It is claimed that the railroad managers are doing Myrtle Point a great injustice by not repairing the track and roadbed so as to be able to run trains to that place. Delicate Surgical Operation. An operation was performed yesterday on John Pierce, who has been lying sick and partially paralyzed at the Central hotel for some weeks. His physicians found that the paralysis was caused by pressure on the brain and for the relief of this, the operation was performed by Dr. Mings, assisted by Drs. Gross, Straw and Horsfall. The head was shaved, and after antiseptic precautions were taken a horseshoe flat was made over the fissure of Rolando. A cut was made down to the bone and the skull was trephined, a piece of bone about one half an inch in diameter being taken out. The membrane of the brain was then opened and a considerable amount of fluid escaped. The wound was closed with interrupted sutures of silk. The brain tissues looked normal and healthy, and although Mr. Pierce is 62 years of age there is a good prospect of his complete recovery. The operation was a very delicate one, much more so than is usually performed outside a fully equipped hospital. Lee Items. Beautiful weather at present and everyone around here is improving the time by building fences and planting garden, etc. Several logging camps are running at full speed in this vicinity. The ceremony was performed by Justice of the Peace W. H. S. Hyde, in an impressive manner. Many valuable gifts were received and hearty congratulations were extended to the happy couple. A sumptuous wedding dinner was spread to which all the guests did ample justice.
