light is about to be shed on the saved the lives of more people and trust and all the other problems which perplex the statesmen of this country. The graduation classes are already preparing their commencement-day exercises.

The difficulty of damaging a war baloon in mid air has just been demonstrated by a German experiment A baloon, anchored at an altitude o 7,000 feet, was fired at twenty-twtimes before in was hit and then i was so slightly injured that it san very slowly.

A United States counsul in Germany reports that not only are the larger agricultural implements manufactured in this country used in Germany but such small things as hoes, rakes, spades etc., bearing the names of American manufact urers are commonly used there.

There is a deep public interest in the current Postoffice investigation. Fraudulent advertisers have been permitted the use of the mails, le gitimate newspapers have been denied newspaper rates while illegitimate newspapers enjoyed them, and various other abuses have been per-petrated all of which it is expected, will be corrected by these investiga-
