The Herald's Special Dispatches.]
 SAN FRANCISCO, Jan. 5.—Pilot boat J. H. Allen, with pilots Barber and Rogers and four others aboard, cruising nine miles southwest of the heads, last night, was struck by the British bark Sir William Wallace, bound for this port from San Pedro, and sunk in twenty fathoms of water. A gale was blowing at the time, and though the men on the Allen had seen the bark and another vessel a short time before and were making for them at the time, the fog was so thick that it was not known they were running close together until the collision occurred. The Allen was struck on the port bow and sunk in a few minutes. The men all escaped and were brought here this morning. Loss about twelve thousand dollars.

PEACE ON THE KLAMATH.

Dougherty Promises to Obey the Court's Summons.

Crescent City Record, Dec. 24.]
 From reports received from the Klamath we learn that Sergeant LaForet did not go to Hoopa as was first supposed. He went up the river a short distance, and pulling his canoe into the brush hid until Sheriff Endert had returned from up the river, when he returned to his quarters, after the sheriff had departed for Crescent City, where he remained several days, having Indian scouts on the lookout to give him notice of the approach of any officer. From parties lately up from Klamath we learn that LaForet threatened the Indians who paddled the sheriff up the river, that he would arrest them and take them to Hoopa for aiding that officer in doing his duty. Since then it was learned that the gallant sergeant departed for Hoopa, but meeting a detachment of ten soldiers on his way up the river, he returned with them to the mouth of the river. Deputy Sheriff Lockwood, on hearing of his arrival, went down on Wednesday to the quarters, where he met the sergeant, and reading the warrant, informed him he was under arrest, but as the soldiers commenced gathering around their officer, and that officer informed the deputy that he would resist arrest, he was obliged to leave without his prisoner. The deputy started at once for Crescent City, where, upon his arrival and stating the facts, great excitement prevailed. A posse of men were secured, who were to leave on Thursday to arrest the sergeant and bring him to Crescent City. But upon a consultation being held by the sheriff and other officers of the county, it was thought best to send a messenger to Captain Dougherty, a Hoopa, asking that he issue an order to the sergeant to deliver himself up to the civil authorities, and avoid all chances of an encounter between the sheriff's posse and the military. Sheriff Endert went down on Thursday to arrest LaForet if possible, and if not to see that a messenger was dispatched. From a letter received by Judge Murphy, from Captain Dougherty, acting Indian agent, which we place before our readers, it will be seen that the rights of the civil authorities are recognized.
 HOPE VALLEY AGENT, CAL.,
 December 18, 1886.]
 For James E. Murphy, Judge Superior Court—Dear Sir: I have received through the mail, from Sergeant J. L. LaForet, the non-commissioned officer, who represents me, in my official capacity, at Hoopa, a notice to appear in your honorable court on or before the 11th of January next, also a copy of an injunction purporting to restrain me in certain of my official orders and acts; and I have the honor to inform the honorable court that, notwithstanding the insufficiency of the service, which is waived, I hope to have the honor of being present to answer in your honorable court before the expiration of the time declared in the summons, and will not fail in such appearance unless prevented by sickness or other exigent necessity, or prohibited by my military or other superiors. I am, sir, very respectfully, your obedient servant,
 WILLIAM E. DOUGHERTY,
 Captain First Infantry, Commanding and Acting Indian Agent.

FEMALE CRIMINALS.

Interesting Statistics Issued by the German Government.

Full Mail Gazette.
 Statistics just issued by the German Imperial Statistics office regarding the prevalence of crime during the year 1885, show that the number of criminals was in that year four or five times smaller than that of males. During 1885 281,788 males were convicted of miscellaneous infractions of the law, while the number of females were only 61,359. It is noteworthy that there were 7 convictions among unmarried males to one among unmarried females; among married persons the proportion was 3 to 1, while widows and widowers were convicted in equal proportion. It appears too, that among unmarried persons the criminal tendencies of the sexes become more and more equalized with increasing age. Thus, while among persons of 18 to 40 years the male criminals are to the females as 8 to 2, among persons of 40 to 50 years the proportion falls to 4 to 1, and among persons above 50 years old it is 3 to 1. The reverse is the case with married person, for the difference in criminality is here least between the ages 18 to 25 years. From the 25th to 60th year the proportion is 4 to 1, and then crime increases to the disadvantage of the males. Considering female crime alone, it is found that the most criminal age is from 40 to 50, and next to that is from 40 to 50. Statistics for the years 1882 to 1885, show that female crime prevails most in the Duchy of Anhalt, the Principality of Schwarzburg-Sondershausen, and the kingdom of Saxony, and the least criminality is found in the government district of Munster and the Wurttemberg district of Waidshut.

Shocking Disaster on the Cincinnati Viaduct.

A SPAN OF THE BRIDGE COLLAPSES

A Car and Eight Workmen Precipitated Eighty-Five Feet—Another Shocking Railway Disaster.

The Herald's Special Dispatches.]
 CLEVELAND, Jan. 5.—A span of the new Central viaduct, now being constructed, which is to connect the South Side with the city proper, fell this afternoon. It was ninety feet long and eighty-five feet above the ground. The large car upon which the supplies were was pushed off the end of the span by accident, and in falling knocked the braces and beams out of place, and the span went. Eight workmen were on the span when it fell. The killed are Harry Burton and an unknown man. The wounded are John Bourdieu, burned by steam in the hands and face; Eugene Hantam, slightly injured; Alexander Blank, injured internally; Charles Ortiz, engineer, injured internally.
