Mining and Real Estate Agents  
Eckley, Curry County, Oregon.  
HAVE valuable Mines, Farms, Stock Ranches and Timber Lands for sale.  
House and 4 acres of land well improved Wilbar, Douglas county, Or., for sale. exchange for property in Myrtle Point.

1904  
  
SEASON  
Let's Wade Right into the Subject.  
The 1904 season will be the greatest bicycle season ever known. The finest equipped and most up-to-date wheels that Coquille riders ever laid their eyes on will be kept in stock at right prices, and if you want one may so.  
We want your trade, and we are entitled to it, because we have good goods, right prices, and can serve you well. You don't expect any more, but you want that much, don't you?  
To be brief, try us and our goods, and our way of treating you, and if you like us try us again. We want your business. Enough said.  
**Fish Bros**  
Coos Bay  
Marble and Stone Works  
C. W. PATERSON, Prop.  
Manufacturer of Marble Monuments, Headstones, Tablets, etc.  
Society lots enclosed with stone coping or curbing. Iron railings furnished to order. Correspondence solicited from parties living in the country or other towns who may wish anything in my line of business.  
To the Unfortunate  
**Dr. Gibbon**  
This old reliable and most successful specialist in San Francisco, still continues to cure all forms of Seminal Diseases, such as Gonorrhoea, Syphilis, in all its forms, Skin Diseases, Nerve Debility, Impotency, Seminal Weakness and Loss of Manhood, the consequence of self-abuse and excesses producing the following symptoms: Yellow countenance, dark spots under the eyes, pain in the head, ringing in the ears, loss of confidence, diffidence, in approaching strangers, palpitation of the heart, weakness of the limbs and back, loss of memory, pimples on the face, consumption etc.  
DR. GIBBON has practiced in San Francisco over 41 years and those troubled should not fail to consult him and receive the benefit of his great skill and experience. The doctor cures when others fail. Try him. CURES GUARANTEED. Persons cured at home. Charges reasonable. Call or write.  
DR. J. F. GIBBON,  
829 Kearney street, San Francisco

MASSACRE BY YAQUI INDIANS.  
Denver, Feb. 4.—A News special from Guaymas, Mex., says: Passengers arriving from Ortiz on the Sonora railroad brought the first of a terrible outrage committed by Yaqui Indians.  
The stage which runs between Ortiz and Las Cruces was held up by savages and all on board, numbering six persons, were killed. Among them were Salvador Flores and his nephew, Francisco Flores. They were both prominent in Sonora. There were 15 Indians, according to the recollections of Francisco Flores, who did not expire until he was picked up by a party of vacqueros traveling in the opposite direction.  
When the massacre was discovered, officers in charge of the garrison at Ortiz were notified and a detachment of mounted troops has gone in pursuit of the Indians.  
The circus trust has decided that no longer will parades be given, because they are a great deal of trouble, unnecessarily expensive and are of no particular benefit to the circus. Hereafter if the small boy wants to see the elephants he must dig up his four-bits or take the chance of being "soaked" with a club in hands of a canvasser as he sneaks under the tent. And the people from the country, how they will be disappointed, too! The parade was always worth as much to them as the big show itself. By this decision the circus trust will do more to unite the common people against the grasping trusts than all the combinations of Morgan, Schwab and Rockefeller combined.—Telegram.

**The Lost Measure.**  
WRITTEN FOR THE HERALD.  
The day was dark and dark without,  
Within was noise and pattering;  
Discordant notes rang all about  
To staze one by the clutter.  
Then summoned I unto my aid  
The muse with voice so charming.  
Not knowing to this merry maid  
Such discord was alarming.  
Verse followed verse in tuneful rhyme  
Each stanza growing sweeter,  
The movement all in perfect time,  
And such a lovely metre.  
In stanza five poetic James,  
Which fire the heart with pleasure,  
Were all aight and burning bright,  
But O! I lost the measure.  
No transforms that I could devise  
Would bring success about,  
And as I wiped my weeping eyes  
I threw that stanza out.  
Then thought to woo the maid again,  
To win her from displeasure  
But she had fled with cry of pain  
At discord in the measure.  
And thus perchance one faltering step  
May life's fond hopes discover,  
And drive the angst from our breast  
To bid no more forever.  
E. B. P.  
Hiverton, Oregon.

**A Wonderful Experience.**  
"Block the Limited. There's a man on the cowcatcher."  
This message, flashed along the Pennsylvania line, told the story of a railroad accident just outside of Chicago last Thursday which nearly cost a man's life and which trammels say was almost unprecedented in their experience.  
John Hancrow, while crossing the tracks in Park Manor, was caught from his feet, hurled in the air, recaptured on the cowcatcher, and while the train sped on nearly a mile a minute he saved himself by wrapping his arms around the iron beam in front of the engine. Two of his ribs and one of his legs were broken, yet in spite of a freezing tempeature he clung for four miles unable to get a signal to the engineer and fireman, who were only a few feet behind him.  
Not until telephone messages were sent ahead and the train was stopped at the River Line station was the man rescued. Hancrow will probably recover.

**Tips Train Over.**  
Denver, Feb. 1.—A special to the News from Idaho Springs, Colo., says:  
A passenger train on the Colorado & Southern Railroad, which left Denver this morning for Georgetown, was wrecked by a gale. Two coaches and a combination baggage and express car being blown over and badly damaged. The engine and tender remained on the track. Four of the train crew and one passenger were injured.—Oregonian.

**Man in Jail Has a Serious Time.**  
Eugene, Or., Feb. 2.—In the police court Saturday Albert Prince and R. Benson were fined \$10 and \$15 respectively for being drunk and disorderly. Benson was placed in jail about 1 o'clock Sunday morning and Prince a few minutes afterward. Before Prince arrived Benson had set fire to the bedding in one of the iron cells but it did not begin to blaze until after Prince had been locked up in the cell. Shortly afterward a patrolman heard cries coming from the jail, and unlocking the outer door of the jail to investigate the cause, was almost suffocated by the smoke which was pouring out of the cell which Prince was occupying. The man was found lying on the floor in an unconscious condition. The smoke had almost suffocated him. A physician was called and after considerable work, resuscitated him.

**A Dangerous Decision**  
Last week Mrs. Kennedy-Kramer, on trial a second time for the murder of her first husband, P. H. Kennedy, in January, 1901, was found not guilty by a jury at Kansas City, Mo. At her first trial she was convicted and sentenced to ten years in the penitentiary. This conviction was reversed on a technicality. Mrs. Kennedy's defense was "emotional insanity," and the verdict of acquittal was found solely on the ground that Mrs. Kennedy was insane when she shot her husband, but the jury found that "the defendant has since regained her sanity," which will save her from being sent to an insane asylum. This decision is not only exceedingly absurd from a scientific point of view, but it is exceedingly dangerous to the public safety. It is the resuscitation of the old defense of "momentary insanity" which has no standing whatever in the English courts and no standing in the courts of New England or of New York for the last thirty years.—Oregonian.

**World's Fair Notes.**  
Idaho Day at the World's Fair will be Sept. 6.  
Indiana's poultry exhibit at the World's Fair will consist of 1,000 birds.  
The Chinese pavilion at the World's Fair is receiving the staff decorations and other ornamental work. The big dragons on the facade present a startling and striking appearance.  
A Dayton, O., car company will exhibit at the World's Fair two handsome railroad coaches, all of the timbers and finishing lumber of which were made from catalpa trees grown on a farm near Dublin, Ind.  
The Nevada World's Fair Commission has already secured splendid specimens of 118 varieties of minerals found in that state, all of which will be exhibited at the World's Fair.  
Work on the Festival Hall, the last of the important exposition buildings, is progressing with great speed. Weather conditions have been such that the contractors have lost but little time.  
A prize of \$100 has been offered by Director of Works Taylor to the one who suggests the best point of vantage from which to view the glories of the World's Fair. The competition is open to the world and will close June 15, 1904. Communications should be addressed to the secretary of the Exposition.  
A company of Milwaukee men have organized and applied for a concession to install fountains in various parts of the World's Fair grounds and sell mineral waters, ice cold, at a penny a glass. The exposition management has installed many drinking fountains and filtered river water will be supplied free.  
In order to be thoroughly equipped to handle the increased railroad traffic incident to the World's Fair, the Western Union Telegraph Company is stringing three new wires between St. Louis and Terre Haute, Ind., to be used exclusively by the Big Four and Vandallia Lines.

**Note and Comment.**  
That erratic creature, George Francis Train, is dead. He called himself "King of Cranks."  
An ichthyosaurus has been found in Chile. It was dead,—had been dead. Professor W. H. Wright says, more than a million years.  
Three or four people have mentioned Governor Taft for President. Besides his less obvious qualifications, he comes from Ohio.  
One firm in London issued 1,400 entirely new sets of Christmas cards; 1,000 in colors and 400 in processes of black and white and monochrome.  
It is reported that Consul-General Gudgeon will succeed Buchanan as minister to Panama and that he will be decorated with a \$10,000 salary.  
Great Britain's parcels post enables a citizen of Scotland to send it from Washington to Baltimore. Why should not we try to be up to date in such matters?  
A good deal of November talk goes on in Congress just now. Boutell, Republican, of Ill., and Williams, Democrat, of Miss., spent all of Tuesday in setting up pins for the campaign.  
Seventeen members of the Board of Education of Kansas City, Kansas have been indicted for bribery. They have to hold their meetings in jail until their bail can be arranged by a concentration of the rake-off.  
Iowa has more banks per capita than any other state in the Union, and banking is her most profitable business. She has 1,231 banks, and the annual net dividend is 17 per cent. At any rate Iowans say so.  
It is said that the engineers in the Missouri University have perfected an invention which makes the arc light talk, by the transmutation of light and sound waves. The flame acts as receiver and transmitter.  
It is proposed to abolish the office of Adjutant-General of the Army. This would be too bad. Since its expensive Corbinization it has been highly ornamental and picturesque. What will become of the gorgeous uniforms?  
The people of Oregon have raised \$2,000,000 for an exhibition in Portland in 1905, the 100th anniversary of the great exploring expedition of Lewis and Clark across the continent. Congress will be asked to shell out a few millions.  
J. Pierpont Morgan owns pictures in London valued at \$1,620,000. One-third of this money was paid by him for a madonna. If he brings them home the duty will be \$324,000. Why should not the tariff on works of art be abolished?  
The Mothers' Congress is to hold conventions in Chicago and St. Louis during May. All members must be constructive mothers, including old maids who hope to be mothers and old bachelors who would be mothers if they could.  
Senator Gorham's friends fear that he has somewhat injured his chances for the Democratic nomination by taking too active a part in the Smith-Rayner-Carter-Miles-Jackson squabble for the Senatorship in Maryland. Well, there are others.  
John Wanamaker, former Postmaster General, says that all parcels could be carried for one-twelfth their present cost if it were not for four obstacles—the four express companies in this country. Are they more important than the people?  
Boston wants 5,000 weather maps daily. It thinks that the larger and more complicated the maps are the more they will tell about the weather. Besides they possess an art value as impressionist pictures which only a Boston admirer of Corot can appreciate.  
The three-cent fare proposition triumphed in Mark Hanna's home, Cleveland, Ohio, but Judge Wing has issued an injunction against enforcing the law. It has the mild name of a "restraining order" and runs till February 13th. Then we shall see.  
What's in a name? An Indian on the Pawnee reservation was named Coo-rux-rub-rub-ruk-koo—which would make a first rate college cry for Harvard. The literal meaning of it was "Fearing-a-bear-that-wild." So he got the Indian agent to write him down "Fearing B. Wilde," and he has opened a grocery store.  
Mr. Bryan spoke to a vast audience in New York on Tuesday night, in defiance of the "reconstructionists" and in hot advocacy of the last two national platforms of his party. Whereupon the five Democratic Congressman of New England unite in a statement that the Bryan idea will not be supported by any of the eighty-two Democratic votes from New England in the national convention.

**Two for the Price of One.**  
We have made arrangements with the publishers of the AMERICAN FARMER by which we are able to offer this great farm paper and the HERALD for the price of the HERALD alone—\$1.50, for the next 30 days. Who will be the first to take advantage of this opportunity? This is a great offer for our farmers and dairymen.  
The Southern Oregon State Normal School begins this year's work September 16th. A large working library has been added; the physical and chemical laboratory has been fully equipped; a new gymnasium building is being erected, and a large and handsome school building is nearing completion. The school grounds are beautiful and picturesque. The health conditions are of the best; the social environment is pure and stimulating; the course of study has been strengthened and made more practical. The faculty has been increased in number and the school is now equipped to do work of the highest order. This school belongs to Southern Oregon. It desires and merits the patronage of the people of this great section. For catalogue address, BENJAMIN F. MULKEY, President, Ashland, Oregon.

WANTED.—Live agents to sell Dr. White's Electric Combs, patented Jan. 1, 1899. Cure dandruff, hair falling out, and nervous headaches, yet costs no more than an ordinary comb. Sells on sight. Agents are wild with success. Send 50 cts for sample (half price). Write quick. The Dr. White Electric Comb Co., Decatur, Ill.  
Chamberlain's Stomach and Liver Tablets. Unquestioned for Constipation.  
Mr. A. R. Rime, a prominent druggist of Baxter Springs, Kansas, says: "Chamberlain's Stomach and Liver Tablets are, in my judgment, the most superior preparation of anything in use today for constipation. They are sure in action and with no tendency to nauseate or gripe. For sale by R. S. Knowlton.

King Peter, of Serbia, brought to the throne by the assassination of King Alexander and Queen Draga, now proposes to abdicate and permit the powers to name his successor. Decent nations have made "the head that wears the crown" very uneasy since the tragedy.  
The decline in the Securities of the United States Steel Corporation during a year has been dramatic—in many cases tragic. Preferred stock sank from 90 to 50, and common from 40 to 10. Its fixed annual charges are \$70,000,000. It must earn at least \$8 per ton and sell 9,000,000 tons during this year to pay expenses. There are 80,000 melancholy stockholders.  
The new Times building in New York is to be an electrical and mechanical wonder. Steam will be used only for heating at five pounds pressure. The great building will contain 111 motors of 900 horse power, and 4,000 incandescent lights. The cooking for the employees will be done by electricity, which will also heat curling irons for the women working in the building. The presses will be run by electricity and we shall naturally look for an increase of lightning in the editorials.  
Senator Latimer of South Carolina spoke vigorously in behalf of his bill for an appropriation of \$4,000,000 for good roads to be distributed among the states, according to population. He said that the farmers bear the largest proportion of the burdens of government, considering their means, and receive the least of its benefits; that the \$700,000,000 spent by this country in war during the last five years would have built macadamized roads through every county of the United States, and that, with \$250,000,000 lying idle in the Treasury, the people of the rural district should have some benefit from it.

**A Cure for Eczema.**  
My baby had Eczema so bad that its head was a solid mass of scabs, and its hair all came out. I tried many remedies but none seemed to do any permanent good until I used DeWitt's Witch Hazel Salve. The Eczema is cured, the scabs are gone and the little one's scalp is perfectly clean and healthy, and its hair is growing beautifully again. I cannot give too much praise to DeWitt's Witch Hazel Salve.—Frank Farmer, Bluff City, Ky. In buying Witch Hazel Salve look out for counterfeit. DeWitt's is the original and the only one containing pure Witch Hazel. The name E. C. DeWitt & Co. is on every box. Sold by R. S. Knowlton.
