NOTES ABOUT TOWN.

Uncle Tom's Cabin Jan. 21. N. H. Allen is in the metropolis on business.

A fresh lot of cream cheese at Parker Bros. Trains are running somewhat irregularly on the O. & C.

R. A. Rumpy, banker of Harrisburg, was in the city Tuesday. Beware of slippery places. Get a Traveler's accident policy of Winn.

Before you go skating have Winn write you an accident policy in the Traveler's.

Three hundred tons of ice have been put up in this city for next summer's use.

Boston brown bread is among the cold weather luxuries at Parker Bros. bakery.

Agent Stuart, of the Oregon Pacific Co., has returned from a ten days' trip to southern Oregon.

About four inches of snow is reported at Summit, on the Oregon Pacific railroad, and none at Yacuma City.

Dr. Gunderson wishes to announce that he will be absent in Portland until Friday on professional business.

R. Murphy, who slipped and fell while unloading ice a week ago and severely sprained his leg, is expected to be again about.

The warm south wind, before which the snow and ice is rapidly disappearing, is most welcome to the average Oregonian.

The immense stock of boots and shoes at A. B. McIlwain's is being slaughtered at twenty-five per cent. discount on each and every dollar's worth sold.

Owing to the inclement weather several of the Episcopal clergy were unable to reach this city, and consequently the convocation services have been indefinitely postponed.

Dr. Gunderson's office is at present at the corner of Baker and Third street, where he is prepared to treat all kind of diseases to which male and female is subject. Catarrh treated successfully.

Messrs. Franklin & Co. have opened in connection with their second hand store a first-class tin shop, and will hereafter be in the field for contractors and all other work usually connected with the business.

The Willamette Packing Co.'s store is one of the most attractive in the city. Its proprietors keep on sale the fine fruits carried by the company during the past season, and also a choice stock of family groceries.

The Pyke comic opera company will positively appear in this city on January 25th and 26th in two of their latest successes, "Black Mantle" and "Nanon," which plays were produced to packed houses in Portland. The company is even stronger than when last in Albany and the public can expect a great treat.

Now is the time to subscribe for newspapers and magazines for 1888. E. L. Kenton continues to receive subscriptions for all the leading periodicals, saving subscribers the trouble, risk and expense of sending direct to publishers. Orders left at the store of Kenton & Chase will receive prompt and careful attention.

Lecture To-Night. Mrs. Col. Springer will deliver an address at the M. E. church in this city this evening on the subject of "Home Missions." She is spoken of by the press as a talented and eloquent lecturer. All are cordially invited to attend.

No Humbug About This. It is a straight business proposition, easily comprehended and worth giving attention to, that the entire stock of boots and shoes at A. B. McIlwain's is now offered at twenty-five per cent. discount. This sale is positive, as the entire assortment is offered without reserve at this slaughter in prices.

Lower Freight. The following dispatch from San Francisco, of date January 14th, will be found of interest to wheat growers, inasmuch as it is likely to affect the price of the cereal for the better in this valley: "Wheat freights have dropped to such a low figure that wooden ships are rapidly obtainable to go to Liverpool direct for twenty shillings per ton. The German iron ship Richard Wagner has just been chartered for twenty-one shillings per ton, the lowest rate ever paid for an iron ship going to England. Ship owners ask twenty-eight to thirty shillings per ton for vessels to come here from England, and twenty-one and twenty-two shillings from Australia."

Will Remove to Albany. The Salem Sentry is responsible for the following statement: Walter Holman goes to Albany some day this week to assist in putting in the new electric light plant of N.H. Allen. He will make his home there and have charge of the lines when completed.

A Grand Motto. Mr. S. C. Mott, advance agent of the Pyke Opera Co., is in the city arranging for their appearance here on Jan. 25th and 26th. The entire company, forty strong, will positively be here on that date and with them all the old favorite stars as well as several new ones.

Cloaks, jackets and winter wraps at cost or less at Monteith & Seitenbach's.

THE WEATHER MODERATED.

A Condition of Things Satisfactory to Oregonians—The Ice Gorge Broken.

During the past twenty-four hours the thermometer has shown a moderation in the weather of about twenty degrees. This has caused a general thaw and breaking up of the frozen condition of things which has for the past several days been sending a shiver down the spine of the average Oregonian.

The overflowed fields south of the city were still visited yesterday by scores of skaters, and the ice men were still hauling large quantities for next summer's use. The Willamette, which was gorged with ice, is again partially opened, a channel having been cut through by the current.

Indications now are that the freeze-up is at an end. Farmers who have been disturbed for the sake of fall and winter grain will be glad to see it, as will everybody else. Business has been comparatively at a standstill during the past several days and a moderation in the weather allowing the mills and factories to again start up, the avenues of business and trade to be re-opened and the normal state of things to be resumed will be most acceptable.

NATIONAL GUARD NOTES.

The sum of \$15 per month was allowed each company for armory for the five months ending December 31, 1887.

It is likely the board at its April meeting will provide for an examining board to examine all line, field and state officers.

It is likely Dr. John G. Cook, of Empire City, will be commissioned assistant surgeon of the Second regiment, vice Lieut. Dr. S. N. A. Downing, resigned.

Orders have been issued by Col. T. S. Smith, 2d regiment, for Major Rosa to reside at an election to fill vacancies in the line of K company at Bandon.

Sergeant George E. Chamberlain, of Albany, a very popular young attorney, has been appointed inspector of rifle practice, second regiment, with the rank of first lieutenant.

Capt. George W. Smith, of E company, at Corvallis, will be detached from his company and will accept the position of engineer officer on Col. Smith's staff, holding his present rank.

An application for the formation of a company at Grant's Pass has been received at brigade headquarters, and it will be allowed. This will be the tenth company in the Second, making that a full regiment.

The county court of Marion county has made an order allowing \$15 per month to each of the companies in Marion county—A, B and I. This aid was badly needed by the companies, and will be fully appreciated by them.

The state military board met Tuesday at the office of the adjutant-general at Salem, with all the members except Surgeon-General Saylor present. Most of the time of Tuesday was consumed in auditing vouchers and the consideration of financial business.

Hon. B. H. Ross, of Bandon, the new major of the Second, is a heavy lumber manufacturer, very wealthy, and exceedingly popular among the boys of G, H and K companies. He is a democrat, and was in the legislature in 1876, being the last democrat elected to the house from Coos county.

The board on Wednesday completed the auditing of all bills, and placed the vouchers in the office of the secretary of state for warrants. But little attention was paid to the formation of regulations by the board at this meeting, but in April it is likely a full code will be adopted. Orders were made as follows: "That brigade headquarters be supplied with a suitable national flag, and the headquarters of the regiments with regimental flags."

Lumber and the Tariff.

Hermann of Oregon has submitted to the house a protest from saw mill owners, employees and loggers in Oregon and Washington territory, against any disturbance of the existing tariff on lumber. They represent that "lumber is one of the most valuable products of Oregon and Washington; that the output is growing and good wages are paid; but it leaves so small a margin to millmen that if they are compelled to compete with the products of free timber lands, low interest and contract labor of British Columbia, their industry must go to the wall; further, that the Eastern carrying trade of lumber on our transcontinental railroads, built by American capital, will be transferred to Canadian roads, owned by Englishmen and built by England; that remunerative labor now held by white men on our soil will be transferred to foreign soil, within view of our own, and there monopolized by Chinese coolies."

Homicide at Wasco.

George Wright died Sunday from wounds received from the pistol of J. R. Love, at Wasco, Wasco county, last Friday. Wright was standing by the stove in Marsh's drug store, when Love came in and shot at him, one ball striking him in the back and passing through the body. The cause was family trouble on account of Wright. About a year ago Love was divorced from his wife, allegations in the complaint being immaturity between her and Wright. A few days ago Love returned from Cour d'Alene mines, being absent several months. After staying in The Dalles a day or two he proceeded to Wasco, where the encounter took place. Love was lodged in jail last Saturday, and bound over in \$1000 bonds. He failed to furnish them, and awaits the action of the grand jury.

Convention and Concert.

The K. B. George convention and concert company, who are now giving a successful series of concerts in Corvallis, will be in Albany on Saturday, January 21, to commence a musical convention. They are well qualified and successful teachers of the divine art.

Republican State Central Committee.

A meeting of the Republican State Central Committee of Oregon is hereby called to be held at the office of the Chairman, in the city of Portland on Thursday, the 23d of February, 1888 at 11 o'clock a.m. for the purpose of selecting the time and place for holding the State Convention, and the transaction of such other business as may properly come before the meeting. A full attendance is requested. JOSEPH SIMON, Chairman. PORTLAND O., JANUARY 13, 1888.

THE DALLES BOAT RAILWAY.

Full Text of Senator Mitchell's Bill for the Proposed Undertaking.

In the senate of the United States on December 12, 1887, Senator Mitchell introduced the following bill making an appropriation for a final survey and estimating for the commencement of the construction of a boat railway around the obstructions to navigation at The Dalles and Celilo falls, in the Columbia river, which was read twice and referred to the committee on transportation routes to the sea-board.

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that there be, and hereby is, appropriated, out of any moneys in the treasury not otherwise appropriated, the sum of five hundred thousand dollars for the purpose of making final surveys and estimates for and the commencement of the work of construction of a boat railway, either in the state of Oregon, or Washington territory, around the obstructions to navigation in the Columbia river at the Dalles and Celilo falls, and for the purpose of blasting open the contracted waterways at Ten and Three Mile rapids, near said falls, to a navigable status for large river tonnage boats.

Sec. 2. That the secretary of war is hereby directed, at his earliest convenience after the passage of this act, to cause a final survey and estimates to be made of the plan and cost of a boat railway and the widening of the channel of such river at such points, in accordance, as near as practicable, with the general plan and suggestions for such improvements contained in the annual report of Major William A. Jones, corps of engineers, United States army, of date July twenty-seventh, eighteen hundred and eighty-five, on river improvements in Oregon and Washington territory, for the fiscal year ending June thirtieth, eighteen hundred and eighty-five; and upon the approval of such final survey, plan and estimates by the secretary of war, he is hereby authorized and directed to proceed with the construction of such boat railway and the widening of such channels in accordance with such final survey and plan.

The Cabinet.

To THE EDITOR OF THE HERALD: Will you please state in the cabinet or chiefs of departments at Washington were originally established as they are now? History.

Washington's cabinet consisted of a secretary of state, or foreign affairs, as this department was then called; secretary of the treasury; secretary of war, which included the navy, and attorney-general. The postmaster-general was not considered a cabinet officer till invited to cabinet meetings by Jackson in 1829. The navy department was established in 1798; the department of the interior in 1849.

CRAWFORDSVILLE ITEMS.

CRAWFORDSVILLE, Jan. 16. John Shanks, who resides east of the mountains, is here visiting relatives and friends.

Miss Burkhardt of Albany has been visiting Miss Danie Derrick during the past week.

Wm. Young, while coasting last Saturday, had the misfortune to dislocate the second finger of his right hand.

Mrs. Miles Carey, who has been spending a few weeks with her daughter, Mrs. M. Colby, returned home to day.

Our rent-paying tanners, J. H. Scott & Son, fear that the cold weather will greatly injure their business. The cold weather has caused the fur to form so thick in their vats as to burst them and allow the tanning liquors to escape.

The "oldest inhabitant" was frozen up at last accounts, consequently we are unable to say just when the weather was so cold before. Our chills-six-bit thermometers have indicated the cold to be from 4 to 8 degrees below zero last week.

Homicide at Wasco.

George Wright died Sunday from wounds received from the pistol of J. R. Love, at Wasco, Wasco county, last Friday. Wright was standing by the stove in Marsh's drug store, when Love came in and shot at him, one ball striking him in the back and passing through the body. Farmers will find a good market for their produce at Kenton & Chase's new store, between the Opera House and the postoffice in this city, where there is always on hand a large stock of groceries and provisions.

ACCUSED MURDERESS DISCHARGED.

Mrs. Van Pelt, of Salem, Discharged for Want of Evidence.

Special to the Herald. SALEM, Jan. 17.—Mrs. Lizzie Van Pelt, on examination on a charge of infanticide, was to-day discharged, the prosecution failing to make out a case.

Last Night's Entertainment.

The Royce & Lansing Musical Comedy Co. and Swiss Bell Ringers gave another excellent performance at the opera house last evening. Theirs is a clean and enjoyable entertainment, and one which merits the liberal patronage of the public.

Mark Twain's First Lecture.

"Twenty-five years ago, when I first went to Carson," said a well known gentleman of that city yesterday at a down town hotel, "Mark Twain was just beginning to come to the front as a humorist. He was a quiet, gentlemanly sort of a fellow, who could tell a good story and take his quid potatoes with the boys and not show it much, even if he would drink all day. In those days, most any sort of an entertainment brought out a big crowd, and when it was announced one day that Mark was to deliver a lecture for the benefit of a meeting or other at the Episcopal church, it was understood from the start that there would be a perfect crush.

"Well, Mark ascended the steps into the pulpit about 8 o'clock, there being a whole lot of the boys and young women, friends of his, as well as a good many old people in front. Mark made a very polite bow and then unfolded a gigantic roll of brown paper. People thought at first it was a big map, but it turned out to be his lecture, written on great sheets of grocers' brown paper, with an ordinary grocers' marking brush. After his bow he turned his back to the audience and craned his head up to the lamp and thus read from the big sheets, as though it would be impossible for him to see any other way.

"The lecture was on 'The Future of Nevada,' and was the funniest thing I ever heard. He prophesied the great era of prosperity that was before us, and sought to encourage us residents of the sage brush region by foretelling what appeared to be Golconda like tales of impossible mineral discoveries. Right on the heels of it, however, came the marvelous discoveries of Virginia City, and then we thought he wasn't so far off in his humorous predictions. Many a time have I thought of that lecture of Mark Twain. It ought to have been published. I have read all his books, and I have never saw anything in any of them better than this."
