C. C. A. Notes.

The Academy roll was increased by six new names Monday. Of these Mr. Wilcoxon, lately from Kansas, furnished an installment of three. Young Mr. Hodge and his sister from Arago, also Miss McAdams who attended last year until the weather became so bad she could not come so far. We are glad to learn that she lives nearer by at present and we hope she may be able to attend regularly throughout the winter. Our Commercial class are still waiting on supplies, but those already enrolled are doing work with what supplies they have. Others will enter as soon as supplies arrive and we shall look for them now every day. We are glad to announce that we have added to our teaching force Miss James lately from California. She is a graduate of the California Normal School at Los Angeles and comes well recommended. She will assist in the lower grades and do some work in the upper grammar grades. If we can secure enough of the lower grades to justify Miss James will take them into a separate room where her undivided attention will be given to them. This ought to be inducement sufficient to parents with small children to send them without delay. Such children will have splendid opportunities if we can only give them a room to themselves with such a teacher as Miss James. To this end the management is willing to make some sacrifice. We had, on Monday morning, a visitor in the person of Miss Gulverson, a graduate of the Portland High School, who has been teaching in an adjoining district. She is a very intelligent lady and we hope she may seek further employment in Coos County schools. We also enjoyed a brief visit from Miss Nellie Fairman and her sister. It will be remembered that Miss Fairman did advanced work with us last year and also that her sister Miss Lena Fairman belonged to our Normal class. Miss Lena, we understand, has taught two schools since she left us. We are also glad to chronicle a visitor from Miss Lizzie Price who rendered assistance in teaching last year, took advanced work, and who has successfully taught school on Cunningham during the summer months. We shall expect new arrivals every week until the middle of this term after which we shall settle down for this term and the next. Then we shall hope to accomplish our best work.

We are playing freezeout for want of coal just at the present but this distress will be relieved in a short time and hope it will not occur again. Absence of a supply here and at the mine is the explanation. Mr. Church's class in shorthand and typewriting failed for want of support. We offered room, light and fuel to help the class along and are very sorry that a sufficient enthusiasm could not be aroused to make the class a success as it would doubtless be of substantial benefit to those who learn the art. New York, Oct. 16.—Broughton Brandengurg and his wife, of this city, went to Italy recently and returned in the steerage to study the immigration problem from a personal standpoint. He asserts that he discovered at Naples a band of men through whom counterfeit credentials could be purchased, which made introduction of disease into this country an easy matter. Cause of Lockjaw. Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nails, and when the air excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all dangers of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by R. S. Knowlton.
