Mrs. Alex Stauff and son, James, returned from Marshfield yesterday whither they had gone to accompany Willie Stauff, that far on his way to California where he goes on a trip for his health. A recent letter from down the coast furnishes the information that there were four inches of snow on the ground, and also that there were several cases of smallpox in the vicinity of Beguel ferry, the whole family of J. F. Lowery having just recovered. R. O. Kirkpatrick, of this city, is manufacturing an absolutely waterproof blacking for harness and foot wear, of which a great many of our loggers are taking advantage, and which it would pay more to do. It is simply perfection for boots which are to be used in mud and water. Frank B. Allen, H. Lyman and Walter Skelton, of New Jersey, were in town this week enroute to Eckley. Mr. Allen has bought the Tichenor tract of land near Eckley, which is said to have rich deposits of coal. The property was purchased at tax sale by another party previous to Mr. Allen's purchase and there promises to be some lively litigation before the matter is settled.—Enterprise.

The Bandon schools in compliance with the requests of the committee on educational exhibits for the St. Louis Exhibits have forwarded a collection of sea-shell, agates, starfish, and many other curiosities gathered along the ocean beach. Works of art, decorated with shells and agates, prepared by the pupils, specimens of drawing, photographs of the school and classes, and regular daily class work constitute a portion of the Bandon exhibit.
