The Corporation License Tax.

The mining men of Eastern Oregon are much dissatisfied with the Eddy bill enacted by the last Legislature, which imposes a tax on all corporations doing business in the state in proportion to the amount of capital stock, and propose to invoke the referendum in order to defeat it. Petitions for signature have been received here, but have not yet been circulated. The Times interviewed Dr. Hines in regard to the matter, and finds that he believes the new law a good one. It will have a tendency to cut down the vast capitalization of mines. Stock with a face value of, say, \$1,000,000, is issued on a mining prospect, and sold at any price from 1 cent on the dollar up, just in proportion to the "business" of the party who can be induced to buy. It is a favorite way for separating people from their money, and the bill was passed with a view to checking it.—Forest Grove Times.

Telephone Meeting at Arago.

The members of the Fishtrap Telephone Company met at Arago on the 20th, to further complete its organization. Mr. L. R. Robertson, manager of the Pacific Coast Telephone Company, was present and gave a very interesting address in regard to the relation of the two companies. While there he received applications for 19 telephones. Several of the stockholders were not present.

D. Morgan was asked to resign the office of treasurer and to take the management of the line which he did. The officers now are, Alex Stauff, president; R. S. Tyrrell, secretary; F. W. Wright, vice-president; C. T. Robison, treasurer and D. Morgan, manager.

A constitution and by-laws were adopted. Stock subscriptions are delinquent one half the 25th to the present month, and one half the 15th of April. A repair and incidental expense fund is provided for in the by-laws, by an annual assessment of 25 cents per share, which may be remitted when there is \$50 to the credit of this fund in the treasury. A large portion of the stockholders present paid part or in full of their subscriptions. The meeting adjourned to meet sinit die. This is a move in the right direction, and it will only be a short time until we will have telephone connections with our neighbors at Fishtrap.

Mr. Bryan's Paper.

The Commoner, Mr. Bryan's paper, will be especially interesting and instructive during the present session of congress. The action of this congress will probably determine the issue upon which the next presidential campaign will be fought. The Commoner proposes to carry on a campaign of education and organization to the end that Democratic principles may triumph.

In addition to the editorial department, which receives Mr. Bryan's personal attention, The Commoner contains a Current Topic department, wherein a non-partisan discussion of topics of timely interest and other valuable information will be found. The Home Department is conducted by an experienced woman who is widely known as a writer of household topics and who is an authority on the art of cooking in all that the term implies. This department alone is worth the subscription price. The other departments of the paper are all interesting and ably conducted, among which is a summary of the world's news told in narrative style, and Mr. Maupin's department—Whether Common or Not—contains original anecdote and wit, moral lessons in homely phrase and verse, and appeals to old and young alike.

The Commoner as a whole is clean, entertaining and instructive, and its rapid increase in circulation—now amounting to 140,000—is proof of the paper's strength and influence.

Arrangements have been made with Mr. Bryan where by The Commoner can be supplied at a very low rate with the Herald both papers for one year for \$2.15. This offer applies to both new and renewal subscriptions, and should be taken advantage of without delay. All orders should be sent to the Herald office, Coquille, Or.

SEVERE ATTACK OF GRIP.
Cured by One Bottle of Chamberlain's Cough Remedy.
"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." Foot of Snow Falls.

Milwaukee, Wis., March 23.—Despite the advanced season, Wisconsin today experienced one of the worst snow storms of the Winter. Reports from several cities in the interior are to the effect that nearly a foot of snow had fallen up to midnight. Railroad traffic on most of the lines is seriously delayed and the mails throughout the state are from one to seven hours late.

To all intents and purposes the American demand for British coal is now over, according to the London correspondent of the Tribune. At any rate, the inquiry has fallen flat and such shipments as are now going forward are mainly the fulfillment of all orders.

We have made arrangements with the publishers of the AMERICAN FARMER by which we are able to offer this great farm paper and the Herald for the price of the HERALD alone—\$1.50, for the next 30 days. Who will be the first to take advantage of this opportunity? This is a great offer for our farmers and dairymen.

The amount of space some newspapers are giving to the Burdick murder case, the proceedings of which are telegraphed all over the country at great expense, it pretty good indication of dull times in Urban journalism.

Senator Spooner has been mentioned to this, as a Presidential possibility with Quay as his backer. Perhaps greater nonsense never found its way into the columns of ordinarily intelligent journals.

A Kansas publication says that if its legislators would never do anything more serious than throw paper balls and waste paper baskets at each other the state would have occasion to rejoice.

Washington, D. C., is not to have an anti-spitting law. The commissioners who control the District probably realize that members of Congress would set the people such a bad example it would be impossible to enforce the law.
