A Wonderful Invention.

It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to benefit the people and meet popular conditions, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, '99.

These wonderful combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used in connection with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days' time. Thousands of these electric combs have been sold in the various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich selling these combs. They positively sell on sight. Send for sample. Men's size 35c, ladies' 50c—half price while we are introducing them. See want Column of this paper. The Dr. White Electric Comb Co., Decatur, Ill.

Ex-First Assistant Postmaster General Health is disgraced, his political career is ended forever; but with blame let us mingle pity. He is the victim of an unrepentable bad system. Had he been made of sterner stuff he would not have been victimized. Had he been made of the best stuff he would never have been made Assistant Postmaster General for Hanna. When he accepted the office he was given seven thousand people for whom places in the postal service had to be found. The promise had been made by Hanna and McKinley fresh from successful campaigns. To find places for the republican party of the United States of Ohio was a big contract. Mr. Heath was appointed to carry out this contract, hence his soap goat attitude.

Undertakers and coroners test dead bodies to ascertain if life is extinct, by the application of a lighted match. If the resultant blister fills with water they know that life exists. The New York coroner recently tried the experiment just preparatory to an autopsy, and the supposed dead man sat up and shouted, "Leave me alone, Stop that, I say."

When the long list of specific charges of corruption in the Washington postoffice made by Seymour W. Tulloch was read to Postmaster General Payne, he said to the thirty newspaper correspondents assembled in his office, "Tell your papers the Postmaster General just laughed."

A California young man has just been made heir to a fortune on the simple condition that he marry a New Jersey girl. Who wouldn't own \$400,000 under such delightful conditions.

To collect a dollar of duty costs the government 3 cents. To collect a dollar of internal revenue costs 1 1/2 cents.

Drain Normal.

The third commencement of the Normal under the present management occurs Thursday, June 11th. The year has been the most prosperous of the three, and the attendance the best.

In February we sent a large class before the county board of examiners, all of whom passed with good margins. One state certificate resulted.

Calls for teachers have been greater than before and have far exceeded the supply.

The review class will be continued; it has been a boon to many.

We have a business course unsurpassed in the state. It is fascinating, thorough, and practical.

Our graduates succeed as teachers.

Every department of work is strong, and our students are of the best.

Drain is still a state school, supported by state appropriation, issuing diplomas that have a meaning in Oregon. No sham work is done. For information address J. H. ORCUTT, President.

Very Remarkable Cure of Diarrhoea

About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by R. S. The said proposed diking district is described as follows to-wit: Lots 1, 2 and 3, the North half of the Northeast quarter, and the Northeast quarter of the Northwest quarter of Section 17; the East half of the Southwest quarter, and the Southeast quarter of Section 18; Lot 1 of Section 16; Lots 3 and 4, the Northwest quarter of the Southwest quarter, and the Southeast quarter of the Northwest quarter of Section 9, all in Township 28 South Range 14 West of Willamette Meridian, and situated in the County of Coos State of Oregon, containing 660.38 acres, of which 352.25 acres are owned by your petitioners:

Wherefore your petitioners pray that this Court appoint three disinterested persons who are non-residents of the said proposed diking district as viewers to view out and survey such dikes and dams in said proposed diking district as to said viewers shall seem proper and expedient, and to provide for the placing of the dike already constructed in thorough repair and up to a uniform standard, and make report to this Court of their doings, as by law required:

That this Court make an order directing the Clerk of this Court to cause to be published for four successive weeks in the official newspaper of this County, this petition, and a notice to interested parties fixing a time for the hearing of this petition and the report of the viewers:

That upon the hearing of this petition and the report of said viewers this Court make an order declaring the said premises as corrected, viewed and surveyed by the viewers, a diking district and thereupon appoint from among the land holders and owners thereof a Superintendent of such diking district. And your petitioners will ever pray etc.
