#### Bancroft Items.

EDITOR HERALD. As I have seen no items in your paper from our vicinity I will write to let our friends know we are not asleep.

Myrtle creek has been a scene of busy activity the past few days. The recent heavy rains which brought to their aid the snow from the mountains, made our little creek to assume the airs of a roaring river.

E. G. Murray, who had undertaken the moving of the Dietz and Fish logs into the lower river, had a crew of hands ready to guide the sturdy representatives of the Myrtle creek forests through the narrow places and over the falls at Fish's mill. Several times they threatened a serious jam, but prompt and efficient blasting sent them on their way.

C. F. Waterman and Mark Hardman have run out some fine logs, and still there's more to follow.

T. S. Evernden gets needful exercise in removing landslides and rebuilding culverts.

C. D. Price has lost a number of lambs and a number of grown sheep during the late storms.

Mr. Camp, who came here from Louisiana in November, has built a roomy house on his homestead.

#### Roast Chestnuts Free.

The Post Office appropriation for the ensuing fiscal year will be about \$175,000,000, or twice what it was eight years ago. The Postal deficit grows each year on account of illegitimate fourth class matter.

The Spanish treasury has a surplus of \$60,000,000 this year—the largest ever known since King Philip. This is explained by the fact that during the last five years Spain has lost valuable possessions!

Some voracious persons in London have organized a "Spiritualistic Business Company, Limited," for the purpose of trading on tips obtained from above through mediums—or perhaps from below. They expect to have a cinch on the next Derby and will then go and break the bank at Monte Carlo.

"X-rays will turn a black man white. And make us all in color equal." The fact is interesting, quite. But what may be the dreadful sequel? For Tillman 'tis a bitter pill: "The Dev!" he cries in accents polished. "By Jove! I'll introduce a bill and have these dem'd X-rays abolished!"

Mr. John Pierpont Morgan owns over two millions dollars' worth of pictures in Europe. If he were to bring them home to delight and instruct our people, we should charge him nearly half a million dollars for the privilege! If this is a tariff for protection whom does it protect? Our native artists, like our picture-buyers, want the absurd tax abolished.

Macaulay says that Plutus Hamstrings Pegasus—i. e., that wealth paralyzes the Muses. Sometimes. Not always, Louis Lombard, founder of the American conservatory of music, and president of the musicians at Columbian Exposition in 1893, married a daughter of millionaire Thomas Allen of St. Louis, bought of a Russian nobleman a vast estate on Lake Kugano, Switzerland, and now writes books there and turns out high class music.

Governor Taft predicts a period of great activity in railroad building in the Philippines. He says the Filipinos are very active and ingenious. He does not inform us who will own the bonds after the railroads are built. There are ninety-six Filipino students studying in California schools, and they are continually cited as examples to their young American associates by their teachers as "models of gentleness, thoughtful politeness, morality, studiousness, and seriousness of studiousness, of purpose."

### Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by R. S. Knowlton.

Judge Schroeder, of Arago, had bad business in town yesterday. The Judge informs us that he was successful in securing the brick machine for which he went to the bay last week. While he finds that the clay which they propose to work is exceedingly hard to handle, he is positive it is first-class material for brick, and is sanguine of success with a little experience and proper machinery. One stratum of the clay he purposes using is doubtless a fine quality of fine clay, and in case this should prove the case, and they should be successful in getting it properly manufactured, it will put a product on the market that will be highly appreciated as good brick are scarce on this coast.

The Largest Mail Order House in the West.

The new fashion catalogue of mens' womens' and childrens' apparel, household supplies, etc., issued by Weinstein, Lubin & Co. Sacramento, Cal., is the handsomest book ever sent out by them. Many of the illustrations are works of art. The book is free, and valuable to have, whether one cares to buy or not.

Weinstock, Lubin & Co. do the largest mail order trade in the west. That is proof that their goods, prices, and service are of exceptional merit.

### Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kaubla, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspeptic Cure for about four months and it cured me."

Kodol Digests What You Eat and relieves the stomach of all nervous strain and the heart of all pressure.

Bottles only \$1.00. Six holding 2 1/2 times the trial size, which sells for 50c.
