The following is the order of services at the Methodist Episcopal Church, Sunday Feb. 8th, 1903: Bible study at 10 o'clock A. M.; Preaching at 11 o'clock A. M., a lecture, The North American Indian, how he came to this continent. A cordial invitation is given to all. A special invitation is given to non church-going people. W. H. Myers, Pastor.

Senators Miller, of Linn; Kaykendall, of Lane; Dimmick, of Coos; Myers, of Multnomah; and Pierce, of Umatilla, refused to saddle the expense on the taxpayers of extra clerks whose services they did not stand in need. This is good as far as it goes. It is more frequently the people suffer from what our representatives do than from what they do not do. As a matter of course, there are a great many things which should be done, if done properly, but no legislation is better than wrong legislation.

At the Hatchery.

Frank Smith, superintendent at the Coos river hatchery, has been spending a day or two in town. He reports that the high water did but little damage at the hatchery, though it caused decided inconvenience for himself and assistant.

On Saturday night the water came into the hatchery building and up within 8 inches of the troughs. Had it raised above the troughs it would have been all off with the young salmon. Some troughs which were located outside had to be taken in and a few young fish were lost.

The water was 4 feet deep in the cabin used as a dwelling house, and Frank says he got breakfast Sunday morning with a life preserver on.

Whether the rack in the river washed out or not, cannot be determined until the water goes down.—Mail.

They will cleanse and invigorate your stomach, regulate your bowels, give you a relish for your food and make you feel that in this old world is a good place to live. For sale by R. S. Knowlton.

The U. S. Civil Service Commission reports that for the year ending June 30, 1902, there were 14,983 persons appointed from its registers. This was 4,692 more than was ever before appointed in a single year. Anyone wishing information about these positions, can secure it free by writing for the Civil Service announcement of the Columbian Correspondence College, Washington, D. C. The Commission will hold examinations to secure young men and women for these places during March and April, at Pendleton and Portland. Many people do not know that these appointments are made without political influence and that a large share of them are filled by those having only a common school education, but such is now the case.

Preparing for the Oregon Number.

Mr. B. J. Watson is now in Oregon, to obtain on the spot information and photographs for the Oregon Number of the Pacific Coast Miner, which will be dated February 21.

Mr. Watson is a California pioneer in the fields of both mining and journalism, having been identified for more than a generation with the mines and newspapers of California's banner gold county—Nevada county—also also, in a broader way, with the mining industry and journalistic profession of the Pacific Coast region.

Outside of California his acquaintance is especially intimate with the mining men and interests of Oregon, he having been engaged in mining in eastern Oregon for several years. Everything coming from his pen will be intelligently and conservatively expressed, as have been all the descriptive articles on California mining districts which he has contributed to the Pacific Coast Miner during the past two years.

Any information furnished or courtesies extended to Mr. Watson will be appreciated the same as if they were extended direct to the Pacific Coast Miner.—Pacific Coast Miner.

A Scientific Discovery.

Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. R. S. Knowlton.

Mr. Bryan's Paper.

The Commoner, Mr. Bryan's paper, will be especially interesting and instructive during the present session of congress. The action of this congress will probably determine the issue upon which the next presidential campaign will be fought. The Commoner proposes to carry on a campaign of education and organization to the end that Democratic principles may triumph.

In addition to the editorial department, which receives Mr. Bryan's personal attention, The Commoner contains a Current Topic department, wherein a non-partisan discussion of topics of timely interest and other valuable information will be found. The Home Department is conducted by an experienced woman who is widely known as a writer of household topics and who is an authority on the art of cooking in all that the term implies. This department alone is worth the subscription price. The other departments of the paper are all interesting and ably conducted, among which is a summary of the world's news told in narrative style, and Mr. Maupin's department—Whether Common or Not—contains original anecdote and wit, moral lessons in homely phrase and verse, and appeals to old and young alike.

The Commoner as a whole is clean, entertaining and instructive, and its rapid increase in circulation—now amounting to 140,000—is proof of the paper's strength and influence.

Arrangements have been made with Mr. Bryan where by The Commoner can be supplied at a very low rate with the HERALD both papers for one year for \$2.15. This offer applies to both new and renewal subscriptions, and should be taken advantage of without delay. All orders should be sent to the HERALD office, Coquille, Or.

During a sudden and terrible attack of croup, our little girl was unconscious from strangulation, says A. L. Spafford, postmaster, Chester Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and soon the child was resting easy and speedily recovered. It cures coughs, colds, lagrippe, and all throat and lung troubles. One Minute Cough Cure lingers in the throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. R. S. Knowlton.
