. S. Laughhead is making preparations to open a brick yard and tile factory on Chas. Doane's place on Catching slough. This is something that is badly needed on the bay. Is the right sort of material can be found and properly worked there will be plenty of demand for the product.—Mail. Dislocated Her Shoulder. Mrs. Johanna Sodeholm, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by R. S. Knowlton. How desperately the old bosses do fight to retain control of the machinery governing the selection of men for official position! In Wisconsin the stalwarts have been won or forced over to all the reforms urged by Governor La Follette, except that of direct primary nomination of candidates. That is a blow that would put the old-guard politicians out of business and give the people a show in the management of public affairs, therefore on every sort of pretext it is opposed by a strong faction of the Republican party and it is by no means clear that the Governor's ideas will be put in the form of a law this Winter, though two state Republican platforms have explicitly indorsed them and the voters have twice ratified them at the polls. The bosses die hard, which is a very good reason why there should be no delay about relieving them of their heavy duties.—Oregonian. Coquille City is to have a well-equipped harness shop in the near future. The Marshfield mail now arrives late on account of high water and bad roads. It is reported that old Sugar Loaf mountain above Myrtle Point, is again threatening to slide. Buff Plymouth Rock Poultry Farm, J. R. Stillwell, Prop. ARAGO, OREGON. Throughbred cockerels from \$1 up, and eggs \$1 per setting. Also Scotch-Collies pups of the very finest strain on sale.
