JUNE NUMBER.

New Idea Woman's Magazine. A number of new features characterize the June issue of the NEW IDEA WOMAN'S MAGAZINE. Among them may be mentioned especially "Perdita's Problems," the first of a series of papers by Alice Clibbenden, telling how a small family may live comfortably on a moderate income. "Summer Comfort" is another interesting paper by Maud Murray Miller. "A Glimpse of Capri," by Jean B. Stearns, is a charming tale of travel. "A German Bride's Outfit," by Mabel A. Potter, is both instructive and entertaining. In fiction, theatrical news, domestic science and interior decoration, the number fairly teems with good things, and the illustrations fitly supplement the text.

Fontilla, and the leading brands in cigars at Mrs. Nosler's. Three papers of garden seeds for percents, at Knowlton's.

The Empire Stock Company will be the next attraction at the Opera House in three of the greatest plays ever written. This is the only repertoire company which can produce the latest eastern play successes which are now big hits in the east and which have never been played before at popular prices. Nothing cheap but the price.

A Frightened Horse. Running like mad down the street dumping the occupants, or a hundred other accidents, are ever day occurrences. It behooves everybody to have a reliable Salve handy and there's none as good as Bucklen's Arnica Salve. Burns, Cuts, Sores, Eczema and Piles, disappear quickly under its soothing effect. 25c, at R. S. Knowlton's Drug Store.

There are undoubtedly a few so-called "spring" salmon in the bay at present, and there has been an occasional little run of these fish for the past few weeks. What good reason can be advanced why the fishermen are prevented from catching some of them? The season is closed here until August 1, at which time these fish have all passed beyond the fishing limits, and even if not protected by law would hardly be fit for food. Formerly the season opened here July 1, and residents of Marshfield can remember when Harry Graves used to then supply the market with as fine a quality of salmon as Rogue river or the Columbia could boast of. But is there any good reason why the fishing season shouldn't open here the 1st of June? Salmon caught during that month and in July are as far ahead of the Fall salmon as a Columbia river Chinook ahead of a Silverside. Not only the local fisherman, but the residents of the bay should move in the matter, and we have no doubt but that the authorities, if the situation is properly presented, will sanction the changing of the open season to June 1. On the Umpqua, where conditions are similar to those here, the season opens on June 1. Why shouldn't it open here on the same date?—Coos Bay News.

Weak Hearts. Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D. Kauble, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."
